

USER MANUAL FOR AI INTELLIGENT MECHANICAL DOG

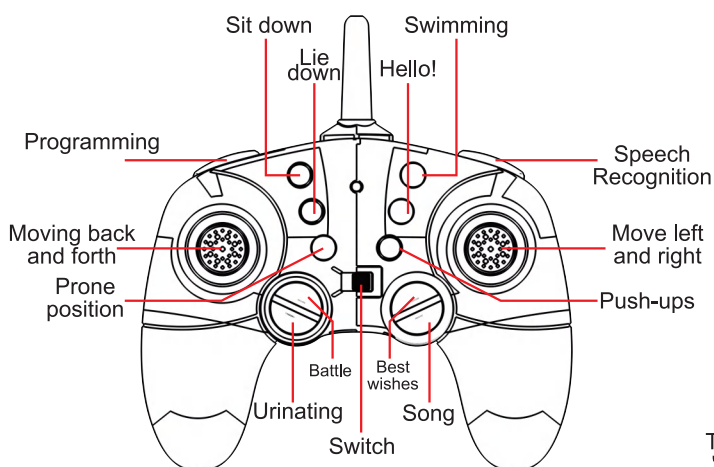

Mechanical Dog Description

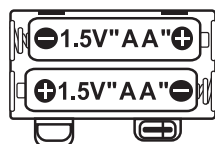

Connect the battery pack connection line to the USB cable (connect it in the correct way; the battery charging time is approximately 3 hours)

The mechanical dog uses a single 3.7V rechargeable battery.

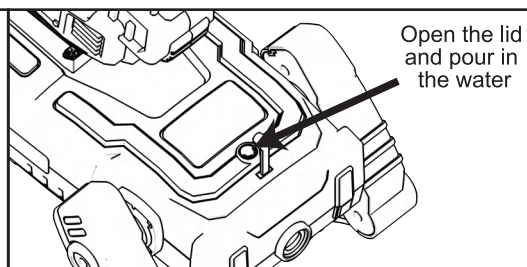

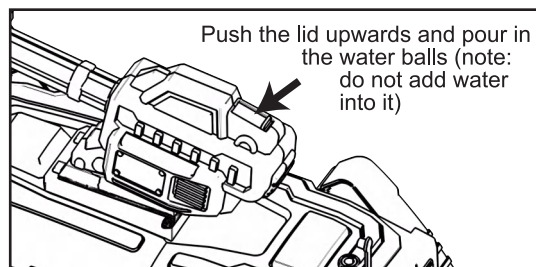

Remote Control Function Description

1: Built-in intelligent programming module, enabling various interesting combinations.
2: Operated via mobile phone APP.
3: Voice recognition remote control.
Available commands: forward, backward, left turn, right turn, sit down, lie down, swim, push-ups, kung fu, handstand, song, dance, study, act coquettishly, patrol, urinate, greet, bless, fire.

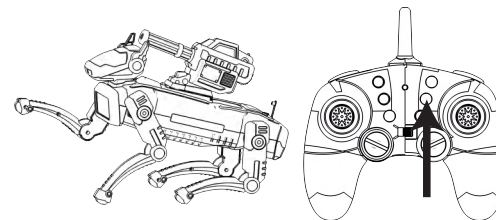

The remote control uses two 1.5V "AA" non-rechargeable batteries.

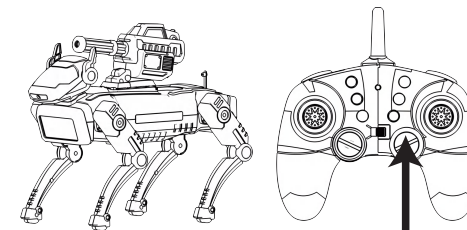

Remote Control Function Description

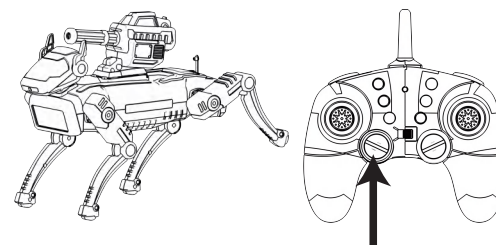

Hello!

