# FITTING

## ■ *SECURE FIT*

Ensuring a secure fit is the **most critical** step to obtaining appropriate hearing protection.

## ■ *FITTING INSTRUCTIONS*

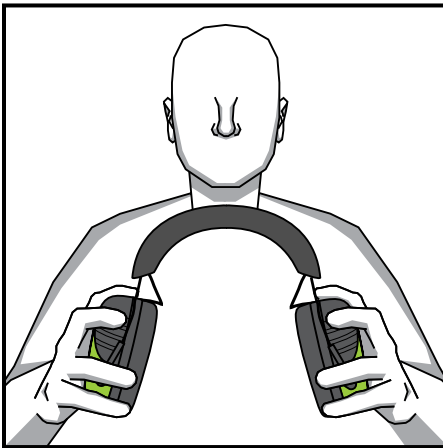

Figure 1

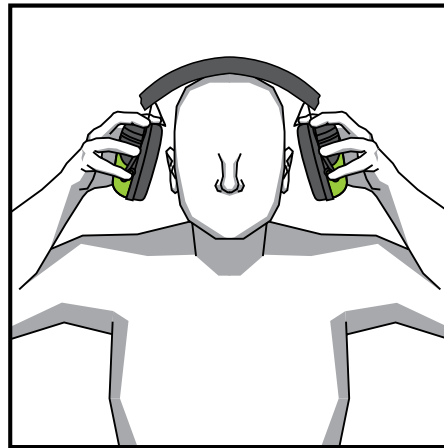

Figure 2

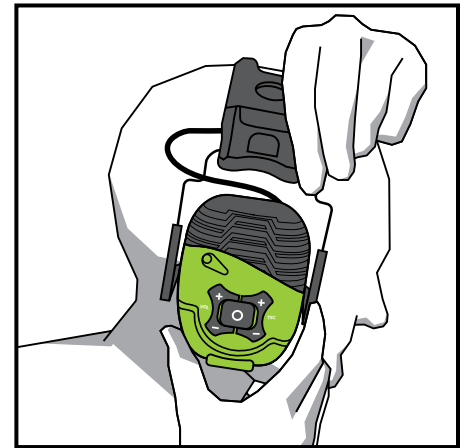

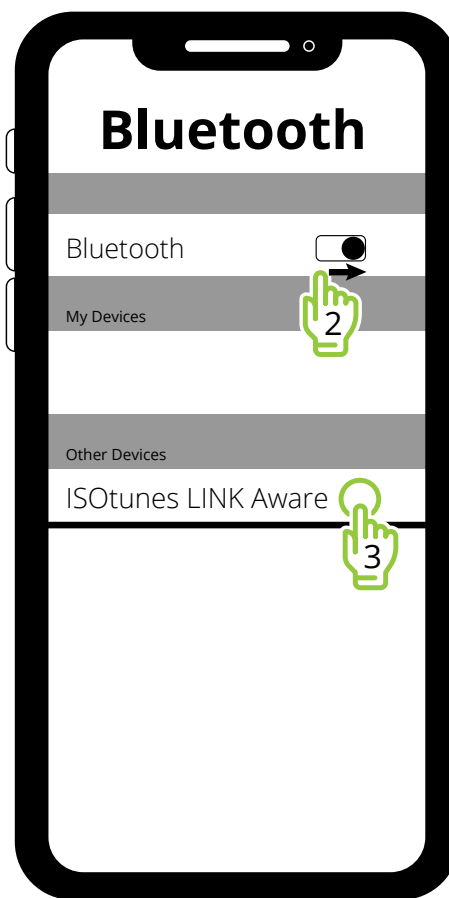

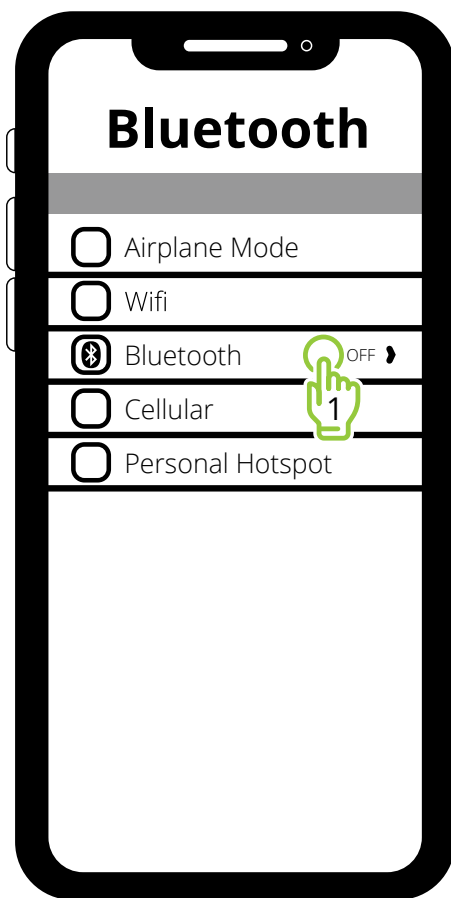

Figure 3

1. Pull the earcups apart (*Figure 1*).
2. Place the product on your head, securely covering both ears (*Figure 2*).
3. Extend the headband to adjust the earcup position and ensure a good fit around the head and ears (*Figure 3*).
4. When testing the fit, have the product turned off. This will allow you to ensure the passive hearing protection of this product.
5. Properly fitted and secured earmuffs significantly and noticeably reduce outside noise.

