INSTALLATION WARNING

Before commencing any electrical work to avoid the risk of electric shock locate and remove fuse or lock circuit breaker in the **POWER OFF** position before proceeding. Test the power is OFF before wiring. Wiring with the power on can result in serious personal injury, fire and death.

WARNING: If you are unsure about any part of these instructions, please consult an electrician.

IMPORTANT NOTES CODES: Before use please read completely the safety instructions and installed and/or used in accordance with all local and national electrical codes and regulations or latest edition of IEE regulations (BS 7671) in the UK.

This product is designed for permanent fixed installation and is not intended for connection via a standard mains plug. Installation must be carried out by a qualified electrician or competent AV installer in accordance with local wiring regulations.

BREAKER: Suitable short-circuit and overload protection must be provided at the distribution board in accordance with local electrical regulations. Where the product is connected to an existing lighting circuit, a circuit breaker rated up to 10 A may typically be used. Where a dedicated supply is provided for the speaker system, a lower-rated protective device (for example 3 A) may be used where appropriate to the installation design.

If the unit is to be used as a replacement for an existing product, remove the existing unit from its location and disconnect the wiring. Connect the wires correctly in the power driver. Ensure terminals are properly tightened and ensure no bare wires are visible. When fitting the speaker into the ceiling, ensure no wires are trapped.

NOTE: To meet US local and national NEC code, for these types of installations you will need contact your local contractor for installation. Please visit support.litheaudio.com for latest installation guides/updates.

READ THE INSTRUCTIONS CAREFULLY BEFORE STARTING THE INSTALLATION PROCESS AND KEEP THEM SAFE FOR FUTURE REFERENCE.

- Failure to follow the instructions in this guide voids all warranties on your speakers.
- Warning: Do not use the product in water.
- Warning: Do not install speaker directly above any heat sources such as radiators, or other apparatus that produce heat.
- Warning: To reduce the risk of fire or electric shock, do not expose this speaker to rain or moisture (directly above bath or shower area) or in Bathroom Zone 0 or Zone 1.
- Protect the power cable from being damaged, do not over stretch cable.
- Only use attachments/accessories specified by the manufacturer Lithe Audio.
- Turn off the power to the speaker when unused for long periods of time.
- A Fire and Acoustic speaker hood must be used in accordance with local and national electrical codes and regulations. For the UK, **building and IEE Regulations with a fire rating of up to 60 minutes, is Parts B, L, C and E compliant.**
- Do not open the back cover to the speaker as this protects the PCB, doing so will invalidate the warranty and could cause electric shock.
- Ensure speaker location is free from obstructions such as electrical conduit, HVAC ducts or Water lines.

BOX CONTENTS

Please ensure you read the entire instruction manual carefully before you commence any work. Carefully unpack the speakers from the packaging. Please check to ensure all the parts shown below are included.

If any parts of the speaker appear damaged, please contact your dealer/reseller immediately or contact support@litheaudio.com for contact details.

WIRE CUTTERS

KNOW YOUR SPEAKER

The Lithe Audio LBT8 Bluetooth ceiling wireless speakers have various inputs:

SPEAKER OUTPUT - To connect one additional passive (Slave) speaker (Gold Plated)

3.5MM JACK INPUT - To connect directly from TV Output, Amazon echo, projector etc..

POWER INPUT - To connect (as supplied) Through Power driver

In built over voltage, under voltage, over temperature, and short circuit protection, if there is an electrical fault, the power supply to the amplifier will cut off automatically and restart when the speaker has stabilised.

LITHEAUDIO
BLUETOOTH CEILING SPEAKER

INSTALLATION

IMPORTANT: BEFORE COMMENCING ANY ELECTRICAL WORK ENSURE THE SUPPLY IS SWITCHED OFF AT THE MAINS. IF YOU ARE UNSURE HOW TO FIT SEEK HELP FROM A PROFESSIONAL ELECTRICIAN/AV INSTALLER

1. Mark out the position of the speaker using a, tape measure and mark using a pencil with the template supplied. Check using a stud finder to make sure no obstruction is present prior to cutting.
2. Drill a pilot hole and cut the speaker hole using a cutting saw. **Take caution when cutting to keep fingers away from cutting blade and wear protective eyewear.**

3. Connect the electrical supply to the power driver using IEC cable supplied. Ensure live, neutral and earth are correctly terminated and secure. All electrical terminations must be fully enclosed before switching the power back on.

Ensure supply cables are secured and protected from strain, sharp edges or mechanical damage.

PAINTING THE SPEAKER GRILLE

Do not paint the speaker grilles whilst attached to the speaker. Lithe Audio recommends spray painting using 5 parts thinning agent to 1 part paint. Spray thinly to ensure speaker cover grille holes are not blocked as this will effect the sound quality of the speakers.

