

PRODUCT SPECIFICATIONS

Length: 245mm

Width: 156mm

Height: 78mm

Model	BLLT01A
Display Technology	E-Paper
Screen Size	7.33 inches
Screen Resolution	200(H)x750(V)Pixel
Display Color	Black/White
Bluetooth Version	BT5.1
Photovoltaic Type	Perovskite
Charging Method	Indoor Light/Type-C
Continuous Refresh Times	Max 100 times
App System Language	Chinese/English/Japanese
Operating System	Android/IOS
Operating Environment	0°C~40°C/<90% RH
Storage Temperature	0°C~40°C
Product Dimensions	245×156×78mm (L×W×H)
Product Weight	580g

[Software Features]

- ① Transmission Method: Content publication via mobile Bluetooth, flexible and convenient to use.
- ② Supports template customization, allowing text input and LOGO image upload, with stretching and scaling functions.
- ③ Meets the needs of temporary adjustments to participants, which is convenient and efficient.
- ④ Supports one-click import of participant lists and one-click batch transmission of all name lists; allows temporary modification of individual information according to on-site needs.
- ⑤ Supports font changing, with a variety of fonts to choose from, and can import fonts according to your preference.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
