

Auto**Sky**

MirrorSync

User Manual

Thank you for choosing Auto**Sky**!

For your safety and to comply with traffic laws, do not watch videos while driving.

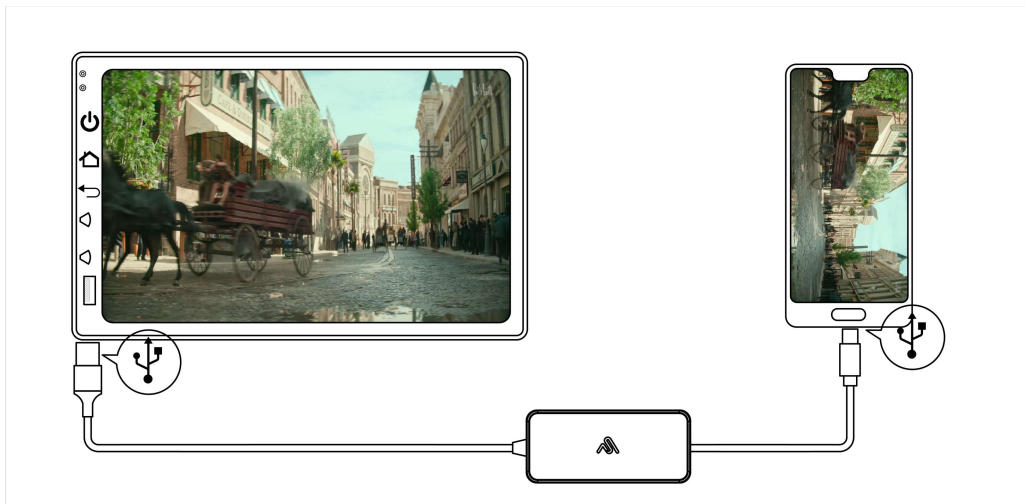

- Keep your MirrorSync away from heat, direct sunlight, strong magnets, or harsh environments.
- Avoid physical damage like drops, pressure, or impacts.
- Use only the recommended power source to prevent malfunction.
- Do not disassemble the device, as it will void the warranty.
- Improper use is the user's responsibility; the company is not liable for any resulting issues.

The AutoSky MirrorSync is only compatible for vehicles with factory wired CarPlay.

The information in this manual is subject to change without prior notice.

CONTROL YOUR PHONE DIRECTLY FROM YOUR CAR SCREEN

With the AutoSky MirrorSync, screen mirroring goes beyond just displaying your phone, it lets you fully control it from your car's touchscreen. Whether you're playing videos, or managing calls, everything becomes easier and safer with seamless access right from your dashboard.