# BLUETOOTH

## ■ PAIRING

1. Press and hold the Multi-Function Button to power on the headphones.
2. You will hear *"Power On"* followed by *"Bluetooth Pairing Mode."* The headphones will automatically enter Pairing Mode.
3. Open your Bluetooth settings on your device.
4. Select *"ISOtunes LINK Aware."* Pair and connect.
5. Once paired, you will hear *"Bluetooth Connected."*

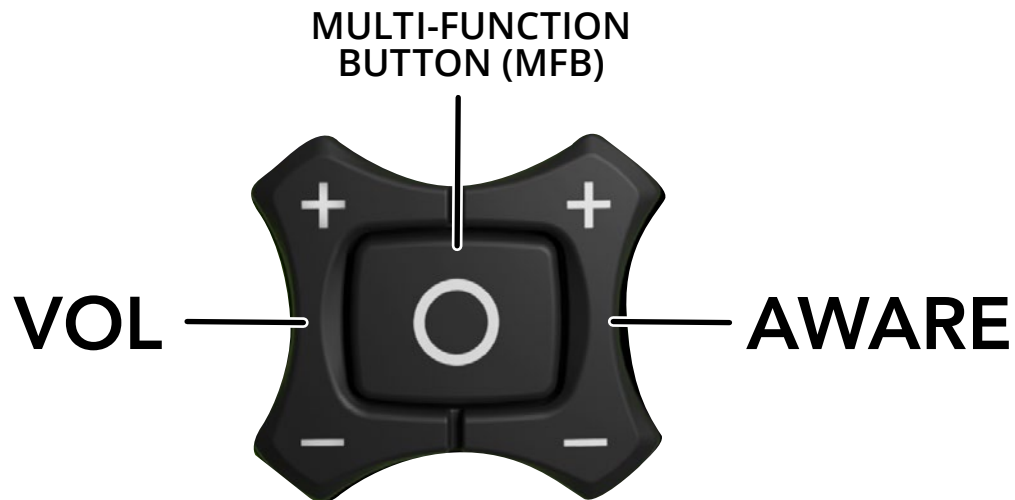

## ■ **DUAL CONNECT**

1. This product can connect to two devices simultaneously, for example – your phone and your computer.
2. Pair and connect to your first device as described in Bluetooth Pairing. This will be Device A.
3. Press and hold the multi-function button (MFB) for 7 seconds.
4. Continue holding the button until you hear *“Power Off”* and then *“Bluetooth Pairing Mode.”*
5. Pair and connect to the 2nd device as described in Bluetooth Pairing. This will be Device B.
6. On Device A, go to the Bluetooth settings and connect to the LINK Aware. Both devices are now connected.