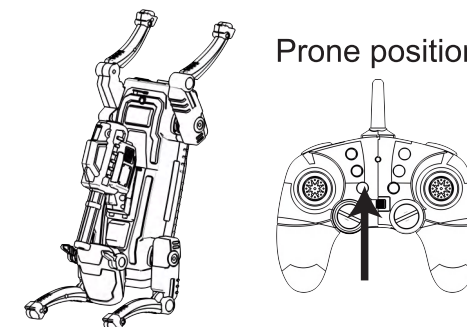

Best wishes

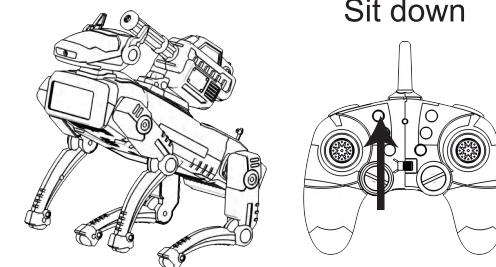

Urinating

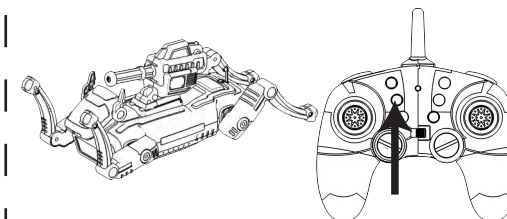

Prone position

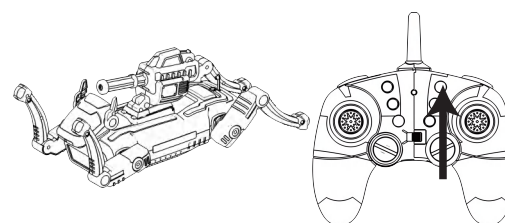

Sit down

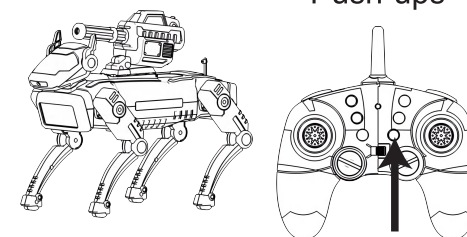

Lie down

Swimming

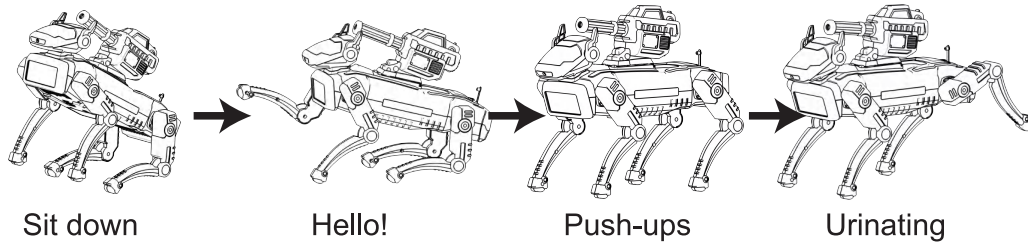

Push-ups

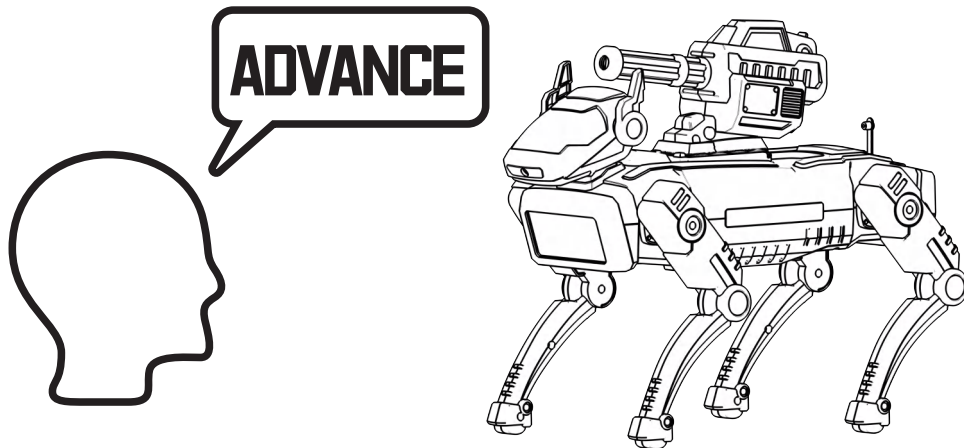

Programming function

By intelligently combining various actions and functions through programming, the mechanical dog can have more gameplay options, allowing babies to explore more fun.

Press the programming button to enter the programming mode. Then, sequentially press the "sit down" + "greet" + "push-ups" + "urinate" buttons. Finally, press the programming button once more to start executing the actions.

Remote Control Function Description

The call indicator light will flash.

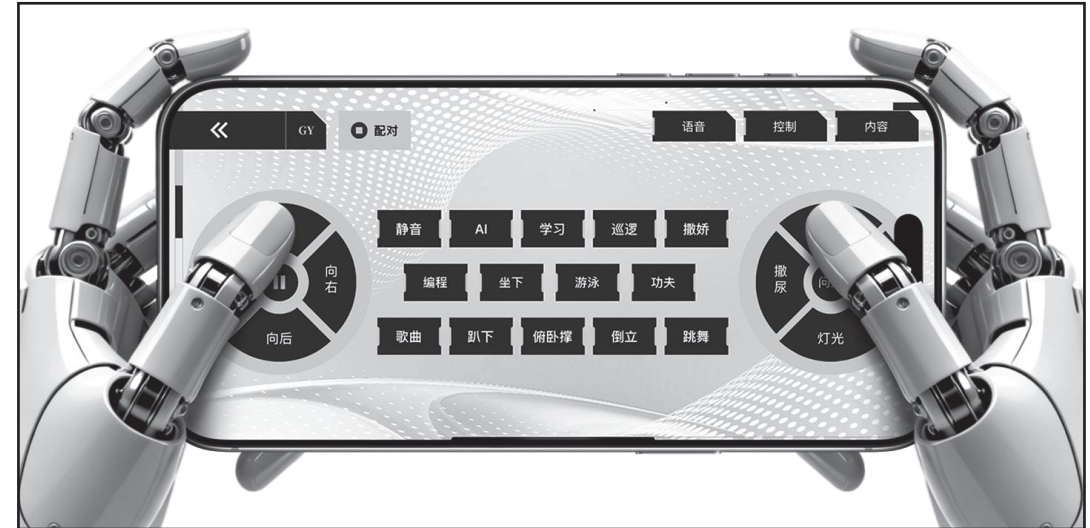

Press the voice function key on the remote control. The display light will turn on. Then, say your command and the robotic dog will perform the corresponding action according to your instruction. Press the voice function key again and the display light will go off, canceling the voice function.

Function Description:

Forward, backward, left turn, right turn, stop, sit down, lie down, swim, push-ups, kung fu, handstand, song, dance, study, act coquettishly, patrol, urinate, hello, blessing, launch

Scan the code to learn more about the APP

1. Please open WeChat Scan Code, scan and download the APP, and log in/register.
2. Turn on the Bluetooth switch on your mobile phone and then return to the APP page.
3. Then enter the remote control interface, click Pairing to complete the pairing.
4. Then perform the function operations.

FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