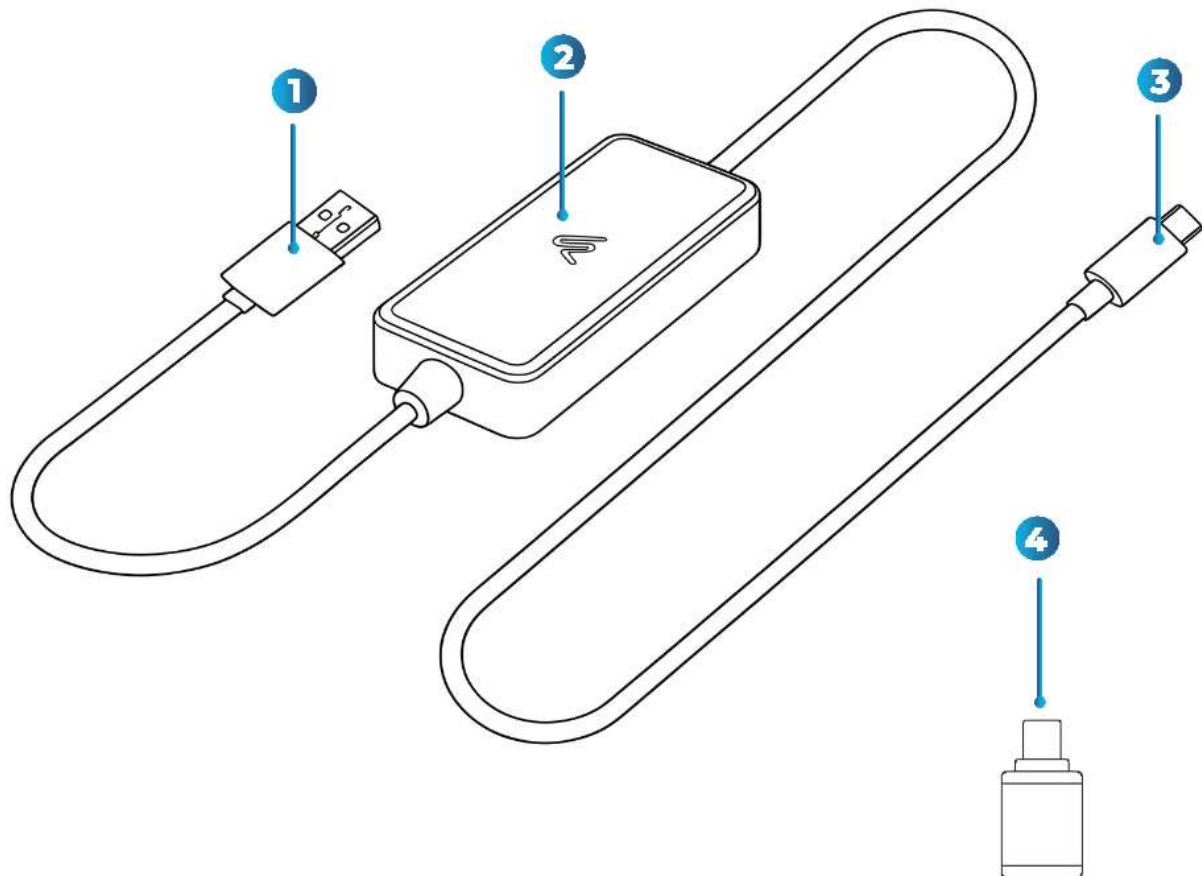

CAR REQUIREMENTS

Factory Wired CarPlay is required to mirror your phone and enjoy wireless connectivity on the road. Compatible with most vehicles with Wired CarPlay and devices including iPhone 6 and Android 11 or later models with 5GHz Wi-Fi Frequency Band, e.g. Google Pixel, Nexus and Samsung Galaxy.

Make sure that you have Wired CarPlay by connecting your smartphone to the car, it should automatically pop up. **If your car does not have this function you will not be able to use your new AutoSky MirrorSync**, this device does not add CarPlay or Android Auto to your car, it only converts Wired CarPlay to Wireless CP or AA.

HARDWARE INTERFACE

1 USB-A Male

Used for power supply and data transmission.

2 LED

Green blue light: Power On

3 Type-C Female

It is used for power input and supports the input from a charger that complies with the PD protocol.

