

TURTLEBOX®

USER MANUAL

CONTROL PANEL

PORT

This port is secured below a waterproof flap in the rear of the box. Flap must be closed in order to protect the port.

USB-C CHARGING
INPUT/OUTPUT

BLUETOOTH® PAIRING INSTRUCTIONS

THIS BUTTON CAN BE FLASHING OR SOLID

FLASHING button light means “looking for a device (phone, tablet, or computer) to pair with”

SOLID button light means “found/paired with a device” To **UNPAIR** a device, hit the solid button and it will start flashing again.

PAIRING A DEVICE: When **THIS** button is blinking, select “Turtlebox Ranger” on your device’s bluetooth menu. After you pair the first time, the Turtlebox will remember your phone and re-pair automatically the next time you power it on.

STEREO PAIRING TWO TURTLEBOXES

1. Pair your phone to first Turtlebox with **THIS** button.
2. Make sure the second Turtlebox is not paired to another phone.

3. Push **THIS** button on the first Turtlebox, then push **THIS** button on the second Turtlebox.
4. To end stereo pairing, push the **THIS** button on either speaker.

The primary speaker will continue to be connected to your phone. Note: Keep your phone within clear range of the primary Turtlebox (the Turtlebox with the solid Bluetooth light)

PAIRING 2 OR MORE COMPATIBLE TURTLEBOX SPEAKERS: PARTY MODE

1. Pair your device to the first Turtlebox with **THIS** button
2. Make sure the additional Turtleboxes are not paired to another device.
3. Push the **THIS** button on the first Turtlebox, then push the **THIS** button on every other Turtlebox you want to join the party. This button works like an on/off switch.

4. To end party mode pairing, push the **THIS** button on any speaker. The primary speaker will continue to be connected to your device.

CARE & MAINTENANCE AROUND WATER

Your Turtlebox speaker has an **IP67 WATERPROOF/ DUSTPROOF** rating **WHEN THE PORT FLAP IS CLOSED**. Nonetheless, special precautions must be heeded when using your speaker:

1. Always keep the port flap closed around water.
2. Do NOT allow your speaker to be exposed to any water or moisture while it is being charged or while it is plugged into a power outlet. Doing so can raise the risk of electric shock and also cause damage to your speaker.
3. **If your speaker is exposed to salt water, wash it off with fresh water after use. Treat it like a nice fishing reel.**

TECHNICAL SUPPORT

For technical support issues, please visit www.turtleboxaudio.com. You can find operation manuals, videos and Frequently Asked Questions on our website.

IMPORTANT SAFETY PRECAUTIONS & BATTERY INFORMATION

1. Do not allow children to play with your speaker without adult supervision.
2. Before using your speaker, inspect the ports and jacks to make sure that they are clear of dust and debris before charging or inserting an AUX cable.
3. Do not drop, disassemble, deform, or modify your Turtlebox.

- 4. Do not insert any objects into the charging or auxiliary ports, as operating damage will result.
 - 5. When your speaker is not in use, the best place for storage is in a cool, dry place.
 - 6. Do not expose your speaker to excessive heat, flames or fire.
 - 7. This product will turn itself off when the internal temperature reaches 140 degrees F.
 - 8. Do not listen to your speaker at high volumes for extended periods of time.
 - 9. Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas.
 - 10. Turn off your product prior to boarding an aircraft.
 - 11. Do not attempt to repair this product yourself.
- Contact Turtlebox Audio at turtleboxaudio.com if your speaker is in need of service.

- 12. Do not place speaker near objects that generate a strong magnetic field.
- 13. Unplug this device when not in use for long periods of time or during lightning storms.
- 14. Do not play your speaker while it is charging, as it will reduce the life of your battery.
- 15. The device is equipped with an integrated lithium ion battery. Do not attempt to remove the battery from the device.
- 16. The battery used in this device may present a risk of fire or chemical burn if mistreated.

CERTIFICATIONS

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and

- this device must accept any interference received, including interference that may cause undesired operation.
- Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- FCC Caution:
- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
 - This device and its antenna(s) must not be co-located

- or operating in conjunction with any other antenna or transmitter.
 - This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
- Industry Canada (IC) Compliance Notice:**
This device complies with the Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:
1. This device may not cause interference, and
 2. this device must accept any interference, including interference that may cause undesired operation of the device.
- Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.
- Radiation Exposure Statement:
This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

- Industry Canada Statement:
CAN ICES-3 (B)/NMB-3(B)
- Avis de conformité d'Industrie Canada (IC):**
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
1. L'appareil ne doit pas produire de brouillage;
 2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
- Déclaration d'exposition aux radiations:
Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20cm de distance entre la source de rayonnement et votre corps.
- Déclaration d'Industrie Canada:
CAN ICES-3 (B)/NMB-3(B)
- ⚠WARNING:** This device contains neodymium magnets. Magnets can affect the functioning of pacemakers and implanted heart defibrillators. If you can use these devices, keep sufficient distance from the magnet. Warn others who wear these devices from getting too close to magnets. The magnets that are mounted internally to this product will start to lost their strength (magnetic

- properties) at 175 degrees F (80 degrees C). Magnets produce far-reaching, strong magnetic fields. They could damage TVs and laptops, computer hard drives, credit and ATM cards, data storage media, mechanical watches, hearing aids and speakers. Keep unit away from devices and objects that could be damaged by strong magnetic fields.
- ⚠WARNING:** Our products can expose you to Styrene and Bisphenol A(BPA) which are known in the state of California to cause cancer and reproductive harm.
- For more information visit: www.p65warnings.ca.gov.
- Note:** We include this warning to comply with the laws of the State of California. Under the Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65), it is nearly impossible to ascertain with 100% scientific certainty whether a specific product that we manufacture, sell, or distribute contains a listed chemical at the exposure level that requires a warning. Businesses that sell products in California can comply with Proposition 65 by providing a warning to consumers based only on knowledge about the presence of certain chemicals on the list without attempting to evaluate the exposure levels of those chemicals. Turtlebox Audio has chosen to provide a warning based only on its knowledge about the presence of certain chemicals without attempting to evaluate the exposure levels.
