How to use for YouTube/Netflix/TikTok. 3 Click Settings Open car WiFi settings Find and connect it How to use for YouTube/Netflix/TikTok. 4 The wifi hotspot is connected successfully How to use for YouTube/Netflix/TikTok. 5 Use video NOTE! Simply plug the product into the USB port and it can be used immediately.	FQA 1.Does it support wireless carplay and watch YouTube / Netflix / Tiktok videos at the same time? Can not support wireless carplay and watch the videos at the same time. 2.When i want to watch the Videos,do i need to manual ly connect to the WIFI hotspot every time? Yes,you need to manually connect to the WIFI hotspot every time. 3.What to do when operation is slow Please click the Speed icon clear cache and go to setting system try reset related option. 4.What is the Wi-Fi password for the Wireless Video Carplay Adapter?	We need to connect the Bluetooth,not Wi-Fi. After Bluetooth matching is successful,WiFi will automatically connect. So no need Wi-Fi password. Make sure your Wi-Fi is turned on and unoccupied when pairing. 5.Audio input or output issues: calls rejected or forwarded to voicemail / no play sound / microphone not working / music playback interrupted or paused / voice functioning abnormally... 1)Please check your iPhones Bluetooth to see if it is connected to another bluetooth device,such as apple watch,earphone... If so,please disconnect other auto - connected Bluetooth devices or turn off the Bluetooth directly. 1)When on a call, check that your Audio output is Carplay.	Note: Bluetooth plays a pairing role in the work of the adapter. When the pairing is completed, it only needs WIFI to keep working,so it doesn't matter to turn off bluetooth. 6.The indicator blue light of the adapter is still on after the car is turned off? Because the car does not cut off all power immediately when it is turned off,the adapter's light will not go out immediately,but it will take a while. Please rest assured that its power consumption is minimal and will not drain the car battery. 7.When use the wireless carplay adapter whether iphone can use other internet wifi? When enjoying the wireless carplay adapter function, the iPhone's WiFi will be occupied by the adapter. So you can not use other internet at the same time. Youonly can use your iPhone SIM card internet.	8.Unable to automatically reconnect wireless carplay? 1)Please make sure that the Bluetooth and WiFi functions of your iPhone turned on and the Bluetooth is not occupied when you get in the car. 2)The wireless carplay Adapter will automatically reconnect to your iPhone when you use it again. 3)Clear the pairing record,restart the iPhone and repair the adapter. 9.Can the adapter be paired with multiple iPhones? The adapter can be paired with Maximum five iPhones, but only one device can be connected at a time. If you want to pair it with a new iPhone,please cancel the current connection first. Please note that by default, the adapter's system will only automatically connect back to the last used iPhone.	10.Can't find the bluetooth and Wi-Fi from the Wireless Video Car play Adapter? Please make sure wireless carplay adapter power indicates blue light is on and Be sure plug the adapter into the port that is for wired apple carplay. If convenient, Please test it with another iPhone. If only a specific iPhone cannot find the Bluetooth or Wi-Fi of the adapter, please try to reset the network and bluetooth settings of this iPhone and the restart the iPhone once, if the same problem happens on other iPhone, It will be defective, please let us know. 11.How to make online update firmware? 1)Power up the adapter. 2)Open your iPhone personal Hotspot or other WIFI support devices. 3)Click Settings Icon and enter the setting page connected your iPhone personal hotspot or other WIFI.	FCC Statement This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)this device must accept any interference received,including interference that may cause undesired operation. Note:This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates, uses and can radiate radio frequency energy and,if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,which can be determined by turning the equipment off and on,the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna.	-Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help. Note:The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. To maintain compliance with FCC's RF exposure guidelines,the distance must be at least 20 cm between the radiator and your body, and fully supported by the operating and installation configurations of the transmitter and its antenna(s).
