Charging Complete	Light off

Troubleshooting

If you cannot connect the product to your device, please try the following:

- Ensure the product is charged, switched on and paired with your device.
- Make sure the product is in the effective range of your device and there are no obstructions like walls or other electronic devices between the product and device.
- The product can only be connected to one device at a time. Ensure it is not already connected to another Bluetooth device.
- If you receive an intermittent signal, please ensure the product remains in the effective range of your device.

 **WARNING:** Avoid excessive volumes, particularly over extended periods or in the case of frequent use. Listening to music at maximum volume for prolonged periods can lead to hearing damage. It's best to avoid extreme volume when using this product, especially for extended periods. For your own safety, please be aware of your surroundings when using this product.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Compliance Statements

Caution

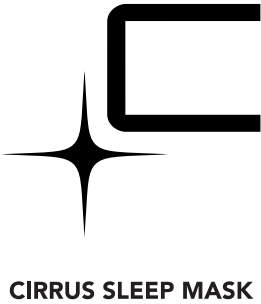

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Thank you for purchasing this Cirrus Sleep Mask.

Intended Use

- The Cirrus Sleep Mask is compatible with Bluetooth-enabled devices. Users can enjoy hands-free audio playback for music, podcasts, and other media.
- The product is for personal use only and is not intended for commercial applications.

Safety Instructions

- Before using the product, please read the instructions through carefully and keep them for future reference.
- If the product is transferred to a third party, this User Manual must be included with the product at all times.

⚠ Dangers of Injury

- Keep the product and packaging out of reach of children and animals, as small parts may present a choking hazard.
- Children should be supervised while using the product. This product is not a toy.
- Maintain a minimum distance of 4in (10 cm) between the headphones and any pacemaker or implantable cardioverter-defibrillator (ICD), as the product generates magnetic fields.

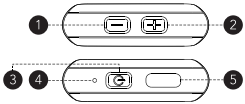

⚠ Dangers of Fire and Explosion

- Caution! Do not expose the headphones to any high temperatures over 158°F (70°C) (like hair dryer, heating, prolonged sunlight etc.) The battery inside of the headphones may overheat and explode as a result.
- Only charge up the headphones in ambient temperature from 50°F (10°C) to 104°F (40°C).

- Do not crush or pierce the battery! Do not expose the battery to high pressure, as this may cause an internal short-circuit and overheating.
- The headphones and the battery must not be taken apart, thrown into a fire, immersed in liquids or short-circuited.
- If the headphones are not used for a prolonged period of time, recharge them regularly (roughly every 3 months).

Interface

- ❶ Volume Down / Previous Song
- ❷ Volume Up / Next Song
- ❸ Power / Play / Pause
- ❹ LED Status Light
- ❺ USB C Charging Port

How to Power On / Power Off

- **Power On:** Long Press the ⏻ button for 2 seconds, the LED Status Light [4] starts to flash red and green alternately. The headphones are switched on now.
- **Power Off:** Long Press the ⏻ button for 2 seconds, the red light will be on for 1 second, the headphones are switched off now.

How to Use Bluetooth

Pair with a Bluetooth Device

Before you can use this product through Bluetooth, it needs to be paired with your device.

- 1 Long Press the ⏻ button for 2 seconds until the LED Status Light [4] starts to flash red and green alternately.
- 2 Turn on Bluetooth on your phone or other Bluetooth enabled device.
- 3 Search and select “Cirrus” from the list of found devices.

- 4 If a pass code is required, enter “0000”.
- 5 After pairing successfully, the light will turn off.
- 6 When powered on next time, it will search for and attempt to connect with the last paired device automatically.

Pair with a New Bluetooth Device

- 1 Make sure the headphones are disconnected from the previous paired device.
- 2 Follow “How to Pair with a Bluetooth Device” instructions from step 1.

Note: To save power, the headphone will be powered off automatically if there's no Bluetooth connection for 5 minutes.

Playing Music

- **Play/Pause music:** Short Press the ⏻ button to play or pause music.
- **Adjust volume:** Single press the + button to increase the volume or the - button to decrease the volume.
- **Music selection:** Double Press the + button to skip to the next track or double press the - button to return to the previous track.

Note: Play/Pause and Music Selection functions will only work on devices which support Bluetooth profile AVRCP.

How to Charge

- 1 Power off the headphones, then connect the USB-C Charging cable to the Charging Port [5] and connect the other end to a compatible USB power source.
- 2 The LED Status Light [4] will turn red while the device is charging and will turn off once the battery is fully charged.

Note: The battery requires approximately 2 hours to fully charge. The product cannot be used while charging.

Washing Instructions

To keep your mask clean and comfortable, only the removable eye and ear pads are washable.

Important

- Do not wash the main body of the mask. The main body contains the speakers, battery, and electronic components and is not waterproof.
- Washing or submerging the main body may permanently damage the product.

Hand Washing

- Carefully remove the eye and ear pads from the main body and hand wash in water around 85°F (30°C) with a mild detergent.
- Gently squeeze and agitate the pads and rinse thoroughly to remove all detergent.
- Do not use bleach, fabric softeners, or harsh cleaning agents.

Drying

- Gently press out any excess water. Do not wring or twist pads.
- Lay the eye and ear pads flat and allow them to air dry completely. Ensure the pads are fully dry before reattaching them to the mask.

Do Not

- Do not wash the main body or get the speakers or electronic components wet.
- Do not machine wash. Do not tumble dry. Do not iron. Do not dry clean.
- Do not use hot water.
- Do not reassemble the mask until all washable parts are completely dry.