INSTALLATIONS IN FIRE-RATED CEILINGS

If you plan to mount your speakers in a fire-rated ceiling, you should purchase a fire hood for the speaker. Visit www.litheaudio.com for more information and recommended hoods.

SETUP AND PAIRING

NOTE: ENSURE THE BLUETOOTH WIRELESS SPEAKER IS CONNECTED TO THE POWER SUPPLY AND TURNED ON.

The Led indicator will flash Blue when ready to pair, turn solid Blue whilst the device is connected to the speaker and music is playing

1. Open the setting menu and select Bluetooth

2. Turn on Bluetooth and search devices

3. Click Lithe Audio BT8 to connect and pair to the speaker.

4. Open your phone camera and scan the below QR code to download the Setup App to change speaker name or add a pin:

BLUETOOTH SETUP APP

Do you have multiple Bluetooth speakers in your home?

Use the Lithe Audio setup App to identify each speaker easily, by giving each zone a unique name and password. Configure the speaker to work with Amazon Alexa, Google home or TV's wirelessly. For more information visit:

www.litheaudio.com/bluetooth-5-setup-app.html

HARD WIRED INPUT - 3.5MM INPUT

To connect other devices that may not have a Bluetooth connection (such as Turntables, CD players, mp4 player or a TV)

3.5MM JACK CONNECTION: To play music via speaker connection connect an 3.5MM Jack cable to the speaker and play through your device. Ensure ALL Bluetooth connections are turned off to be able to play through the speaker. The LED will flash green when playing using 3.5MM Jack.

PLAYBACK MODES

To cycle between the playback modes press the 'Connection Button' under the grill to change the mode between them.

1. Automatic Mode (flashing Green/Blue)
2. Bluetooth Only Mode (Flashing Blue)
3. 3.5mm Jack Only Mode (Flashing Green)

ADDITIONAL SPEAKER - OPTIONAL

PLEASE NOTE: LBT8 DOES NOT INCLUDE PASSIVE SPEAKER (Sold separately)

The Lithe Audio Master Bluetooth ceiling speaker is able to connect to and power an additional passive speaker via the speaker output (+/-). Use wire cutters to strip the ends of the speaker cable (if required).

This setup is ideal for Kitchen diners or larger rooms where you want a true stereo setup.

LITHE-SYNC (Wireless Grouping)

To use Lithe Like, you must first select one speaker as the Master speaker and then connect additional Master speakers as Slaves.

To enable Lithe Sync across multiple speakers, Master speakers must be purchased. These are configured as Slave Masters and synchronise with a single Master speaker in the selected room to be part of a group.

Note: There is no limit to the amount of slave speakers you can connect to the master speaker, the only limiting factor is the connection distance limit of 80m.

STEP 1 – SET THE MASTER SPEAKER

Choose the speaker you want to act as the Master.

Short press the button twice to toggle the speaker from Slave to Master mode.

STEP 2 – ADD SLAVE SPEAKERS

Press and hold the button for 3 seconds.

You will hear “Slave connected” and the LED will turn orange.

Repeat this process for each additional speaker until all required Slave speakers are paired to the Master.

STEP 3 – PLAYING MUSIC

When streaming music, select the Bluetooth device name that now has “_MASTER” at the end of the name. For example ‘LITHE AUDIO BT8_MASTER’

REMOVING OR RECONNECTING A SLAVE SPEAKER

To stop a particular Slave speaker from playing:

Open the Bluetooth Setup App. In Lithe Sync/Link mode, toggle the speaker off. The speaker will no longer be paired or play audio.

To reconnect the speaker:

Return to the app. Toggle the speaker back on and it will rejoin the group.

STEREO / MONO SELECTOR

If using a secondary passive speaker you can select if the music is played in Stereo (left and right channels) or in Bridged Mono (single channel). Use the switch on the back of the speaker to select Stereo or Mono output.

VOLUME CAPPING SWITCH

If installing in a hotel room or commercial space you may wish to cap the volume at 50%. Using the Volume capping switch on the back of the speaker you can select either 100% or 50% max volume output.

CONNECTION RESET BUTTON

Press and hold the 'Reset Button' for 10 seconds to clear the connection memory. All paired devices will be deleted.

