Function Operation Instructions (English)

1. Power On/Off

Take the earbuds out of the charging case to power on automatically, or press and hold the multi-function button on either earbud for 3 seconds to power off.

2. Pairing

Place the earbuds into the charging case to power off automatically, or press and hold the multi-function button on either earbud for 5 seconds to power off.

3. Bluetooth Connection Pairing

After successful pairing, the Bluetooth earbuds will continue entering the reconnection mode, and will be automatically reconnected to the previously paired mobile phone when powered on for the second time.

4. Play / Pause

During music playback, single click the multi-function button on either earbud to play music directly. During playback, single click the multi-function button on either earbud to pause music.

5. Track Switching

During music playback, press and hold the multi-function button on the left earbud for 2 seconds to switch to the previous track, and press and hold the multi-function button on the right earbud for 2 seconds to switch to the next track.

6. Volume Adjustment

Press and hold the multi-function button on the left earbud to increase the volume level by level, and press and hold the multi-function button on the right earbud to decrease the volume level by level.

7. Answer / Hang Up / Reject

When there is an incoming call on your mobile phone, single click the multi-function button on either earbud to answer the call.

8. Hang Up

During a call, single click the multi-function button on either earbud to hang up the call.

9. Incoming Call Rejection

When there is an incoming call on your mobile phone, press and hold the multi-function button on either earbud for 2 seconds to reject the call.

10. Low Harmon Period

When the earbuds are playing music, double click the multi-function button on the left earbud to switch to the low harmon in your ear tips.

11. Voice Assistant Activation

Triple click the multi-function button on the right earbud to activate Apple Siri or Google Assistant voice assistant operations on your mobile phone.

12. Device Safety Protection

When the battery power of the Bluetooth earbuds is low, a low-battery alert tone will play repeatedly, until the earbuds power off due to insufficient battery.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirements.

The device can be used in portable exposure conditions without restriction.

This device and its antenna(s) must not be co-located or co-operated with any other antenna or transmitter.