4 USB-A Female to Type-C Male Adapter

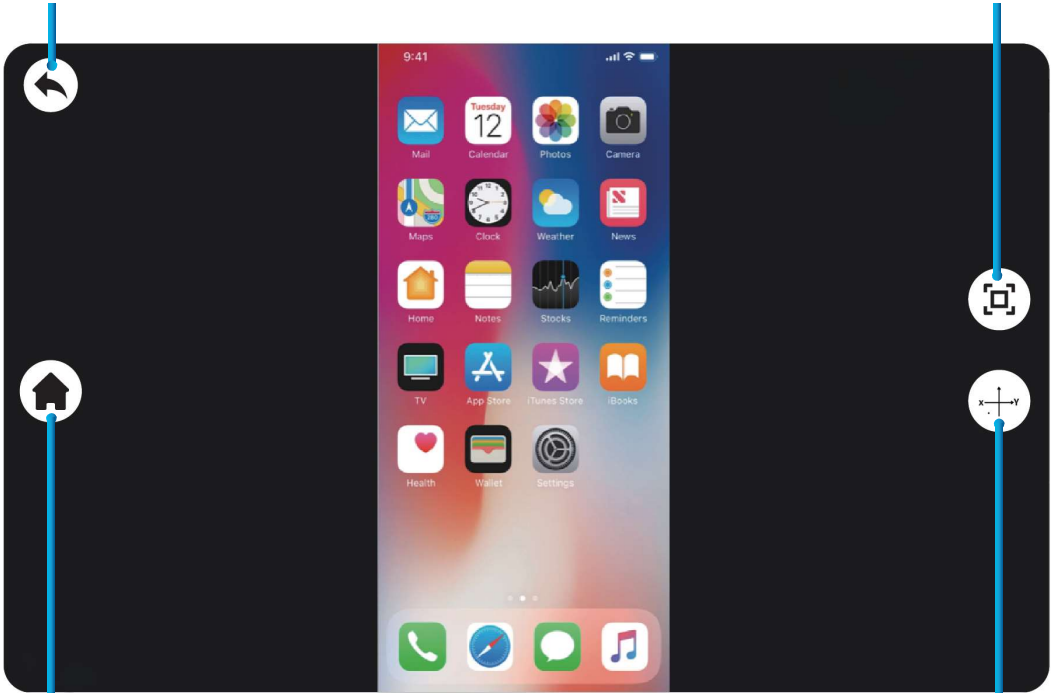

USER INTERFACE

Home button

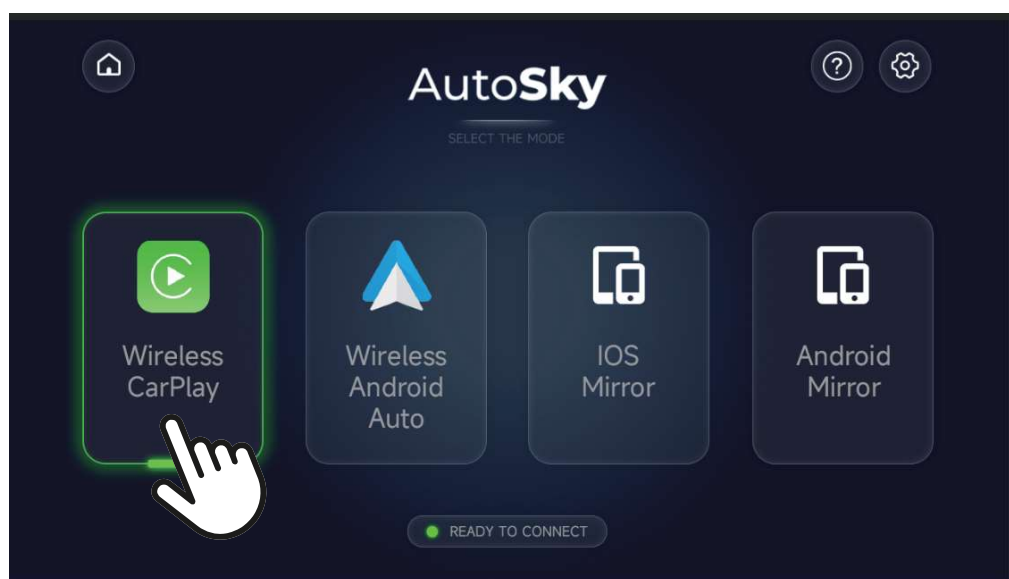

Mirror touch coordinates

WIRLELESS CARPLAY

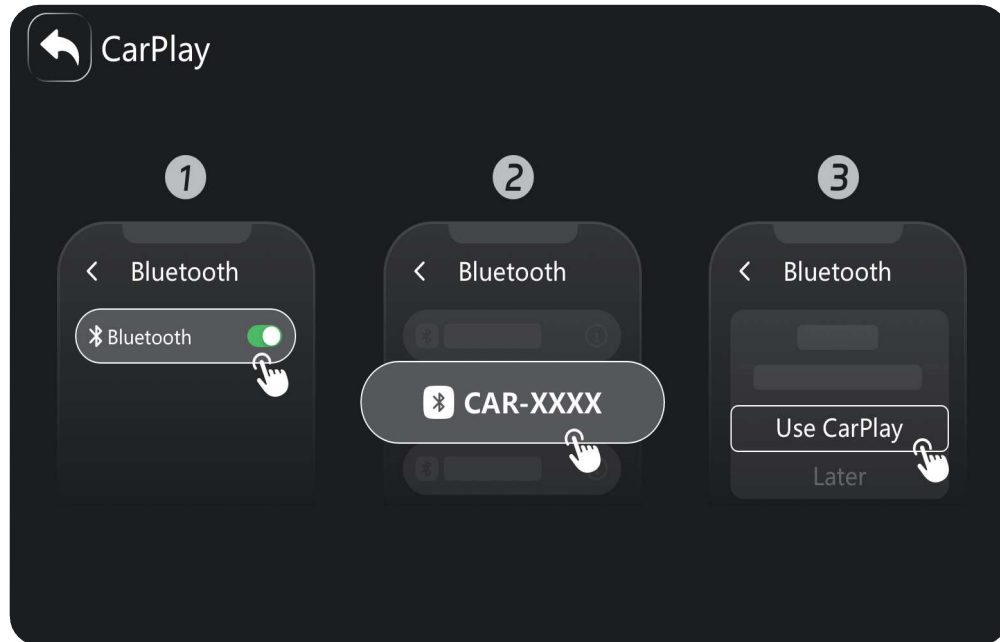

