Instruction

Bluetooth Pairing

Power on the headset, and it will automatically enter Bluetooth pairing mode. Search for and select the device named "LK-HS01-XXXX" in your phone's Bluetooth settings. Upon successful connection, the indicator light will turn off.

Change pairing

Disconnect the Bluetooth of the current phone or cancel the pairing, the indicator light will alternate between red and blue. Other phones can search for "LK-HS01-XXXX" and click to connect.

Reconnect

This headset supports automatic reconnection of pairing. After a normal power-on, it will automatically reconnect to the device that was last connected. Please ensure that the front-end device (such as a phone) has Bluetooth enabled.

Charging

When in normal Bluetooth connection mode, on the phone - Settings - Bluetooth, the remaining battery level of the current headset will be displayed. If the battery level is shown in red, it indicates that it needs to be charged. Connect the headset to the computer or a certified 5V1A charging head using the Type-C charging cable that comes with the headset, and the headset can be charged. It takes 2 hours to fully charge. The charging state means that the red light is constantly on, and when it is fully charged, the blue light is constantly on.

Note

Please use a USB power adapter with an output of 5V less than 1A.

The rechargeable battery of this product must be properly disposed of for recycling. Please do not place the battery in a fire to avoid explosion.

(Phone needs to support voice wake-up function)

Function	Status	Operation
Voice control	Bluetooth connected	Double-click ' ⏻ '

Note: In the Bluetooth connection status, double-click ' ⏻ '. After hearing the prompt, you can use voice control for your phone—saving you the time of manual phone operation, fast and smart.

Troubleshooting

Cannot turn on the headset.

Check if the headset are powered on, whether the buttons have been operated mistakenly, and activate the charging function at the same time.

Bluetooth connection failed.

First, make sure the device is turned on. Then, check if the indicator light of the headset is flashing alternately in red and blue. If the indicator light is in the breathing state of the blue light, it indicates that the headset are already connected to another device. In this case, you need to disconnect the currently connected device.

Unable to reconnect.

Confirm whether the front-end (such as the mobile Bluetooth) is properly turned on.

The volume of the headset is low.

First, make sure that the wearing method is correct. You can adjust the volume using your mobile phone.

Product parameter

Model:LK-HS01	Bluetooth:6.0
Charging time:~2h	Battery:180mAh
Input:5V/150mA	Distance:~10m
Operating time:~8h@60% Volume	Waterproof rating:IPX4
Profile:HFP, A2DP, AVRCP

Product maintenance records

Date	Bad phenomenon	Solution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
