Safety Instructions

This product has been designed with the utmost safety in mind.
However, incorrect use may lead to electric shock or fire. This is why users should observe the following instructions when using this device.
This device uses a semiconductor unit and contains no user serviceable parts. Do not disassemble this device, otherwise you are exposed to the risk of electric shock. If any damage to this product occurs, please have this product repaired by a qualified service technician.

Power source
Power supply of this unit must be match the serial plate data.

Heat source
Keep this unit out of heat sources like stove or direct sunlight.

Cleaning
Prior to cleaning, please disconnect power first. For cleaning, don't use liquid detergents or caustic liquids - just clean the unit with a soft cloth.

Heavy objects
Do not place heavy objects on the unit, otherwise damage might occur.

Connecting other devices
Before connecting other devices to this unit, please make sure to disconnect power. Otherwise damage to the unit or personal injury might occur.

Faults to be repaired
If any of the following problems occurs, please disconnect power to the unit and contact a qualified service technician.

A. Power cord or plug is damaged.
B. Liquids or other foreign objects have penetrated inside the product.
C. If the unit does not work even if it's being operated according to the instructions, don't press any buttons other than those described in these instructions. Otherwise, damage to this unit may occur along with a more demanding repair.
D. This unit has fallen on the ground from a big height.
E. Burns can be smelled from the product inside.

Maintenance
If you don't have enough technical knowledge necessary to maintain this unit, don't attempt to repair it by yourself. By removing cover, you are exposed to a risk of electric shock. If needed, please contact a qualified service technician.

Replacement of parts
If you need to replace any part of this unit, ask your service technician to make a replacement for equal spare part models. If other spare part models are used for replacement, serious damage, electric shock or shortening the unit's lifetime may occur.

Safety check
When done with the maintenance, ask your service technician to perform an on-site safety check to make sure that the unit's operation is safe.

Note:
Before using this product, read these instructions carefully and keep it well for future use.

Putting into operation

Before first use, be sure to read the safety instructions contained in this user's manual carefully.
We recommend that the BT speaker is fully charged before initial starting. Hold down the power button (No. 2) to turn on the BT speaker. Turning on/off is indicated by a sound signal. To turn the BT speaker off, hold down the power On button (No. 2).

LED indicator

The LED indicator shows the following states of the BT speaker:

- Blinking blue - the unit is ready to be paired via Bluetooth and the source of the audio signal is not connected
- Solid blue - the BT speaker is paired with another device via Bluetooth
- Solid green - Line-IN 3,5mm Audio Jack is connected
- Blinking green - the BT speaker's battery is empty
- Solid red - the BT speaker's battery is being charged

Pairing devices via Bluetooth

Turn on the BT speaker and search for its Bluetooth name "SSS1050" in the device to which you wish to pair and start the pairing process. If you are requested to enter a pairing code while your device and the BT speaker are pairing, use the code: "0000".
To cancel a device's pairing, press and hold Volume "+" and Volume "–" buttons (No. 3 and 5) simultaneously until acoustic signal sounds to indicate the device disconnection.

Note:
To ensure a stable Bluetooth connection, make sure that the distance between the BT speaker and your connected device is kept within 10m.

Attention:
Some connected devices support common volume setting. If some of the connected devices do not support this feature, the volume setting will operate separately on each device.

Audio AUX IN

The BT speaker is equipped with a 3.5 mm jack (No. 7 in figure "description of the BT speaker"). Your device can be connected to the BT speaker via the supplied audio cable. First connect the audio connector to your appliance and then into the socket in the BT speaker.

Attention:
Before connecting your device to the BT speaker, ensure that the output signal from your device is at its minimum level (minimum output volume). This will prevent damaging the BT speaker.

Play/Pause button

- Press the BT button (No. 4 in the figure "description of the BT speaker") to start or stop music playback during a Bluetooth connection.
- If the BT speaker is connected to your phone via Bluetooth, long pressing the Play/Pause button will dial the last called number. Long pressing the button will also reject an incoming call.
- The incoming call to a Bluetooth connected paired device will be accompanied by an acoustic signal which will interrupt the music being played back. To answer/hang up an incoming call, press the Play/Pause button briefly.

Attention:
Controlling smart devices using the BT speaker buttons may differ depending on the connected device.

Skipping to next track

Depending on the connected device, you can skip to next track by long pressing the No.3 or 5 button.

Copyright © 2018, Fast ČR, a. s.

Volume dial

The volume of the BT speaker (-/+) is set with No. 3 and 5 buttons in figure "description of the BT speaker".

Charging

A charged battery provides power for several hours of operation at normal volume levels. A high volume consumes more battery power; therefore, we recommend listening at normal volume levels.
To charge he BT speaker, connect the charging adapter to a power socket and then to the BT speaker. The BT speaker will indicate low battery by acoustic signal.

Attention:
For charging, use only the original accessories supplied with the appliance. To achieve the maximum battery lifetime, it is best to start charging the battery after the low battery power notification by the LED indicator. Charge continuously until fully charged. When the battery operating time becomes very short, the battery lifetime has been use up; we recommend that you have the battery replaced at your authorized centre.