- 1 Converts Factory Wired CarPlay to Wireless CarPlay.

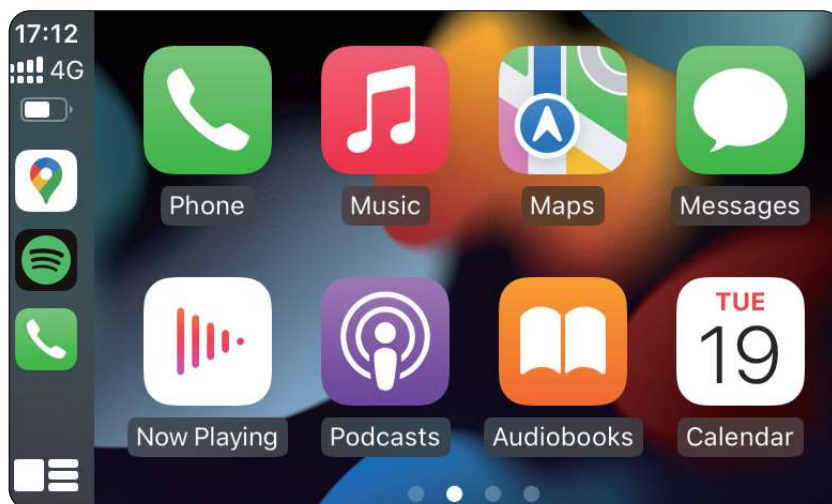

- 2 Tap the CarPlay icon.

- 3** Turn on Wi-Fi and Bluetooth, connect to [AutoSky-XXXX], and accept prompts.

