

User Manual for Sports Headband Bluetooth Earphones

Preface

Thank you for purchasing this sports headband Bluetooth earphones! This product integrates a sports headband and Bluetooth earphones. Made of soft and skin-friendly fabric, it fits the head firmly without slipping, featuring sweat absorption, breathability, wireless music playback and calling functions. Specially designed for running, fitness, yoga and other sports scenarios, it brings you a comfortable and unrestricted sports audio-visual experience. Please read this manual carefully before use to operate the product correctly and achieve better performance.

1. Product List

- Bluetooth earphones (left and right) × 2
- Silicone headband × 1
- Pull straps (three sizes) × 3
- Type-C dual-head charging cable × 1
- Product user manual × 1

2. Product Parameters

1. Bluetooth version: 6.0
2. Transmission distance: 10 meters (in an obstacle-free environment)
3. Battery life: About 8 hours for music playback, 5 hours for calls, 90 hours for standby
4. Charging time: About 1.5-2 hours
5. Working voltage: 3.7V
6. Speaker impedance: 32Ω
7. Waterproof rating: IPX4 (sweat and light rain resistant, not immersible)
8. Product material: High-elastic breathable knitted fabric, eco-friendly silicone

3. Product Components

1. Multi-function button: Power on/off, play/pause, answer/end calls

2. Microphone: High-definition call pickup
3. Type-C charging port: Charging interface of the product
4. Earphone speaker unit: Built-in hidden speaker
5. Elastic headband main body: Absorbs sweat and fixes on the head

4. Usage Tutorial

(1) Power On and Bluetooth Pairing

1. Long press the multi-function button for 3 seconds to power on. The indicator flashes red and blue alternately, entering Bluetooth pairing mode.
2. Turn on the Bluetooth settings of your mobile phone/tablet and other devices, search for the device name "Easeburn", and click to complete pairing and connection.
3. After successful connection, the indicator flashes blue slowly and you can use it normally.

(2) Power Off

Long press the multi-function button for 3 seconds. The indicator lights up red and then goes off, and the product is powered off.

(3) Music Playback Control

- Play/Pause: Short press the multi-function button

(4) Call Control

- Answer an incoming call: Short press the multi-function button
- End an incoming call: Short press the multi-function button
- Reject an incoming call: Long press the multi-function button for 2 seconds

(5) Automatic Connection

After the product is turned off, it will automatically connect to the paired device when powered on again without re-pairing.

5. Charging Method

1. When the product power is too low, the indicator flashes red to prompt charging.
2. Connect one end of the Type-C charging cable to the product charging port, and the other end to a 5V/1A charger or USB interface.
3. When charging, the indicator stays red; when fully charged, the indicator turns blue and stays on. Unplug the charging cable for use.

6. Wearing Method

1. Unfold the headband Bluetooth earphones, and insert the pull strap and silicone strap into both sides of the earphone card slots respectively.
2. Put it on from the top of your head down, adjust the position of the headband to make the speaker units fit your ears, and fix the headband firmly on your head.
3. During exercise, you can choose high-elastic pull straps of different sizes according to your head circumference to ensure comfortable wearing and no slipping.

7. Notes

1. This product has an IPX4 waterproof rating, which can resist sports sweat and light rain. Do not immerse the product in water or let water enter the charging port to avoid damage.
2. Do not store or use the product in high-temperature, humid, dusty environments, and keep it away from fire sources.
3. Use a compliant 5V/1A charger when charging to avoid damaging the battery with a high-power charger.
4. Do not pull or bend the headband main body vigorously to avoid damaging the internal circuits.
5. If the product is not used for a long time, charge it once a month to avoid battery damage due to power loss.
6. Do not disassemble or modify the product by yourself, otherwise you will lose the warranty qualification.
7. People with ear diseases or hearing impairments should lower the volume during use to avoid hearing damage.
8. When using while cycling, driving, etc., do not turn the volume too high to avoid affecting the perception of surrounding sounds and ensure safety.

8. Cleaning and Maintenance

1. Make sure the product is turned off and the charging port is completely dry before cleaning.
2. Stains on the surface of the headband can be removed by disassembly and washing.
3. After cleaning, place it in a cool and ventilated place to dry, avoiding direct sunlight.
4. Do not squeeze or drop the product to prevent damage to internal components.

9. Common Problems and Solutions

1. Unable to power on/charge

Solution: Check if the charging cable is connected properly, recharge for 10 minutes and try to power on again; make sure there is no dust or foreign matter blocking the charging interface.

2. Bluetooth connection failed

Solution: Turn off the product Bluetooth and restart it, restart the device Bluetooth; delete the paired records on the device and search for pairing again; ensure the distance between the product and the device is within 10 meters without obstacles.

3. Music playback lags/no sound

Solution: Shorten the distance between the product and the Bluetooth device, stay away from interference sources; check the product power and charge in time; restart the product and the Bluetooth device.

4. The other party cannot hear you during a call

Solution: Make sure the microphone position is not blocked, adjust the wearing position; check the device call volume and restart the call function.

10. Warm Tips

- Place product accessories and packaging out of reach of children to avoid dangers such as ingestion or entanglement.
- When wearing for a long time, it is recommended to loosen the headband properly to avoid discomfort from head pressure.
- The final interpretation right of this product manual belongs to the manufacturer. The product is subject to upgrade without prior notice.

If you have any usage problems, please contact the after-sales customer service for consultation. Thank you for your support!

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
