LED Battery Power Display

BOLOXA B

Battery indicator of Charging Case

When charging, the digital display will show the Real-time power of the charging case from "0" to "100"; When fully charged, it will be 100 all the time until the power supply is cut off.

"0" to "100"

Battery indicator of Earbuds

Put the earbuds back into the box to charge the earbuds. The battery icons will flash when charging, will turn off after fully charged.

icons will flash

* Features with NTC temperature-control protection, B16 earbuds will not charge if the temperature reaches 45 degrees or higher. (Charging case will automatically protect themselves in that case.) It is recommended to stop charging firstly, recharge after the temperature drops below 45 degrees.

Power On/Off

BOLOXA BOLOXA B

Automatically Power On/Off

The earbuds will automatically power on when you take the earbuds out of the charging case; they will power off when you put them back into the case.

Manually Power On

Touch & hold earbud for 3s, the earbud's LED light will flash **Blue** for 1s and then power on.

Manually Power Off

Touch & hold either earbud for 5s, both will flash **Red** light and then power off. (In disconnected mode)