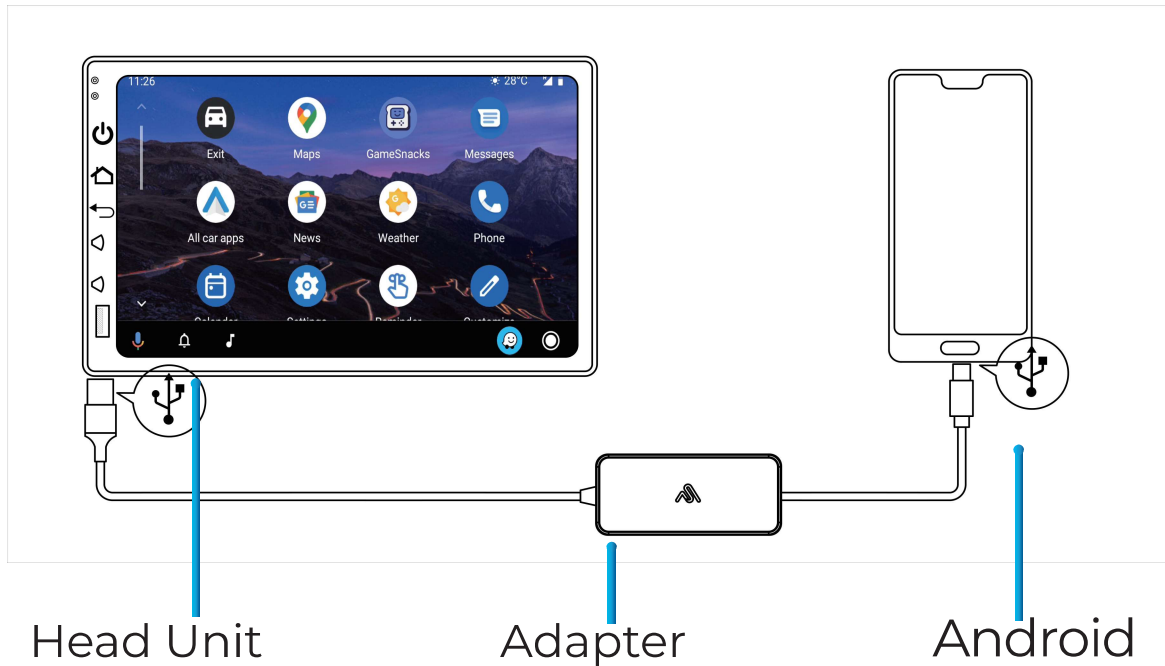

- 4** Enjoy Wireless CarPlay; no need to pair again.

Note: You can pair multiple phones, but only one can connect at a time. To switch devices, turn off Wi-Fi and Bluetooth on the currently connected phone. The system will reconnect to the last used phone automatically. You can set the CarPlay icon as the default feature in the system settings, allowing the device to launch it automatically every time it starts.

WIRLELESS ANDROID AUTO

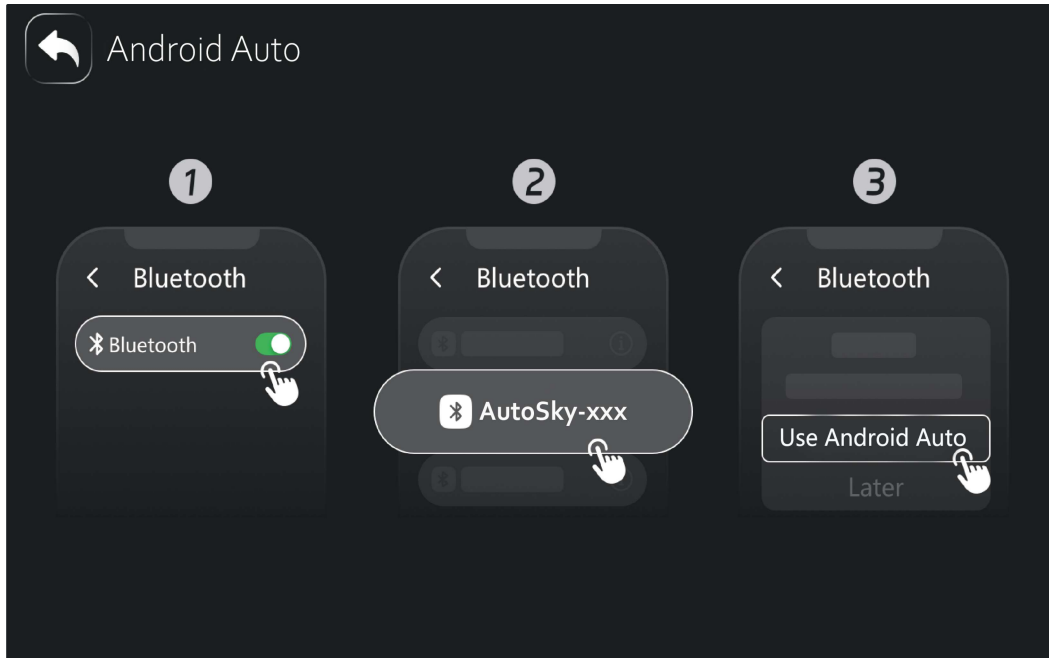

- 1 Converts Factory Wired Android Auto to Wireless Android Auto.

