SYSTEM SETUP

[TV System]

Set TV Type to NTSC, PAL, or Auto.

[LAST MEMORY]

1. ON: Each time you turn on the unit or stop the disc, it will memorize the last play duration. Next time you turn on the unit and play the same disc, the unit will play from that memorized point.
2. OFF: Disable the last memory function.

[Screen Saver]

1. ON: If the image remains motionless on the screen, for example the disc is paused, stopped etc., for several minutes, a screen saver will appear on the screen. You can press any key or button to wake it up.
2. OFF: Turn off the screen saver function.

[TV Type]

Setup panel display to 4:3PS, 4:3LB, 16:9

1. 4:3 Normal / PS PANSCAN

If the unit is connected to a conventional TV set, the wide-screen image will be displayed on the screen in its native aspect ratio with some part on the left and right cut off.

2. 4:3 Normal / LB LETTERBOX

If the unit is connected to a conventional TV set, the wide-screen image will be displayed in its native aspect ratio with black borders on the top and the bottom side.

3. 16:9 wide

Select this option if the unit is connected to a wide-screen TV set. The wide-screen image will be displayed in full screen in its native aspect ratio while the 4:3 image will be stretched out horizontally to fit in the screen.

[Password]

Enter the default password "0000" then set your password.

[Rating]

When setting a rating level, a password screen is shown. Follow the on-screen instructions. **Do not forget your password.**

[Default]

Return the portable DVD to factory default beyond the maximum output of the speaker in sound effects processing.

LANGUAGE SETUP

The Audio menu allows you to change the audio setup of the DVD.

[Osd Language] Set this on-screen display language in this item.

[Audio Lang] Set the default audio language.

[Subtitle Lang] Set the subtitle language.

[Menu Lang] Set the menu language.

AUDIO SETUP

[Key] Adjusts the key of the audio from # to b.

VIDEO SETUP

[Brightness] Adjusts the screen brightness.

[Contrast] Adjusts the screen contrast.

[Hue] Adjusts the screen hue.

[Saturation] Adjusts the screen saturation.

[Sharpness] Adjusts the screen sharpness between 0-8.

DIGITAL SETUP

[OP Mode]

1. Line Out

Separate a soundtrack into two independent ones. This mode can be regarded as night mode. For playing AC-3 DVD discs, the volume will be lower than RF OUT.

2. RF Remod

Combine two soundtracks into one. This mode can be regarded as a day mode.

For DVD discs playing AC-3, the volume is higher than the Line Out.

[Dynamic Range] FULL, 6/8, 4/8, 2/8, OFF.

[Dual Mono] Set down Stereo, Mono L, Mono R, Mix-Mono.

TROUBLESHOOTING

Before contacting the customer service,please kindly check by yourself with the following chart.

Trouble shooting	Solution
The player can't read discs	• Please clean the laser and DVDs with the alcohol first.(P2) • Ensure the disc is in the right format for our DVD player.Our player doesn't support Dolby,pirate,burnt and blu rays DVDs. • Find your product order and email to "Contact seller" (help@pofotovip.com)

The player doesn't work	• Make sure the power switch has been set to the "ON" position • Check connections to the AC adaptor or battery pack. • Check the status of the indicator light Under the premise of power connection, if it's on, there is a problem with the motherboard; if it's off, there is a problem with the motherboard or power adapter • Find your product order and email to "Contact seller" (help@pofotovip.com)
Picture is distorted	• The disc might be damaged. Try another disc • It is normal for some distortion to appear during forward or reverse scanning
The player doesn't read MP4 on the USB or Card	DVD player supports MP4 files in your USB Drive/ Card, but you need to convert the formats first. You can download a converter FormatFactory, to complete the conversion. Any questions please contact customer service for more help. (help@pofotovip.com)
Remote controller doesn't work	• Replace the battery (AAA battery) • All buttons fail: A problem with remote controller or receiver • Individual buttons fail: Find your product order and email to "Contact seller" (help@pofotovip.com) • Note: The remote controller needs to be aimed directly at the front of the Video Player, within 8 m and 30 degrees (P7)

The player sound is too low.	• Check that the two speakers of the player are working properly,cover one speaker with your hand,and check if the other speaker is sounding • Check whether the disc you put in meets the specifications(P13).Our player does not support DTS,which is the audio track of Dolby Disc.Please try another disc(not pirate,burnt,Dolby and Blu-ray discs)to hear whether it will play louder
No sound or distorted sound	• The speaker is off if headphones are connected • Make sure your DVD is placed properly and all cables are securely connected into the appropriate jack. • Audio may not be output due to how files were created.
Can't advance through a movie	You can't advance through the opening credits and warning information that appears at the beginning of movies because the disc is programmed to prohibit that action.
Other problem	Static discharges or other external interferences can cause the DVD player to malfunction.When this happens disconnect the power plug and plug it back in.If the problem happened again, disconnect the device from main power and contact Customer Service or a repair shop.

WARRANTY
