Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help. <p>Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.</p> <p>The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines, the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).</p>

Car Wireless Charger

X24PRO-Q22 User Manual

Universal Wireless Charging Car Mount

Type C input

Specifications

- Material: PC+ ABS
- Input: 5V/3A, 9V/3A, 15V/3A
- Output: 5W, 7.5W, 10W, 15W, 25W-MAX
- Transmission Distance: ≤6mm
- Charging Efficiency: 83%MAX
- Frequency: 115-205kHz, 360kHz
- Magnet: 16*N52 Magnets
- Pulling Force: 1.8KG MAX

Features

- Ring-shaped strong magnets work perfectly with iPhone 12 or later Series making your phone safer.
 - Built-in turbo fan cools down the phone and keeps the phone charged at low temperature and at high speed.
 - Thanks to its extra-large adhesive suction cup and strong support rod, it can stick to dashboard or windshield safely.
 - iPhone 12-15 series output up to 15W, iPhone 16 and later models output up to 25W.
 - Ice blue indicator light when power on; Ice blue indicator light When standby/Indicator light off when charging or full charged; Flashing ice blue indicator light when FOD status.
- Please switch to a high-power adapter with at least 45W power or our included charging cable.
- Ice blue flashing: FOD alarm, please remove any metal foreign objects on the surface of the charger, the back of the battery or the back of the device.

Work MagSafe® Compatible Devices

*Up to 25W wireless charging for iOS26 devices (iPhone 16 and later)

- ✓ 1. Always use the included USB cable

- ✗ 2. Other cables won't work well with me

- ✓ 1. MagSafe Case or Caseless

- ✗ 2. I can't charge properly Ring Holder / Cards / Metal

- ✓ 1. No problem with fast charging

- ✗ 2. it's too hot and won't charge well

*Mount is designed to be used only with FLAT air vent blades.

*Mount is designed to be used only with FLAT air vent blades.

Choosing the right adapter

Using multiple ports on the same adapter can slow down charging.
 *A 45W car charge is not included in the package content.
