

# ASSEMBLY INSTRUCTIONS

## REPLACEMENT NETTING FOR 5LGZ6526-V5 Model # 5LGZ6526-V5-NT

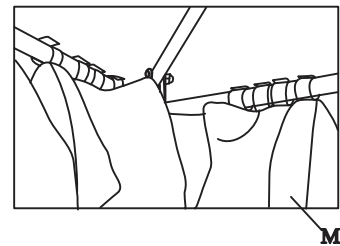

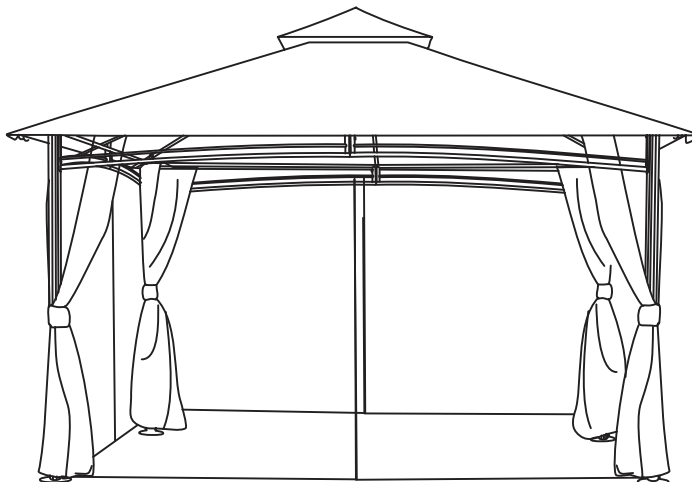

\_\_\_\_\_ M

M	Mosquito netting	4pcs
---	------------------	------

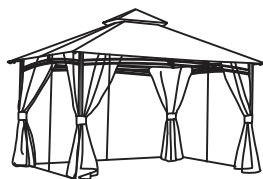

### 1 Remove the previous netting panels

### 2 Attaching the new netting panels

- From the tiebacks on the Mosquito Netting (M), find the long side and short side of each panel. Attach the mosquito netting up from the inside of the garden house with hook and loop straps on the long side and the short side of frame. Slide the mosquito netting open and close and test the zippers to make sure they match and run smoothly.
- Locate the tiebacks sewn at the outer corner of the netting and always wrap around the corner posts. To hold open the netting panels to the corner posts unzip and slide the panels to the corner posts. **the fabric** tiebacks sewn to the inside of the netting corner to wrap the netting all around the corner post.
