• About US

At Peaciar, we believe childhood brims with imagination and joyful discovery. Our gesture-sensing transform stunt car delivers screen-free, all-terrain fun for kids. Equipped with 3 kinds of control, you steer by remote, sensor watch hand gestures. Perform cool 360° spins and climbing stunts anywhere. It features switchable LED lights and adjustable music modes with mute function. Made of solid anti-collision material, it boosts kids' coordination and creativity. More than a toy, it's a loyal playmate full of unforgettable adventure moments.

Press and hold the switch button for 2 seconds to transform the stunt car.

Press once: Switch to Mode 1

Press twice: Switch to Mode 2

Press three times: Switch to Mode 3

Remote Control Button Function Introduction

REMOTE CONTROL USE

Uses 2"AAA" size batteries (Not included)

Air gesture

1.Press the gesture button, the LED light flash once, pairing complete. Place your hand over the sensor area to control the stunt car with hand gestures. Basic operations: Wave your hand left to slide the car left; wave your hand right to slide the car right. Lift your palm up and down to transform the car body shape.

Tips: The gesture sensor is positioned at a height of approximately 40cm to prevent loss of control due to the palm being too far from the sensor area.

Music & Light Button

Hold for 2s turn on LED lights ON/OFF

- Short press to switch music:
- 1st press : Music 1
 - 2nd : Music 2
 - 3rd : Mute
 - 4th : Startup sound

Tips: Note: Remote auto-sleeps after 30 seconds of inactivity.
Stunt car will enter auto standby mode after 5 minutes of inactivity.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
