VENTION® Power Bank User Manual VWS-K62		Introduction Dear customer, thanks for your trust in Vention. This manual is designed to provide you with all the information you need. Please read this manual carefully before use and keep it properly for future reference. Specifications Model: FLB Rated Energy: 19.55Wh (5000mAh 3.91V) Input (USB-C): 5V~3A; 9V~2A Output (USB-C): 5V~2.4A; 9V~2.22A Output (Wireless): 5W/7.5W/10W/15W Total Output (USB-C+Wireless): 5V~1.5A+5W (Total output is lower than the combined maximum output of all ports when used independently.) Manufacturer: Ningbo Fulman Communication Technology Co., Ltd. Manufacturing Factory: Dongguan ARUN Industry Co., Ltd. Made In China Drops or Impacts May Pose Safety Risks. If Significant Swelling Occurs, Stop Using It Immediately. Do Not Disassemble, Crush, Or Dispose of the Product in a Fire. Do Not Expose It to High Temperatures. Recommended Service Life: 5 Years Standard: GB 47372-2026, GB 4943.1-2022, GB 31241-2022	Product Overview Wireless Charging Area 1 2 USB-C IN/OUT Wireless Charging Indicator 3 Power Button 4 Battery Level Indicator 5	Instructions for Use 1. This power bank supports devices compatible with wireless charging. Place the device on the wireless charging area to begin charging. You can also charge phones and other devices through the USB-C port. 2. Charge the power bank through the USB-C port. Pass-through charging is also supported. 3. Disconnect the power supply once the power bank is fully charged. 4. Connect the power bank to your phone through the USB-C port. Press the button three times to enter connection mode, then open the app to view information about the power bank. Maintenance and Cleaning Gently clean the power bank with a dry, soft cloth to avoid internal short circuits. Do not use corrosive cleaners as well. Warranty and After-Sales Service This product comes with a 1-year warranty. If there is non-human damage during normal use, please contact our customer service, and we will provide you with service and support. The warranty does not cover damages caused by human factors, improper use, or failure to operate in accordance with the instructions provided. During the warranty period, please keep the Purchase Receipt, Product Packaging, and User Manual for after-sales service purposes.	Notes 1. Fully charge the power bank before first use to ensure optimal performance. 2. Perform a full charge cycle (0% to 100%) every 2-3 months for accurate battery level readings. 3. Avoid overcharging—disconnect the power bank once fully charged. Do not drain the battery completely; recharge when the level drops over 20% to prolong battery life. 4. For long-term storage, maintain a charge level between 40-80% to prevent over-discharge and battery degradation. 5. Do not store the power bank above 45°C or in direct sunlight. Do not put it in fire or any other hot environments. 6. Do not disassemble, repair, modify, or replace any parts of the power bank. 7. Do not drive nails into the power bank or hit it with a hammer. 8. Do not immerse the power bank in water or expose it to moisture. 9. The power bank may warm up during use, but if it stays below 45°C, it's safe to use. 10. Carry the power bank in a shockproof, moisture-proof bag and keep it away from metal objects like keys or coins to prevent short circuits. 11. If the power bank becomes unusually hot, swells, or emits a smell, stop using it immediately and keep it away from fire. 12. Use good-quality charging cables; damaged cables can lower charging efficiency and pose safety risks. 13. If a power adapter is used to power this product, please use a compatible CCC-certified power adapter that meets the applicable standard requirements. Important Safety Tips 1. Never disassemble or modify this device yourself. 2. Keep it dry – avoid damp or wet places. 3. Charge away from heat sources like stoves or heaters. 4. Keep liquids away from the charging ports to prevent damage. 5. If your power bank gets wet, stop using it immediately!	FCC Statement This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help. *RF warning for Portable device: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
