

Thanks for your purchase!
If you have any problems, pls feel free to contact us.

(Please select 2.4GHz WiFi, 5GHz is not supported)

Download "Briturn" APP from
Apple Store or Google Play
Store, or scan the QR code.

Briturn APP

Instructions

Step 1: Install the bulb.
Step 2: Place the bottled candle on the candle warmer lamp base, then turn on the power.
Step 3: Turn on the switch and use the candle warmer lamp.

Main Mode: ZJ-LWBDLA1WB-WUS-4K-BT
Working environment: -5°C to +45°C (normal operation)
Power: 110V 50W Max / 220V 50W Max
Power supply: AC 85V~235V, 50/60Hz
Suitable Phone OS: Android 8.0 / IOS 12.0 or later

① Network Pairing Mode Activation

Press and hold the power key  for 5 seconds. The LED indicator on the controller and the lamp bulb will flash rapidly, indicating the device has entered network pairing mode.

(Important Note: Please complete network configuration within 3 minutes after the lamp starts flashing.)

After network pairing, the physical controller's light matches the switch state:
light on = switch on, light off = switch off.

1. Open your phone Ble, turn on device.
2. Enter "Briturn" app, tap "Add Device" or click "+" at the top right corner.
3. Tap the device on the list, then select your Wi-Fi network, enter the password, done!

2

1. Open your phone Ble, turn on device.
2. Enter "Briturn" APP, tap "Add Device" or click "+" at the top right corner.
3. Tap the device on the list, then select upper right corner "Ble Local Mode", done!

Press and hold the power key for 5 seconds. The LED indicator on the controller and the lamp bulb will flash rapidly, which means the factory reset is completed successfully.

When the APP sets 2H/4H/8H standard timing, the device indicator will synchronize with the APP.
For non-standard APP timing:
•0-2H: 2H indicator on •2-4H: 4H indicator on •4-8H: 8H indicator on
Actual timing duration follows APP settings.

The latest operation (APP or physical button) takes effect. New timing automatically overwrites the previous one.

- ① When the device connects to WiFi for the first time, a shortcut for pairing third-party smart voice speakers will pop up immediately. Simply tap it to complete quick binding.
- ② Scan the QR code labeled "instructions" to view the electronic manual. For more information, go to Help Center - FAQs in the APP, or submit your ticket via Get Support.

Method 1

Method 2

3

(1) **Dimming:** You can adjust the light brightness from 0% to 100%.

(2) Timer: 24-hour timing function (fixed timing of 1/2/4/8 hours, cycle timing, fade timing)

5

(3) Smart Mode: Automatic light on/off for home/away mode, sunrise & sunset function (gradual fade-in and fade-out), customizable settings

(4) Group Control: Connect and control multiple devices to turn on/off simultaneously

6

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) The device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirements. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
