

7-in-1 Qi2 25W Wireless Charger

Instruction Manual

Product Components

Product Introduction

1. This product supports magnetic wireless charging for iPhone17-12 series and wireless charging for other mobile phones, earphones and watches that meet the Qi2 standard.
2. The mobile phone supports a maximum of 25W wireless charging, the earphones support a maximum of 5W wireless charging, and the Apple Watch support a maximum of 2.5W wireless charging.
3. The surface of the product is made of ABS + PC + aluminum alloy materials.
4. Multiple strong magnets are arranged to firmly attach the mobile phone.
5. The magnetic charging position for the mobile phone can be rotated 50° up and down to adjust the viewing angle of the mobile phone.

Product Parameters

Product Model: iw39
Input Interface: Type-C
Input Power: 12V=3.75A, 15V=3A, 20V=3.25A (45W/65W Charger Adapter)
Output for Mobile Phones: 25W/15W/10W/7.5W/5W
Output for iWatch: 2.5W
Output for Earphones: 3W/5W (Max)
Output for TEC Cooling Fan: 7W
Product Standard: Qi2 25W Standard
FCC ID: 2BETZ-IW39

Power Split Technology with different Charger Adapter:

30W PD charger adapter power distribution table PD:12V/2.5A				
MPP Mobile Phone	EPP10W Mobile Phone	Watch	Earphone	TEC Cooling Fan 7W(Input)
15W	NA	NA	NA	7W
NA	10W	NA	NA	NA
NA	NA	2.5W	5W	NA
14W	NA	NA	NA	7W
10W	10W	NA	NA	7W
5W	10W	2.5W	3W	7W

36W PD Charger Adapter Power Distribution Table PD: 12V/3A				
MPP Mobile Phone	EPP10W Mobile Phone	Watch	Earphone	TEC Cooling Fan 7W(Input)
24W	NA	NA	NA	7W
NA	10W	NA	NA	NA
NA	NA	2.5W	5W	NA
19W	NA	NA	NA	7W
15W	10W	NA	NA	7W
10W	10W	2.5W	3W	7W

45W PD Charger Adapter Power Distribution Table PD:15V/3A

MPP Mobile Phone	EPP10W Mobile Phone	Watch	Earphone	TEC Cooling Fan 7W(Input)
25W	NA	NA	NA	7W
NA	10W	NA	NA	NA
NA	NA	2.5W	5W	NA
25W	NA	2.5W	3W	7W
24W	10W	NA	NA	7W
19W	10W	2.5W	3W	7W

65W PD charger Adapter Power Distribution Table PD:20V/3.25A

MPP Mobile Phone	EPP10W Mobile Phone	Watch	Earphone	TEC Cooling Fan 7W(Input)
25W	NA	NA	NA	7W
NA	10W	NA	NA	NA
NA	NA	2.5W	5W	NA
25W	NA	2.5W	5W	7W
25W	10W	NA	NA	7W
25W	10W	2.5W	3W	7W

Remark: For a better user experience, it is recommended to use 65W Charger Adapter

Product Parameters

1. Connect the adapter to power on, and the white indicator light stays on for 3 seconds and then goes out.
2. Place the device in the corresponding charging area to start charging. Please select a suitable adapter according to the requirements of your charging device. When charging multiple devices simultaneously, to avoid the situation where the charging device cannot enter the fast charging mode or has unstable charging due to insufficient input power of the adapter, it is recommended to use an adapter with a power of 45W or above.
3. *When power on, The power indicator light turn on for 1 seconds then off
*When standby mode, The power indicator light off
*When charging, The power indicator light breathers 5 seconds then off
*When fully charged, The power indicator light off
*When meet FOD, flashing on for 200ms and off for 200ms
4. The touch switch at the bottom controls the switch and brightness of the ambient light. Touch it once to turn on the light (high brightness) - medium brightness - low brightness - off, and it cycles continuously.
5. Foreign Object Detection: When a metal or magnetic object is placed on the wireless charger, the indicator light blinks in red.
6. If the mobile phone/earphones/watches cannot be charged normally, please move them slightly to find the correct charging position.

Cautions

1. The suitable working temperature range of this product is between -10°C and 45°C. When in a high-temperature environment, the wireless charging efficiency will decrease. When using it in cold regions, please ensure that the ambient temperature is higher than -10°C, otherwise the wireless charger may not work properly.
2. During the process of charging the mobile phone, the wireless charger may generate heat, which is a normal phenomenon.
3. Do not disassemble this product without permission.
4. To ensure the service life of the product, when performing wireless charging, please do not place metal objects, magnetic objects, etc. on the wireless charging device.
5. Do not place the product in water to avoid damage caused by water ingress.
6. Try to avoid making the product work at full load as much as possible to prevent affecting the charging efficiency.

Packing list

1* 7-in-1 Qi2 25W Wireless Charger Stand
1* Type-C to C charging cable, 1M
1* User manual

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
