Important safety instructions
Read all instructions before using this air purifier.
When using an electrical appliance, basic precautions should always be followed, including the following:

- Make sure the air purifier is plugged into a live 120V AC outlet.
- Always turn off and unplug the air purifier when not in use.
- Disconnect the power supply from your air purifier by unplugging the power cable before replacing filters and before cleaning and before servicing.
- Do not use attachments or filters which is not recommended by Aircillin
- Do not use the air purifier outdoors.
- Do not attempt to remove any part of the unit except the filters.
- Do not attempt to repair the air purifier.
- Do not attempt to plug in the machine when your hands are wet.
- Do not soak the purifier in water or splash water on it.
- Do not operate the air purifier near an open flame.
- Do not obstruct the air inlet and air outlet of the air purifier.
- Save these instructions for future reference.
- To reduce the risk of fire or electric shock. Do not use this fan with any solid–state speed control device.

Problem	Check items	Solution
The air purifier does not turn on	Whether the socket has power	Power on
	Whether the plug is loose from the socket	Connect the power
When the purification function is turned on, the sound is dull and the wind is small	Whether the air outlet is covered	Turn off the purifier and remove the covering
There is a peculiar smell at the air outlet	Whether there is a large amount of peculiar smell near the air inlet that continues to release	After removing the odor and using the purifier to run for a period of time, the odor will gradually disappear
	Whether the filter has reached the replace–ment time	Replace the filter

❖ The product may have a slight peculiar smell during the initial period of use, which is a normal phenomenon.

When using an electrical appliance, basic safety precautions should always be taken to re duce the risk of fire, electric shock, and/or injury, including the following:

1. READ ALL INSTRUCTIONS BEFORE USE.
2. To reduce the risk of shock, always unplug the air purifier from the electrical outlet immediately after using as well as before replacing or removing any filters.
3. The air purifier should always be placed on a flat, secure surface.
4. The cord should be kept away from any heated surfaces.
5. Never place or store the air purifier where it could fall or be pulled into a sink or bathtub.
6. Do not reach for the air purifier if it has fallen into water. Unplug the appliance immediately.
7. Do not place in or drop into water or liquid.
8. Do not place anything on top of unit.
9. Always keep the air purifier dry and do not operate in wet or moist conditions like bath rooms, laundry areas or similar moist indoor places.
10. Always unplug the air purifier when not in use.
11. Check your air purifier cord and plug connections. A faulty wall outlet or loose plug can cause the outlet or plug to overheat. Make sure the plug fits tightly in outlet.
12. Do not run power cord under carpeting, runners or similar type floor coverings.
13. Do not use this product outdoors.
14. Do not block air intakes or exhaust in any manner. Do not use on any soft surface, like a couch or bed, where the openings may become blocked.
15. Do not tilt or move the air purifier while the unit is powered on. Make sure the power is off and remove the plug from the outlet before moving.
16. Use this air purifier only for its intended use as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or serious injury to a person.
17. Press the power button to turn off the air purifier prior to removing plug from outlet.
18. Children aged 8 and over, as well as persons with reduced physical, sensory or mental abilities or who lack experience and knowledge, may use the device if they are supervised or instructed in the safe use of the device and are aware of the risks involved. Children sho uld not play with this instrument as a toy.
19. The device is not to be operated by any supply sources other than Information and Com munication Technology Equipment or A Class 2 Power Unit.
20. Unplug or disconnect the appliance from the power supply before servicing
21. WARNING: To Reduce The Risk Of Fire Or Electric Shock, Do Not Use This Fan With Any Soid-state Speed Control Device.
22. WARNING: To Reduce The Risk Of Fire, Electric Shock Or Injury To Persons, Do Not Use Replacement Parts That Have Not Been Recommended By The Manufacturer (e.g. Parts Made At Home Using A 3D Printer)
