	Low battery	Red light flashes five times
	Charging	Red light flashes continuously
	Restore factory settings	Red light flashes continuously then turns off
Fill light	Take photo	Press once, flash once
	Video	Flash once every 5 seconds

Download & Connect

① Please download and install the " WAKEOK " APP
Search " WAKEOK " in major app markets to download it;
Scan the QR code below to jump to the download link
(works with browsers and WeChat scanner);

② Connect AI Smart Glasses
Turn on your phone's Bluetooth and keep it ready for connection;
Press and hold the right button of the AI smart glasses for 3 seconds. Release it after hearing the power-on prompt tone, which means the glasses are powered on.
Open the " WAKEOK " APP, quickly register and log in to your account, then grant necessary operating permissions;
Tap the "+" icon in the upper right corner, select Manual Add, choose Smart Glasses, find your glasses device (e.g. D8), then tap to connect.

③ Connect WiFi for AI Smart Glasses
Tap System Settings, then tap Wi-Fi Settings;
Select the WiFi network you want to connect to or set it manually, then enter the password;

Note:① When switching connected devices, delete the device in the " WAKEOK " and forget the device in the system Bluetooth list.
② If your WiFi name cannot be found when connecting WiFi, you may manually enter it at the top to connect.

Function Instructions

① High-Definition Shooting
Short press the right button of AI smart glasses. A "click" prompt tone indicates the photo is taken successfully; After shooting, photos can be synced, viewed and shared in the WAKEOK App;
Note: Please keep the device steady while shooting to ensure clear images.

② HD Video Recording
Double-click the right button of the AI smart glasses. A "beep" prompt tone means video recording has started.Short press the right button of the AI smart glasses again. A "beep" prompt tone means recording has stopped. After recording, videos can be synced, viewed and shared in the " WAKEOK " APP.
Note: Keep the device stable during recording to guarantee clear footage.

③ Audio Recording
Triple tap the right button of the AI smart glasses. A "beep" sound indicates recording has started. Short press the right button of the AI smart glasses once more. A "beep" prompt tone means audio recording is finished.After audio recording, audio files can be synced, viewed and shared in the " WAKEOK " APP.
Note:This device supports photo taking, video recording and audio recording, yet these functions consume relatively high power during use.When the battery level drops below 20%, the device will disable photo, video and audio recording functions.

④ AI Intelligent Image Recognition
Short press the left button of the AI smart glasses to wake up the AI voice assistant, or say "Hi, Fans" to wake it up via voice command;
Ask questions (Example: What's in front of me?);
A "click" prompt sound signals the photo capture is complete, then the AI voice assistant will analyze the image and answer your question;

⑤ AI Voice Assistant
Short press the left button of the AI smart glasses to activate the AI voice assistant, or wake it up by voice command "Hi, Fans",
Ask your question, and the AI voice assistant will analyze and respond to you;

⑥ AI Schedule Management
Wake up the AI voice assistant via button press or voice command to set schedule reminders (e.g., Remind me to have a meeting in one hour);
Alternatively, open the " WAKEOK " APP tap Schedule Reminder, and click the "+" icon on the page to create schedules.

⑦ AI Smart Translation
One-click Translation: Open the " WAKEOK " APP, tap One-click Translation, select the source language and target language. Long press the voice input icon to record audio, then release it once you finish speaking.
The AI smart glasses will automatically broadcast the translation result;

Simultaneous Interpretation: Open the " WAKEOK " APP, tap One-click Translation, select the source and target languages, then tap Start Recording. The AI smart glasses will automatically broadcast the translated results.

Real-time Communication: Open the" WakeOK " APP, tap Real-time Communication, select video call or voice call, choose your language and the counterpart's language, then tap Invite Call. Copy and share the link with the other party, who can join the call by clicking the link.

Face-to-Face Translation: Open the " WAKEOK " APP, tap Face-to-Face Translation, select your language and the other party's language. Hold the corresponding button while speaking, and your voice will be translated into the target language.

⑧ AI Meeting Assistant
Open the" WAKEOK " APP, tap AI Meeting Assistant, enter meeting information and click Start Tap Stop Recording, and AI meeting minutes will be generated automatically.

⑨ AI Smart Navigation
Wake up the AI voice assistant via button press or voice command, then state your navigation request (e.g., Navigate to Shenzhen North Station). Alternatively, open the WAKEOK App, tap Smart Navigation, enter your destination, select a navigation mode and tap Start.

⑩ Music Playback & Download
Music Playback: The AI smart glasses come with 1 built-in song.
Short tap the right touch area to play or pause music;
Music Download: Open the WAKEOK App, tap Music, then select Add Music,Download your desired music;

Important Notes

①Answering Calls
After connecting your smartphone, the AI smart glasses will automatically play a ringtone reminder when a call comes in;Press the right button once to answer the call, and press it again to end the call;Double-press the right button to reject the call;
★ **Charging Instructions:**
This device supports only chargers rated at 5V/1A or lower!

①Please avoid using this product in environments with high temperatures, high humidity, or strong magnetic fields, as these conditions may interfere with the glasses' electronic components, affect their normal operation, and damage the battery and internal parts. Avoid such environments when using or storing the glasses.

②This product is a precision electronic device and must not be subjected to strong impacts, pressure, or drops, as this may damage internal components and affect normal operation. Therefore, please handle the glasses with care and avoid strong collisions with hard objects;

③When not in use, glasses should be stored in a dry, well-ventilated place away from direct sunlight. You can use a glasses case or protective sleeve to store them, which will help prevent them from being bumped, crushed, or scratched, thereby reducing the risk of damage;

④Please use the original charger to charge the glasses and avoid using low-quality chargers to prevent safety issues caused by improper charging, such as overheating or fire; avoid overcharging and over-discharging; when the battery level falls below 20%, charge it promptly; and unplug the charger as soon as it is fully charged; perform a charge-discharge cycle on the battery periodically to maintain its performance;

⑤Do not charge the glasses in a damp or wet environment, and make sure that the charging area of the glasses and the surface of the charger are clean and in full contact;

⑥Keep the lenses clean while using them. Gently wipe them with a clean, soft cloth, and avoid using chemical solvents or abrasive materials to clean the lenses;

⑦Regularly check for and update the firmware of your AI smart glasses to access new features, improve performance, and fix vulnerabilities. During the update process, ensure the battery is sufficiently charged (at least 60%) and that you have a stable internet connection to prevent device malfunctions caused by interrupted updates;

⑧Some features may be subject to adjustments or changes in the corresponding software versions; this is normal.

⑨The Company reserves the right to modify the contents of this manual as necessary without prior notice.

★ **This product supports photo and video recording functions. The use of this product for covert photography or similar activities is strictly prohibited. Please strictly comply with local laws and regulations and use this product in accordance with the law.**

Basic Parameters

Product Name: AI Glasses
Body Material: Plastic
Bluetooth: Classic Bluetooth / BLE Low Power Consumption Bluetooth
Device Requirements: A cell phone connected to a standard network

Common Problems and Solutions

Hard Reset Hole	Press the thimble for 1 second
Unable to Power On	Check the battery level and charge it
Unable to Charge	Check if the charging cable is working properly
Unable to connect to the phone	Check to see if the glasses are turned on and in connection mode
Unable to connect to Wi-Fi	Disconnect the device. Please reconnect and try it again
No sound for music or announcements	Open the app to check if the volume is set correctly
Slow Photo/Video Import	Check to see if your Wi-Fi is working properly
Photo/Video Import Failed	Check to see if your phone and the device are connected to the same Wi-Fi network.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
