EG9842 Revised 10/22

Table-Mounted Pot Rack

ASSEMBLY INSTRUCTIONS

MODELS UP TO 96" LONG

Step 1 - Bolt leg to each end of table.

Please note:

- If you are assembling table-mounted pot rack to a pre-existing table, you are required to drill appropriate holes. Tabletop hole is 1-5/8" diameter. Undershelf hole is 1/2" diameter.
- If you ordered an optional adjustable shelf for table-mounted pot rack, attach to tubular supports now at desired height.

Please note before continuing:

For easier assembly, turn table onto its side.

Step 2 - Assemble top bar.

Step 3 - Attach cross top supports and bottom supports to top bar assembly.

Step 4 - Attach bottom rack bar.

Step 5 - Attach leg clips to bottom rack bar.

Step 6 - Attach leg clips to legs.

Tighten all hardware.

Table-Mounted Pot Rack

ASSEMBLY INSTRUCTIONS

MODELS 108" AND LONGER

(FOR MODELS UP TO 96" LONG, GO TO FRONT PAGE)

Step 1 - Bolt legs to table's undershelf.

- If you are assembling table-mounted pot rack to a pre-existing table, you are required to drill appropriate holes. Tabletop hole is 1-5/8" diameter. Undershelf hole is 1/2" diameter.
- Racks 108" and longer have three legs. You will need to drill a hole for each end leg, plus one for the center leg.
- If you ordered an optional adjustable shelf for table-mounted pot rack, attach to tubular supports now at desired height.

Please note before continuing:

For easier assembly, turn table onto its side.

Step 2 - Affix leg support bars to legs.

Step 3 - Attach top bar pieces to leg support bars.

Step 4 - Attach cross top supports and bottom supports to top bar assembly.

Step 5 - Attach bottom rack bar.

Step 6 - Attach leg clips to bottom rack bar pieces and center leg.

Step 7 - Attach leg clips to bottom rack bar pieces and end legs.

Tighten all hardware.
