Quickstart Guide

Step 1

Turn off the power then locate the housing.

Step 2

Determine type of connector available.

Step 3

Connect the adapter with lamp base connector.

Step 4

Push downlight into can until secure.

Installation Guide

STEP 1

- Turn off circuit breaker before installation.
- Locate the housing and remove the previous fixture.

NOTE: Light fixture may be hot! Allow time for the fixture to cool after the power is off.

STEP 2

- Install the spring clips (C) to the luminaire.

STEP 3

- Determine the type of connector available, then connect the wires.

- TP24 Connector
- E26 Base

Installation Guide (Cont.)

STEP 4

- a. Use the switch on the back of the retrofit to select one of five color temperatures.

STEP 5

- a. Tuck all the wires into the can.
- b. Line up the trim ring with opening, then squeeze the spring clips (C) together to hook them into place. Ensure that both ends of each spring are installed into the C-clips (1), then push the downlight into the can.

STEP 6

- a. Turn on the circuit breaker and test the light.

compatible dimmer list!

Specifications

Voltage	120 V	Average Lifetime	50,000 Hours
Wattage	13W	Lumens	1050 lm
Beam Angle	120°	Moisture Rating	Wet
Efficacy	81 lm/W	CRI	80+
Power Factor	0.8	IC-Rated	Yes
Housing Material	PA	Usage	Indoor
Dimmable	Yes	Warranty	7 Years

Common Troubleshooting

Feeling in the dark about an issue with your product? No worries! Our troubleshooting section is here to shed some light and provide you with easy-to-follow solutions for any problem.

If you still need some assistance, please feel free to contact us with any questions. Our team of lighting experts are happy to help brighten your day.

Installation

Light isn't turning on.

Double check if fixture is properly connected and circuit breaker hasn't been tripped.

Light unexpectedly fails.

For further assistance, contact our customer support.

Dimming

Light not dimming to lowest setting.

Ensure minimum dimmer load requirement is met.

Light not dimming smoothly.

Verify dimmer compatibility with fixture.

Light not compatible with dimmer switch.

Check light-dimmer compatibility. Consider purchasing compatible switch if necessary.

Flickering

Light is flickering when turning on.

Check that fixture wiring connections are secure.

Light flickering with other lights on the same circuit.

Check that the lights on the same circuit are not overloading the circuit.

Light flickering when turned on.

Verify fixture compatibility.

Light flickering when dimmed.

Verify dimmer switch compatibility.

Buzzing

Fixture buzzing with power outages.

Verify light is connected to surge protector securely.

Fixture buzzing with appliances or electronic devices.

Look for nearby interferences that can cause buzzing. Such as televisions, radios, computers, etc.

Fixture buzzing when dimmed.

Verify dimmer switch compatibility.
