1. First-Time Pairing

FIRST-TIME PAIRING

1. Remove Insulation Films

Peel off the clear insulation films located inside the charging case or on the bottom of the earbuds. Without removing these, the earbuds will not charge or power on.

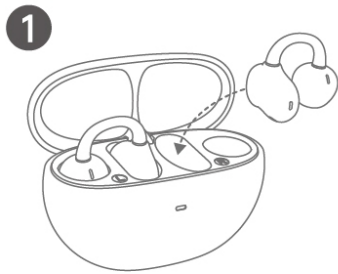

2. Open the Charging Case Keep the earbuds inside and open the lid. The earbuds will automatically power on and enter pairing mode.

3. Enable Bluetooth on Your Device Go to your phone's Bluetooth settings, find "**Kinglucky Earbuds**" and tap to connect.

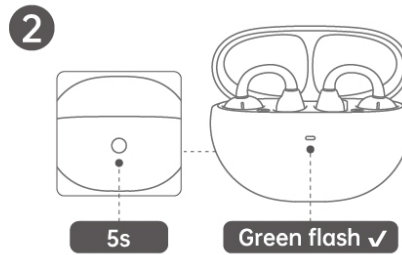

4. After Successful Pairing Once paired, the earbuds will reconnect automatically the next time you open the charging case.

2. One Side Not Working / Bluetooth Not Connecting

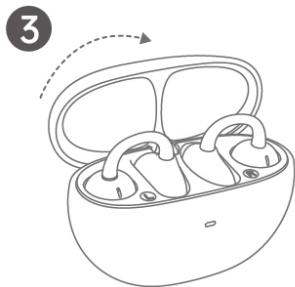

RESET & RECONNECT

Place earbuds into the case

Hold the reset button

Close the lid, then open it again

Re-pair with your phone

1. Check Insulation Films: Confirm that the films on BOTH earbuds and inside the case are removed. This is the most common cause of one-sided issues.

2. Forget Device: In your phone's Bluetooth list, find "Kinglucky Earbuds" and select "Forget This Device."

3. Reset the Earbuds:

- Place both earbuds into the charging case. Keep the lid open.

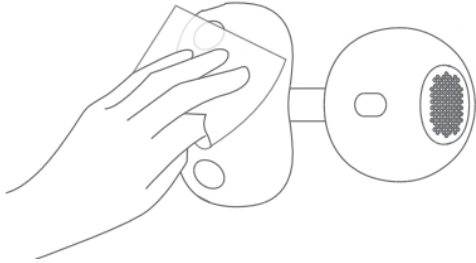

- Press and hold the reset button for 5–8 seconds until the indicator changes from orange to flashing green.

4. Re-pair: Close the lid for a few seconds, reopen it, and select "Kinglucky Earbuds" on your phone to reconnect.

3. Not Charging / Short Battery Life

1. Clean the Charging Contacts

Use a dry cloth or cotton swab to gently clean the metal contacts on both the earbuds and the charging case.

2. Reinsert the Earbuds

Make sure the earbuds are properly seated in the charging slots and that the indicator light turns on.

3. Use the Original Cable and Adapter

Third-party cables may cause poor connection or slow charging.

4. Avoid Extreme Temperatures

Avoid charging in very hot or cold environments, as it can affect battery performance.

5. Fully Charge Before First Use

Before first use or after long storage, fully charge both the earbuds and the case