Recommendation:
If the unit is not to be used for an extended period of time, we recommend to fully charge the battery once every two to three months. We do not recommend storing the unit with a flat battery to prevent irreparable damage to the battery (loss of capacity).

Protection class (IPX5)

This unit is protected against water jets with water coming from a 6.3mm jet at all angles at a flow rate of 12.5 litres per minute and a pressure of 30kN per square meter for at least 3 minutes from a 3m distance. The dust protection is defined by the value of 6 which guarantees the resistance against the ingression of dust particles into the unit. If dust gets behind the cover grid, blow it out carefully. Take care not to damage the speaker parts

Attention:

Remember to always seal the BT speaker's inputs with original blind plugs (No.6-7 in figure "description of the BT speaker") and make sure the plugs are not damaged. Never charge the unit during possible contact with fluids. The unit is designed for contact with clean water only without any additives. Avoid exposing the unit to contaminated or industrially treated fluids (such as lemonade, sea/salt water, oils, etc.).

Technical specification

Design resistant against water and dust with IPX5.
Class D amplifier (for rich sound with minimum energy consumption)
Built-in rechargeable battery

Sound:
Output power: 5 W (impedance: 4 Ω)
Frequency response: 180 Hz - 18 kHz
Total harmonic distortion: ≤ 1 %
1 speaker + 1 passive radiator

Inputs:
Bluetooth Audio 4.1
Bluetooth range: within 15m
Audio line input (3.5mm stereo Jack)

Other:
1/4" mounting thread
Handsfree feature
Built-in battery: 1500 mAh Li-Ion
Playback time: approx. 8 hours
Micro USB charging time
Max. charging time: 4 hours
Accessories: USB charging cable, 3.5mm AUX cable, user's manual, fastener
Dimensions: 98 x 90 x 50 mm
Weight: 300 g

INSTRUCTIONS AND INFORMATION REGARDING THE DISPOSAL OF USED PACKAGING MATERIALS

Dispose of packaging material at a public waste disposal site.

DISPOSAL OF USED ELECTRICAL AND ELECTRONIC APPLIANCES

The meaning of the symbol on the product, its accessory or packaging indicates that this product shall not be treated as household waste. Please, dispose of this product at your applicable collection point for the recycling of electrical & electronic equipment waste. Alternatively in some states of the European Union or other European states you may return your products to your local retailer when buying an equivalent new product. The correct disposal of this product will help save valuable natural resources and help in preventing the potential negative impact on the environment and human health, which could be caused as a result of improper liquidation of waste. Please ask your local authorities or the nearest waste collection centre for further details. The improper disposal of this type of waste may fall subject to national regulations for fines.

For business entities in the European Union
If you wish to dispose of an electrical or electronic device, request the necessary information from your seller or supplier.

Disposal in other countries outside the European Union
If you wish to dispose of this product, request the necessary information about the correct disposal method from local government departments or from your seller.

CE The product meets EU requirements.

Hereby, FAST ČR, a.s. declares that the radio equipment type SSS 1050 is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following internet address: www.sencor.eu

Changes in the text, design and technical specifications may be made without prior notice and we reserve the right to make such changes.

The original version is in the Czech language.

SENCOR®

EN Warranty conditions

Warranty card is not a part of the device packaging.

This product is warranted for the period of 24 months from the date of purchase to the end-user. Warranty is limited to the following conditions. Warranty is referred only to the customer goods using for common domestic use. The claim for service can be applied either at dealer's shop where the product was bought, or at below mentioned authorized service shops. The end-user is obligated to set up a claim immediately when the defects appeared but only till the end of warranty period. The end user is obligated to cooperate to certify the claiming defects. Only completed and clean (according to hygienic standards) product will be accepted. In case of eligible warranty claim the warranty period will be prolonged by the period from the date of claim application till the date of taking over the product by end-user, or the date the end-user is obligated to take it over. To obtain the service under this warranty, end-user is obligated to certify his claim with duly completed following documents: receipt, certificate of warranty, certificate of installation.

This warranty is void especially if apply as follows:

- Defects which were put on sale.
- Wear-out or damage caused by common use.
- The product was damaged by unprofessional or wrong installation, used in contrary to the applicable instruction manual, used in contrary to legal enactment and common process of use or used for another purpose which has been designed for.
- The product was damaged by uncared-for or insufficient maintenance.
- The product was damaged by dirt, accident of force majeure (natural disaster, fire, and flood).
- Defects on functionality caused by low duality of signal, electromagnetic field interference etc.
- The product was mechanically damaged (e.g. broken button, fall).
- Damage caused by use of unsuitable media, fillings, expendable supplies (batteries) or by unsuitable working conditions (e.g. high temperatures, high humidity, quakes).
- Repair, modification or other failure action to the product by unauthorized person.
- End-user did not prove enough his right to claim (time and place of purchase).
- Data on presented documents differs from data on products.
- Cases when the claiming product cannot be indentified according to the presented documents (e.g. the serial number or the warranty seal has been damaged).