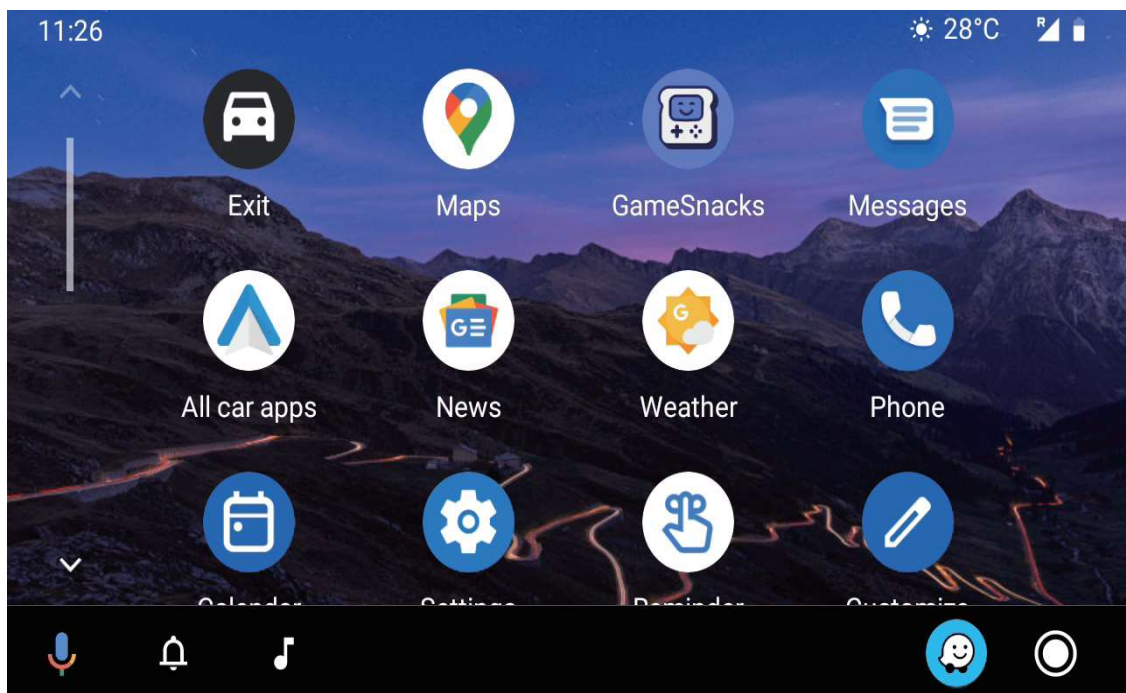

- 2 Tap the Android Auto icon.

- 3** Turn on Wi-Fi and Bluetooth, connect to [AutoSky-XXXX], and accept prompts.

