

WLAN Bluetooth PCI Express Adapter

Before You Start:
If you plan on using Bluetooth and already have connected Bluetooth devices, proceed with **Step 1**. Otherwise, skip to **Step 2**.

1 Disable Bluetooth

- a. Right-click **My Computer**, select **Manage**, go to **Device Manager**.
- b. Expand the **Bluetooth** node to find your existing Bluetooth device.
- c. Right-click the existing Bluetooth device and select **Disable**.

Note:

Make sure you have disabled all existing Bluetooth devices (both built-in and third party).

2 Connect to a Computer

- a. Turn off your computer, unplug the power cable then remove the case panel.
- b. Connect the provided Bluetooth USB cable to the adapter.

- c. Locate an available **PCI-E slot (X1, X4 or X16)** and carefully insert the adapter.

Note:

If the bracket is not suitable for your computer, detach it from the adapter's board and replace it with the low-profile bracket.

- d. Locate an available **F_USB connector** and carefully plug the Bluetooth USB cable into it.

Note:

If the Bluetooth USB cable is not correctly connected to the motherboard, Bluetooth function won't work even after driver installation.

* Images are for demonstration only.

- e. Connect the antennas to the adapter. For models that come with an antenna base, install the antennas on the antenna base, then connect the base to the adapter.

Tip:

To maximize performance, make sure the path between the antenna(s) and your router is clear.

- f. Replace the case panel, plug in the power cable and turn on your computer.

Icons may differ from your actual product.

3 Install Drivers

- a. Insert the CD and run the **Autorun.exe**.

Tip: You can also check the new release and download the driver at <https://www.tp-link.com/support/download/>

- b. Install the Wi-Fi and Bluetooth drivers.

- ① **Wi-Fi:** Click  and follow the onscreen instructions to complete the Wi-Fi installation.
- ② **Bluetooth:** Click  and follow the onscreen instructions to complete the Bluetooth installation.

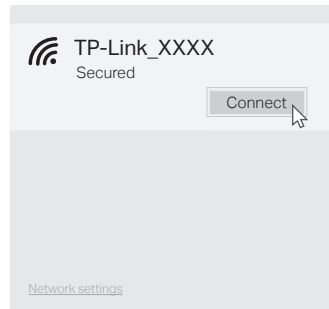

Note:

- If an unknown publisher message pops up, select **Yes** to continue.
- If Windows User Account Control requires admin credentials, type user name and password of your Windows administrator account.

4 Join a Wireless Network

- a. Click the network icon on the taskbar (the icon might look like one of these: , , , or ).

- b. Select your Wi-Fi network, click **Connect**, and enter the password when prompted.

5 Pair With Bluetooth Devices

- a. Right-click the  (Bluetooth) icon on the taskbar. If it's not displayed, turn on Bluetooth in your PC settings first.

- b. Select **Add a Bluetooth Device** or **Add a Device** to scan for available devices.

- c. Select your Bluetooth device from the list and follow the onscreen instructions to complete pairing.

Note:

Make sure your device's Bluetooth is enabled and discoverable.
