## USEFUL TIPS

**1. Battery.** Please recharge the Battery for at least 6 hours before the initial use. If you connect this player with AC power, you can use it directly.

**Note:** Make sure you switch off the unit before charging. The charging indicator LED will change from RED to OFF to indicate that the battery has been fully charged. When the unit is on, the LED turns Green.

**2. LCD Screen.** If you find scratches on the screen, just remove the screen protector.

**3. Laser Pickup.** There is a round card inside the player. Before you insert a disc, please remove the card. Please DO NOT touch the laser pickup or other parts with your hand.

#### 4. Disc Format

|                           |                                                                                                                                                                                                                                 |

| Disc Format Supported     | CD,DVD,DVD+R/-R,DVD+RW/-RW,VCD<br>SVCD,CD-R/RW                                                                                                                                                                                  |
| Disc Format NOT Supported | Blu-ray, HD DVD,Discs recorded in the AVCHD format,<br>DVD-Audio,Version 1.0 of DVD-RW,DVD-ROM,CD-<br>ROM,CDV,CD-G SACD,Photo CD,DVD-RAM that cannot<br>be removed from their cartridges,2.6-GB and 5.2-GB<br>DVD-RAM,PAL discs |

**5. Language Settings.** Press key [SET UP] → [OSD Lang] → Change the display language. It is the same procedure for Audio, Subtitles and Menu.

#### 6. About the Maintenance.

- Wipe with a soft,dry cloth to clean this unit
- Use eyeglass cleaner to remove stubborn dirt from the LCD.
- Do not use alcohol, paint thinner or benzine to clean it.
- Do not press onto the LCD screen or drop the product from a high place.
- This unit is not waterproof. To prevent a fire, do not place any container filled with liquid near this unit (such as a vase or flower pot) or expose it to dropping, splashing,rain or moisture.

- To clean discs, wipe with a damp cloth and then dry.
- Do not attach labels or stickers to any discs (This may cause discwarping, making it unusable).
- Do not write on the discs with a ball-point pen or any other writing tool.
- To protect discs from scratches and dirt, return them to their cases or cassettes when not in use.
- Do not use discs that are severely deformed, cracked, or irregularly shaped (e.g., heart-shaped).

## RANGE OF USE

The distance and angles are approximate.

Within 4m (26ft.) in front

Within 30 degrees angle either left or right

## RANGE OF USE CONNECTION

Here are the instructions about how to play games on a DVD player:

1. Use your PC to download games from the attachment file.
2. Unzip the NES file folder to your PC, and copy the folder to a USB stick (16GB to 32GB).
3. Plug the USB stick into the right-side USB slot and plug the game joystick into the backside USB slot.
4. Turn on the player and press "USB/SD card", choose "USB" mode.

## ENJOY FUN WITH A TELEVISION

## SETUP PAGE

### Menu Operation

1. Press **[SETUP]** on the remote control or on the unit to show the setup menu.
2. Use **[ ▲ ▼ ◀ ▶ ]** to control the cursor to enter the secondary or tertiary menu, and press **[OK]** to select the option you want to set.
3. Finally, press **[SETUP]** again to exit the setup menu.

## SYSTEM SETUP

### [TV System]

Set TV Type to NTSC, PAL, or Auto.

### [LAST MEMORY]

1. ON: Each time you turn on the unit or stop the disc, it will memorize the last play duration. Next time you turn on the unit and play the same disc, the unit will play from that memorized point.
2. OFF: Disable the last memory function.

### [Screen Saver]

1. ON: If the image remains motionless on the screen, for example the disc is paused, stopped etc., for several minutes, a screen saver will appear on the screen. You can press any key or button to wake it up.
2. OFF: Turn off the screen saver function.

### [TV Type]

Setup panel display to 4:3PS, 4:3LB, 16:9

1. 4:3 Normal / PS PANSCAN

If the unit is connected to a conventional TV set, the wide-screen image will be displayed on the screen in its native aspect ratio with some part on the left and right cut off.

