If there is a problem with the connection of the keyboard and mouse, please try the following steps.

Keyboard re-pairing method:
Remove the USB receiver, turn on the keyboard switch, keep the distance between the keyboard and the USB receiver within 10 centimeters, and simultaneously press "Esc" + "=" for three seconds. The third indicator light on the keyboard will light up. Then insert the USB into the USB interface. After successful pairing, the indicator light will go out.

Mouse re-pairing Method:
Remove the USB receiver, turn on the mouse, place the USB device within 10 centimeters of the mouse, and simultaneously press and hold the "left mouse button + scroll wheel button + right mouse button" for 3 seconds. Then insert the USB receiver into the USB port.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
