GENERAL SAFETY WARNINGS

Please read and follow all safety statements, warnings, assembly instructions, use & care directions before attempting to assemble the Gazebo.

- When installing and assembling your gazebo, it is recommended that 2 or more adults are involved in the setup.
- **DO NOT** use the unit during an electrical storm, as there is a remote chance of getting struck by lightning.
- **DO NOT** climb on top of the gazebo. Falling off the gazebo can result in serious injury, possibly even death.
- **DO NOT** leave the gazebo assembled when there is a risk of high wind or snow, as possible damage will occur to the structure. In heavy rain or extremely windy conditions, carefully remove the product, fold and secure it and put in a safe place out of the elements.
- This package contains small items and plastic bags that should be kept away from children.
- Ensure that all connectors & poles are firmly secured in position fully. It is important to do so before use so as to avoid collapsing or damage to the item, which could result in injury.
- **WARNING:** Keep flame and heat sources away from the gazebo fabric. The fabric may burn if it is exposed to prolonged contact with a source of heat. **NEVER** barbecue under this gazebo or use lanterns that contain naked flames.
- **DO NOT** clean fabrics using organic solvents; do not spot clean stains - this type of fabric is not suitable for cleaning. Do not use chlorine bleach, do not dry clean.
- Avoid heavy soiling of material. Soiled coated fabrics should be cleaned by hand washing. Squeeze gently, do not rub, do not wring. Maximum wash temperature: 95 ° F. Use detergents for delicate fabrics. Dry in vertical position at ambient temperature. If the fabric unexpectedly gets wet, dry it immediately in order to avoid premature ageing of the product.
- Before assembling the gazebo, check that the gazebo is not damaged (bent metals elements, torn fabric). In case of damages do not use the product. Contact Barton Customer Service if there are any missing or damaged parts. Failure to comply with these guidelines will/can lead to further damage and possible personal or property damage.
- When not in use, fold the gazebo fabric and clean the poles and store it in a clean, dry place out of the reach of children.