PRESS AND HOLD  
FOR 7 SECONDS

# BLUETOOTH USER CONTROLS

## ■ **POWERING ON/OFF**

🔌 Power On/Off — press and hold MFB for 4 seconds

## ■ **AUDIO**

▶|| Play/Pause — press MFB 1x

▶ Next Track — Press MFB 2x

◀ Previous Track — Press MFB 3x

🔊 Raise Bluetooth Volume — Press (+) button 1x\*

🔊 Lower Bluetooth Volume — Press (-) button 1x\*

## ■ **PHONE CALLS**

☎ Answer Call — Press MFB 1x

🚫 Deny Call — Press and hold MFB 2 seconds

📞 End Call — Press MFB 1x

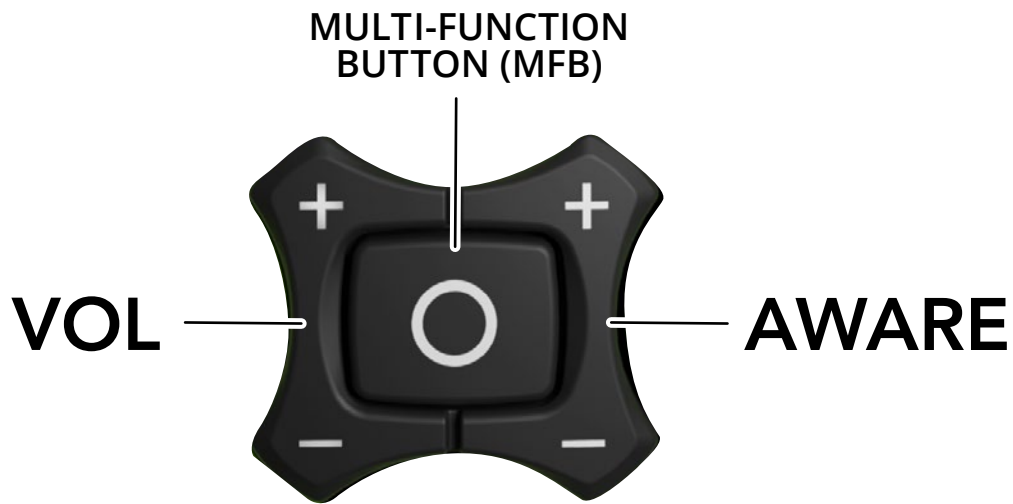

## ■ **VOICE ASSISTANT**

🗣️ Activate/Deactivate Assistant — Press and hold MFB 2 seconds

*\*Double chime indicates minimum or maximum volume met*

# AWARE USER CONTROLS

LINK Aware includes Aware Technology – this is a microphone technology that allows the user to hear the world around them at a safe listening level. When environmental noise exceeds a safe listening level, the microphone technology immediately responds and reiterates that noise to the user at a safe listening level.

## ■ **AWARE VOLUME**

- 🔊 **Raise Aware Volume** — Press (+) button 1x\*
- 🔊 **Lower Aware Volume** — Press (-) button 1x\*

A **low-pitched double chime** means the lowest Aware level has been reached (OFF).  
A **high-pitched double chime** means the highest Aware level has been reached.

# BATTERY & CHARGING

## ■ CHARGING

The headset can be powered by the included rechargeable Lithium Battery Pack. Please charge with the included cable.

While the cable is plugged into the Charging Port, LED Charging Indicators will let you know how charged the Lithium Battery is.

- SOLID RED = CHARGING
- SOLID GREEN = FULLY CHARGED

**Charging voltage should not exceed 5 volts.** Avoid using adapters or chargers rated higher, as this can damage the device or cause it to not charge.

## ■ **CHECKING / REINSTALLING BATTERY**

1. The batteries can be checked by removing the battery cover. Slide the latch to release the door.
2. Lift the battery out.  
Unplug the battery pack cable.
3. To reinstall, put the battery pack into the compartment. Then, plug the battery pack cable into the port.
4. Ensure the battery pack cable is plugged in properly for proper product performance.

## ■ **USING AAA BATTERIES**

Alternatively, three AAA batteries can power the device.

1. Slide the latch to release the door.
2. Lift the battery out. Unplug the battery pack cable.
3. Install the AAA batteries as indicated on the product.
4. Do not attempt to use the lithium battery pack and AAA batteries simultaneously.

# ACCESSORIES

## ■ **BOOM MIC**

The ISOtunes Boom Mic (*sold separately*) is used to enhance phone or radio audio quality. The Boom Mic accessory is available for purchase on our websites.

1. Open the microphone port cover on the right earcup by pulling down on the exposed tab, then align the base and the 3.5 mm jack of the Boom Mic and insert.
2. Press firmly to ensure that it's fully seated.
3. Remove the Boom Mic for storage or when not in use.

## ■ **WIND NOISE FILTERS**

1. Carefully peel one wind noise filter from the sheet.
2. Align with the microphone panel on the earcup. The foam should fully cover the microphone section.
3. Press the wind noise filter down to fully adhere to the earcup.
4. Repeat with the other earcup.

## ■ **REPLACEMENT EAR CUSHIONS**

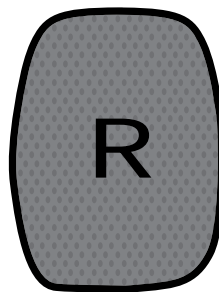

1. Firmly reach into one earcup and tug on the plastic plate behind the ear cushion (*Figure 1*).
2. Pull with force until the ear cushion is removed from the earcup. Do not twist, shear, or cut off. The cushions are secured with a strong snap fit (*Figure 2*).
3. Remove the R or L indicating fabric and 2 layers of foam (*Figure 3-5*).
4. Insert one new foam layer with notches. Align notches to the earcup.
5. Insert second new foam layer (*Figure 4*).
6. Insert the new R or L indicating fabric (*Figure 3*).
7. Place the new ear cushion on and listen for a snap sound. Check that the cushion is secure on all sides.
8. Repeat with the other earcup

*Figure 5*

# CLEANING & MAINTENANCE

- TRILOGY™ foam eartips should be regularly inspected for deterioration, cracking, or other damage. The eartips can be cleaned in between uses with a damp cloth and water. Over time, the eartips should be replaced.
- Eartips are disposable and should be replaced over time. Depending on use, we recommend replacing them every 1- 3 months. Replacements are available on our website.
- Clean your product by gently wiping them with a clean, damp cloth with mild soap.
- Do not immerse the earbuds in water.
- Do not use abrasive cleaning solvents to clean the earbuds.
- If the earbuds get wet from sweat or rain, please discontinue use and allow them to dry.

# TROUBLESHOOTING

## ■ **RESET**

1. Earmuffs must be powered on.
2. Remove the earmuffs from your Bluetooth connections.
3. Press and hold the Volume Up and the Volume Down buttons at the same time. Hold for 4 seconds.
4. Product will shut off and you will hear *"Power On,"* followed by *"Bluetooth Pairing Mode."*
5. Follow the pairing steps to reconnect your device.