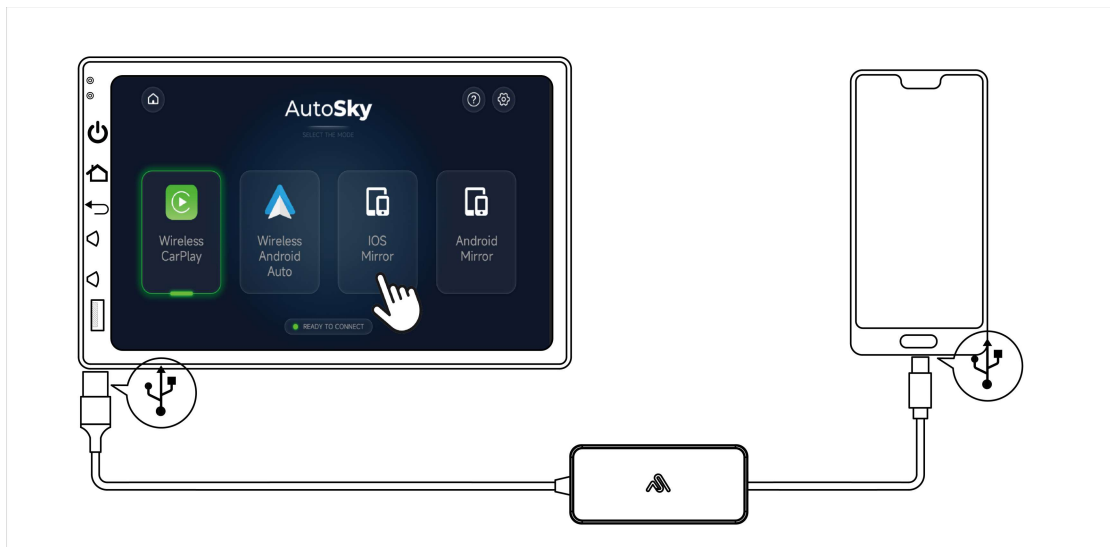

- 4** Enjoy Wireless Android Auto ; no need to pair again.

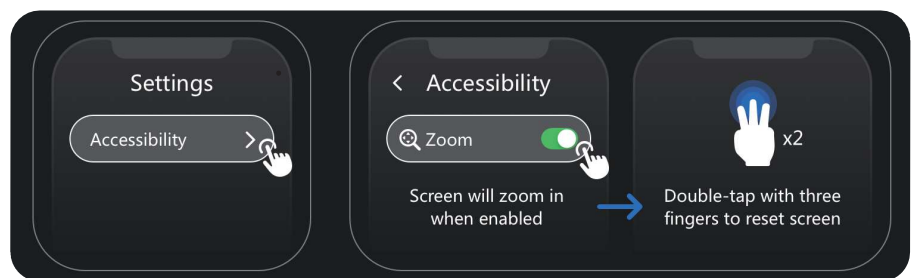

SCREEN MIRRORING FOR IOS

- 1 Connect your MirrorSync and select iOS Mirror.

- 2 Follow the instructions to set up the phone properly.

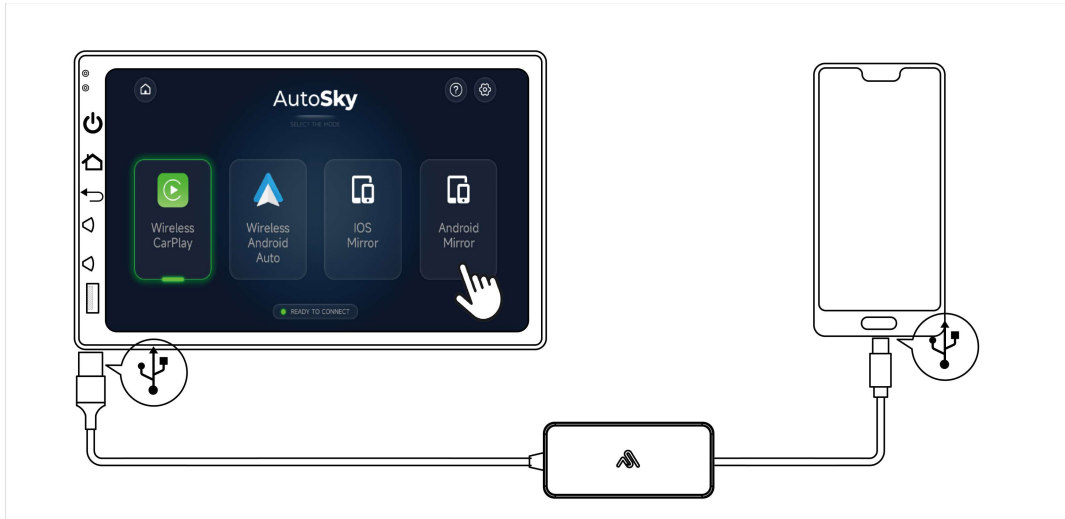

- 3 The connection is successful.

