- Bluetooth Version: 5.0
- Bluetooth Range <10M
- Battery Capacity:500mAh

Playing Time:5 hours
Charge Time: 2 hours
Power Input:5V=500mA
Rated Power: 5W
Frequency: 20Hz-20KHz
Voltage: 3.7V

Operating instructions

1. How to use Bluetooth:

Long press and hold the power button for 3 seconds to turn on the speaker, and the speaker will make a dripping sound.

Open the Bluetooth device settings, find the connection name "S-100", and click "Connect". If the connection is successful, the sound will turn on. When the speaker is used again, the smartphone will automatically connect to the speaker Bluetooth.

How to use TWS function

Take out a pair of speakers and turn them on. Do not connect your phone or other Bluetooth devices. Press the Pause/Play button three times continuously, and the two speakers will pair and connect. Then connect your phone to the speaker and enter stereo playback mode. The pair of speakers will change to left and right channel stereo mode.

Bluetooth automatic connection function:

After the Bluetooth connection is successful, it will automatically disconnect after crossing the effective distance. After returning to the effective distance, Bluetooth will automatically reconnect with the smart device.

2 Indicator light status:

Charging indicator: The red charging light is on or the red indicator light is off when charging is completed.

3. Led Lighting

Press the button lighting control to change lighting mode, you can enjoy different color changing.

Accessories :

Wireless Speaker/Charge cable/User Manual.

Notes:

Please ensure that the speaker is fully charged before first use.

When not in use, please press and hold the power button to turn off the speaker to avoid power outage.

Low battery alarm and automatic shutdown function: When the battery level is below 10%, the speaker will beep, then please charge speaker in time.

When the battery level is below 3%, the speaker will automatically turn off.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.