2. 4:3 Normal / LB LETTERBOX

If the unit is connected to a conventional TV set, the wide-screen image will be displayed in its native aspect ratio with black borders on the top and the bottom side.

3. 16:9 wide

Select this option if the unit is connected to a wide-screen TV set. The wide-screen image will be displayed in full screen in its native aspect ratio while the 4:3 image will be stretched out horizontally to fit in the screen.

### [Password]

Enter the default password "0000" then set your password.

### [Rating]

When setting a rating level, a password screen is shown. Follow the on-screen instructions. **Do not forget your password.**

### [Default]

Restore all setting options of your portable DVD player to factory default settings.

## LANGUAGE SETUP

The Audio menu allows you to change the audio setup of the DVD.

**[Osd Language]** Set this on-screen display language in this item.

**[Audio Lang]** Set the default audio language.

**[Subtitle Lang]** Set the subtitle language.

**[Menu Lang]** Set the menu language.

## AUDIO SETUP

**[Key]** Adjusts the key of the audio from # to b.

## VIDEO SETUP

**[Brightness]** Adjusts the screen brightness.

**[Contrast]** Adjusts the screen contrast.

**[Hue]** Adjusts the screen hue.

**[Saturation]** Adjusts the screen saturation.

**[Sharpness]** Adjusts the screen sharpness between 0-8.

## DIGITAL SETUP

**[OP Mode]**

1. Line Out

Separate a soundtrack into two independent ones. This mode can be regarded as night mode. For playing AC-3 DVD discs, the volume will be lower than RF OUT.

2. RF Remod

Combine two soundtracks into one. This mode can be regarded as a day mode.

For DVD discs playing AC-3, the volume is higher than the Line Out.

**[Dynamic Range]** FULL, 6/8, 4/8, 2/8, OFF.

**[Dual Mono]** Set down Stereo, Mono L, Mono R, Mix-Mono.

# SPECIFICATIONS

## DIVX Playback

DIVX is a video (movies and video) recording format, which is commonly known as AVI.

DIVX disc features high quality that is comparable with the DVD's and larger capacity. For example:

| 1.5H movie  | In MPEG-1/2 format | In DivX         |
|-------------|--------------------|-----------------|
| DVD(MPEG-2) | About 1.5-2GB      | About 600-800MB |
| VCD(MPEG-1) | About 800MB-1G     | About 600-800MB |

## Difference among MPEG 1, MPEG 2 and MPEG 4

|             | MPEG 1                | MPEG 2   | MPEG 4                |
|-------------|-----------------------|----------|-----------------------|
| Speed(kb/s) | 1380kb/s<br>(352*288) | 6500kb/s | 8800kb/s<br>(720*576) |
| Quality     | Good                  | Excelled | Perfect               |
| Hardware    | Low                   | Medium   | High                  |

## Supported format for different files

| File            | Supported Format                                                |
|-----------------|-----------------------------------------------------------------|
| Compatible Disc | CD-R, CD-RW, VCD, SVCD, CVD, DVD±R, DVD±RW                      |
| Audio           | MP3, WMA, OGG, AAC (Bit rates: 32-192kbps)                      |
| Video           | AVI, MPG, MP4, VOB, FLV, RMVB Resolution must be within 720*576 |
| Picture         | JPG                                                             |
| E-book          | TXT (Code: ANSI)                                                |

## Specification

|                    |                                           |
|--------------------|-------------------------------------------|
| Compatible DISC    | CD,DVD,CD-R(RW),DVD±R,DVD±RW,VCD SVCD(RW) |
| Frequency response | 20HZ to 20KHZ                             |
| Video output       | 1 Vp-p/5 Ohm unbalanced                   |
| Audio output       | 1.4 Vrms/10 kohm                          |
| Dynamic range      | Better than 85dB                          |
| Laser              | Semiconductor laser,Waver length:650      |
| Power source       | DC9-12V 1A                                |
| Battery Type       | Li polymer                                |

## TROUBLESHOOTING

Before contacting the customer service,please kindly check by yourself with the following chart.

| Trouble shooting                   | Solution                                                                                                                                                                                                                                                                                                                                                                                   |
