5 Reminder

Do not remove the power supply when StarryHub is still on. Always power off StarryHub before removing power supply.

Do not look directly at the camera lens or point the lens towards human eye when the lens is powered on, to avoid damage to the eyes caused by strong light.

Do not obstruct or block the air inlet or outlet of the StarryHub, to avoid affecting the cooling process, which may cause damage to the electronic components.

Do not use cloth or paper to wipe off the lenses to avoid damage to the lenses.
You can use an air blower to remove dust on the lens surface. Do not touch the lenses regularly.

Do not use detergent to clean the equipment to avoid corrosion.

Keep the StarryHub and its accessories out of the reach of children.

Please make sure to use the StarryHub in a dry and ventilated environment.

Do not store the StarryHub and its accessories under extreme temperature because extreme temperature will shorten the life of electronic parts.

Do not put the StarryHub or its accessories into any drying machines or heating devices.

6 After-sale Service And Warranty

Thank you for choosing StarryHub and supporting CZUR. Please go over below so you can understand how after-sales service works and what the warranty terms are.

1. All warranty terms and after-sales service are following the local laws and regulations in the territories of the CZUR authorized sellers.

If there's no specified laws or regulations in this territory, standard warranty is 12-month from the date of purchase for all hardware, excluding nature expiration, artificial damage, unusual breaks and terms listed below in non-warranty coverage.

2. Non-warranty coverage:

1) Standard working environment temperature should be within the range of 5~40 degrees Celsius.

2) Failure or damage caused by incorrect installation or use in non-specified working conditions (excessive temperature, excessive humidity, etc.).

3) Damage caused by non-official parts or parts replaced by users without instruction or confirmation from CZUR support team.

4) Damage caused by disasters, accidents or human factors.

5) Failure or damage caused by unauthorized disassembly, repair, modification, or abuse.

6) Damage caused by repairs performed by any none CZUR authorized parties.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following
measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio / TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement
To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum 20cm between the radiator and your body.
This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
