

PROPER USE

Precautions and Care

SUPPORT

Trouble shooting & Support

Problem - Vehicle does not move or moves slowly.

- Make certain there are fresh alkaline batteries in the transmitter and that they have been installed in the correct position. You may need to re-sync the transmitter and vehicle. Refer to sync instructions.
- Are the (+) and (-) markings on the alkaline batteries in the same position as the (+) and (-) markings in the Transmitter Battery Compartment?
- Are the metal contact tabs touching, rusty or dirty in the transmitter?
- When the remote control or vehicle has low power, the remote control distance will be affected. In the meanwhile, there will be too low speed or climbing difficulty.
- Has the battery soft pack been installed in the vehicle?
- Make certain that the vehicle ON/OFF switch is in the "ON" status.

Problem - Vehicle moves by itself or exhibits reduced range from the transmitter.

Make certain there are no outside radio interference in your area. The best way to test this is to take the vehicle as far away from radio towers, electrical lines or tall buildings as possible to ensure no further radio interference will occur.

- Do not recharge Battery Pack if it is hot or warm to the touch. Allow Battery to cool before recharging. Recharging a hot or warm Battery will shorten the life of the unit.
- Do not recharge the Battery if it appears to be damaged or leaking.
- Do not use included Battery charging cord for anything other than the intended purpose.
- Do not dispose batteries in fire. Leakage, explosion and personal injury may occur.
- Do not attempt to disassemble Battery soft pack or Battery Charging Cord.
- Always remove Batteries from transmitter when not in use.
- Only an adult should charge Batteries.
- Always remove Battery Pack from Battery Compartment when not in use.
- Dispose of Lithium-Ion Battery Pack properly.
- When the car moves, please don't touch the four wheels of the remote control vehicle, so as to avoid twist wound or incised wound.
- The remote control vehicle can not fall from altitude or have serious collision, because it might damage the remote controller or shorten the service life of the vehicle.
- Please do not play the vehicle near the roadside, puddle, earth or other dangerous places, so as to avoid danger.

F.C.C. CAUTION:
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

USA & Canada 90-Day Limited Warranty

Motor Dayz warrants to the original purchaser that this product will be free of defects in materials and workmanship for ninety (90) days from the date of purchase. If a defect arises within the warranty period, Motor Dayz will, at its sole discretion, provide replacement parts, replace the product, or offer a coupon for our website for a new product of at least equal value. This Warranty does not cover damage resulting from unauthorized modifications, accidents, misuse, or abuse. A dated sales receipt is required for coverage under this Warranty. Purchases from unauthorized retailers, resellers, or distributors are not covered under this Warranty.

Should your item have a defect covered under this Warranty, either call the Consumer Service team by phone or email using the contact details listed below. Most issues can be resolved through troubleshooting in this manner. If necessary, you will be issued a Case Number and be provided instructions on how to obtain replacement parts, a replacement product, or a coupon.

Please allow 2 to 4 weeks for processing and delivery, depending on your location. Motor Dayz covers the cost of shipping for valid claims within the USA and Canada. DO NOT send any product to Motor Dayz. Any unsolicited product returns will be refused delivery and returned at the sender's expense.

1. Motor Dayz's liability for defects in materials and workmanship under this warranty is limited to providing replacement parts, a replacement product, or a coupon at Motor Dayz's sole discretion. In no event shall Motor Dayz be responsible for any incidental, consequential or contingent damages.

Valid only in the USA & Canada.

WHAT'S INCLUDED

Component Checklist

(1) R/C VEHICLE

(1) TRANSMITTER

(1) 7.4V LITHIUM BATTERY PACK

(1) USB CHARGER

(2) AA BATTERIES

VEHICLE

Installing Vehicle Battery

Charging

This vehicle is equipped with a removable Lithium-Ion battery soft pack that is recharged via USB.

1. Locate the battery compartment cover screw on the chassis of the vehicle.
2. Remove screw and slide open compartment cover.
3. Locate the Battery and Vehicle Connectors, shown above. Grab hold of the plastic connector. Using a fingernail, lift the locking tab and pull to separate the connectors. Do not grab and pull by the wires. Remove the Battery Pack.
4. Connect the supplied USB Charging Cord (shown above) by pressing the Battery and USB connectors together until the locking tab clicks in place.
5. Plug USB into any positive 5V DC USB port. Charging is completed in approximately 1-1.5 hours (when charging from a computer). While charging, the indicator light will glow red. Once fully charged the indicator light will turn glow green.
6. After charging is complete, reconnect the Battery and Vehicle and store the USB cord in a safe place. Replace compartment cover and secure with screw.

TRANSMITTER

Battery Installation

1. Locate battery compartment cover on back of transmitter. Remove the screw to open the Battery Compartment Cover.
2. Insert 2 "AA" size batteries.
Make sure the positive (+) and negative (-) markings on the batteries match up to the ones inside the Battery Compartment.
3. Replace the Battery Compartment Cover and replace the screw.

Note:
When replacing Transmitter batteries:
Do not mix old and new batteries.
Do not mix alkaline, standard or rechargeable batteries.
Use alkaline batteries only.

TRANSMITTER

Features and Functions

Syncing

This transmitter is equipped with 2.4GHz technology which allows up to 6 vehicles to be raced at the same time.

Before first use and after any time the batteries are replaced, the transmitter must be paired to the vehicle.

To sync transmitter and vehicle, follow the steps below:

1. Install batteries in transmitter.
2. Turn transmitter ON/OFF switch to the ON position.
3. Turn vehicle ON/OFF switch to the ON position.
4. Status light on transmitter will flash for pairing.
5. When status light stops flashing pairing is complete. You are now ready to play.
