>3s BT

重置 / Reset

>3s BT

驱动下载 / Software Download
download.vgnlab.com.cn

03 DPI调节 / DPI Set

点击底部DPI切换键可以快速切换DPI,免驱提供以下DPI档位和状态指示 / Press the DPI button to quickly switch the DPI. The free drive provides the following DPI set and status indications

04 回报率设置 / Polling Rate Set

可通过驱动直接修改回报率 / Set the rate by software

05 电量状态指示 / Battery Indication

- ≤15%
- 充电中 / Charging
- 充电完成 / Charging completed

FCC Warning Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
