Model:	DGPB302																					
Battery Capacity:	5000mAh/18.25Wh																					
Energy Conversion:	≥60 %																					
Rated Capacity:	3000mAh(5V=2A)																					
Type-C Input:	5V=3A 9V=2.22A 12V=1.67A																					
Type-C Output:	5V=3A 9V=2.22A 12V=1.67A																					
Wireless Charger Output:	5W/7.5W/10W/15W																					
Operating Temperature:	0°C to 40°C																					
Storage Temperature:	0°C to 45°C																					
Product Size:	L99*W70*H6.8mm																					
<p>Product Description and Instructions</p> <ol style="list-style-type: none"> This product is a magnetic portable charging device that can charge smart devices such as smartphones, wireless earbuds, and tablets through multiple methods including wired and wireless charging. Integrating both wired and wireless charging functions, the device supports a maximum wired fast charging power of 20W, it also supports a maximum wireless fast charging power of 15W. The product is equipped with a multi-layer safety protection mechanism, including over-charging protection, over-discharging protection and temperature protection. For first time use, to achieve the optimal performance of the device, please charge the power bank to 100% before using it for the first time. If the product's LED indicator does not light up when the power button is pressed, the product may be in the low-battery protection mode. Please connect it to an external charger for charging and try to restore it to normal operation. <p>WARNING</p> <ol style="list-style-type: none"> This product is not a toy, please place it out of reach of children, and prohibit children from using or playing with it to avoid accidents. Please make sure to use a charger that meets local safety standards to charge this product to prevent electric shock or battery damage. If the product swells, deforms, leaks liquid or shows other abnormal conditions, please stop using it immediately and dispose of it properly. It is strictly prohibited to disassemble, squeeze, pierce the product, or immerse it in water or fire (including placing it close to stoves, heat sources, etc.). 	<p>5. This product should not be disposed of as household waste, but should be handed over to an appropriate collection point for the recycling of electrical and electronic equipment.</p> <p>Product Warranty</p> <p>DIGIERA warrants to you that the product and its accessories purchased are free from defects in material and workmanship in accordance with the following terms and conditions:</p> <ol style="list-style-type: none"> The product warranty period is 12 months from the original date of purchase. The warranty applies only to the original purchaser of the product customer and is not transferable to any subsequent consumer. During the Warranty Period, the Warranty is valid only for the Customer. DIGIERA or its authorised service agents will provide warranty service to the Consumer in the event of a quality problem with the Product during the Warranty Period. <p>FCC Statement</p> <p>1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:</p> <ol style="list-style-type: none"> This device may not cause harmful interference. This device must accept any interference received, including interference that may cause undesired operation. <p>2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p>	<p>Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.</p> <p>This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation, if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help. <p>The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.</p> <p>Thank you for purchasing, get support by:</p> <p>Tel: 1-877-7954363 Website: https://www.digieraglobal.com Email: support@digieraglobal.com</p> <p>Remarks: Kowin technology co., ltd reserves the right to make changes due to obligation and the right of final interpretation.</p>