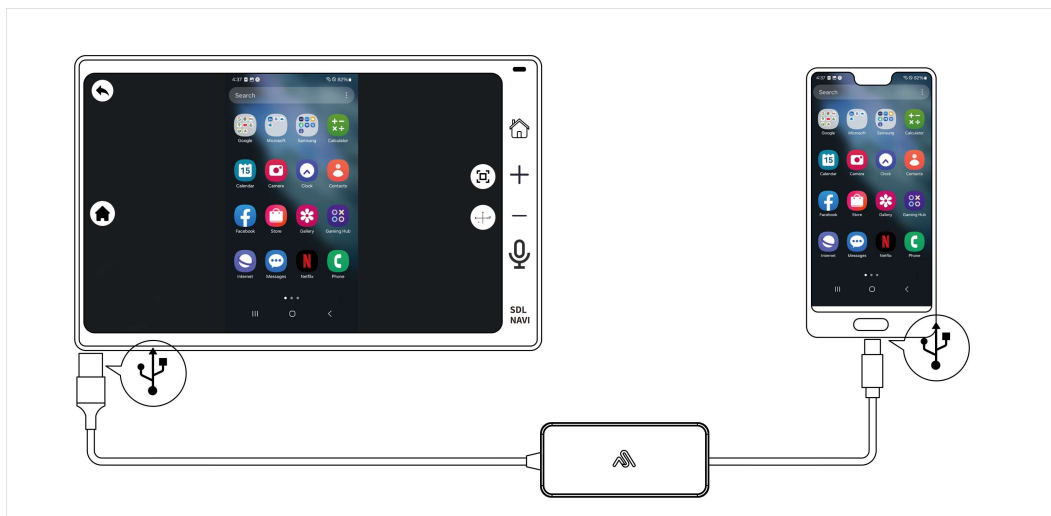

Note: The touch function can only be activated after the settings are made!

SCREEN MIRRORING FOR ANDROID

- 1 Connect your MirrorSync to the car and the mobile phone, and click the Android Mirror icon.

- 2 The connection is successful.

This function is only supported by mobile phones with DP display output function. Verify that your device is compatible

Some phones automatically enter DESK mode when screen mirroring. To exit, do it manually check your phone's manual for steps

UPDATE PROCESS

This action is not recommended if your adapter is working properly.

- 1 Connect your AutoSky MirrorSync to a mobile phone charger.

- 2 Connect your adapter to your phone through WiFi using the password: 88888888
You need an iPhone and open mobile data.

- 3 Scan the Qr Code with your camera or enter **192.168.2.1** in Safari.

Note: For Android users click "Switch P2P mode"

Locate the WiFi Direct feature on your phone.

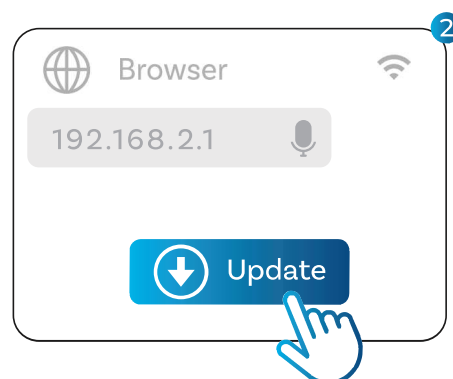

The steps may differ depending on the device. For example, on a Google Pixel 6 Pro:

Go to Settings → Network & internet → Internet → Network preferences → WiFi Direct → [AutoSky-XXXX].

Then proceed to the next step.

- 4 Scroll down to the **upgrade section** to verify your device has the latest software.

Note: *You can disconnect your device once the green light is flashing again.*

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