SPECIFICATIONS

- Sound Quality THD+N<0.009%, 35Hz-23kHz
- RMS Power: 100W RMS (2 x 50W)
- Impedance: 8 Ohms
- Sensitivity (1W/1m): 91dB
- Audio Sample Rate: 48Khz
- Line In (3.5mm jack), auto-detecting
- Type: Class D (Digital)
- Woofer: 8" Composite Magnesium Cone
- Tweeter: 1" Titanium Cone
- Frequency Range: 2.4GHz - 2.4832GHz (ISM Band)
- RF Channels: 79 (USA, Japan & EU)
- Wireless Range: Up to 30 metres
- ID Device Name: Lithe Audio BT8
- Electrical classification: Fixed installation equipment.
- Power Input Supply : 100 - 240V~ 50/60Hz
- Transformer Output Supply : DC24V / 5A
- Dimensions (W x D) 275 x 133mm (10.8x4.5")
- IP rating: IP44
- Operating Temperature 0° to 40° C (32° to 104° F)
- Storage Temperature -20° to 70° C (4° to 158° F)

* Specifications subject to change without notice.

TROUBLESHOOTING

If a problem arises, please try the troubleshooting frequently asked guide below. If the problem is not listed please contact Lithe Audio Customer Service Support on support@litheaudio.com or Call +44 (0) 1293 922 015 (UK time 9-5pm) or visit support.litheaudio.com

Q: Speaker has not been found during setup

A: Please check power cord is correctly connected in to speaker and transformer; Check the blue light is flashing. Press reset button for 10 seconds to reboot the speaker. Before commencing any electrical work ensure the supply is switched OFF at the mains.

Q: Can the speaker be installed into the bathroom ceiling.

A: The IP44 rated speakers can be installed in zone 2 or 3 of a bathroom. Ensure you read the safety precautions on page 1 before installation. **Warning:** Do not use the product in water or directly above the bath or shower area.

REGULATION INFORMATION

CE: Lithe Audio products marked with the CE mark comply with the Low Voltage Directive: 2014/35/EU, Electromagnetic Compatibility Directive 2014/30/EU when installed and used in accordance with the manufacturer's instructions.

To view the declaration of conformity, visit: www.litheaudio.com/policies

FCC EMC COMPLIANCE INFORMATION: This device complies with Part 15 of the FCC Rules. Its operation is subject to the following two conditions: (1) This device may not cause interference; and (2) This device must accept any interference received, including interference that may cause undesired operation of the device. Contains FCC ID: 2AQOBLBT8

EUROPE: LitheAudio declares that this product herewith complies with the requirements of the EMC Directive 2014/30/EU, Low Voltage directive 2014/35/EU, Eco-Design Directive 2009/125/EC, RoHS Directive 2011/65/EU - (EU) 2015/863 and the RED Directive 2014/53/EU when installed and used in accordance with the manufacturer's instructions. A copy of the full Declaration of Conformance may be obtained at www.litheaudio.com/support/policies.

Lithe Audio Speakers have a standby mode or remove the power cord from the AC mains.

RECYCLING INFORMATION

This symbol on the product or on its packaging indicates that this product shall not be treated as household waste. Instead please deliver it to the applicable collection point for the recycling of electrical and electronic equipment. By recycling this product correctly, you will help conserve natural resources and prevent potential negative environmental consequences. For more detailed information about recycling of this product, please contact your local council office, your household waste disposal service or the shop where you purchased the product(s) from.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

LITHEAUDIO

2 YEAR GUARANTEE

This is a UK Guarantee.

For global warranty information contact your local distributor.

This Speaker is of excellent quality and construction. However, if any defects in materials or workmanship do appear during the guarantee period, we will, at our discretion, either repair or replace the defective parts, free of charge, subject to the terms and conditions of our Guarantee shown below.

This Guarantee covers both parts and labour. Carriage is not included.

This Guarantee provides benefits which are additional to, and do not affect, your statutory rights.

This Guarantee does not cover the cost of returning the product to the dealer from whom it was purchased or to ourselves. This Guarantee applies only to products sold and located in mainland Great Britain. It does not cover liability in respect of or replacement of plugs, cables or fuses and also does not cover defects due to:

- Failure to use or maintain product in accordance with Lithe Audio instructions.
- The product being connected to an unsuitable electricity supply.
- Accidental damage to or abuse or misuse of the product.
- Product modification, except by Lithe Audio or approved agent.
- Dismantling of or interference with the product.

Before returning any product under this Guarantee, please check that:

- You have followed the product instructions correctly.
- Your mains electricity supply is functional.
- The defect is not due to a blown fuse.

If you wish to claim under this guarantee you should:

- Contact Lithe Audio via support@litheaudio.com before sending any product back to us, to receive a RMA authorisation number
- Proof of purchase is required to show when and where the product was purchased, (e.g. a invoice).
- Give exact details of the nature of the defect.
- A Returns form shall be sent to you providing details of your name, address and telephone number and details of the defect.
- Ensure that the product is clean and packed carefully (preferably in its original carton).
- Send the product, postage or carriage paid, to the dealer from whom it was purchased or to Lithe Audio direct. (as instructed)

If you are located outside the UK, kindly get in touch with the dealer or distributor from whom you purchased the product for additional guidance on your return.

This Guarantee does not cover any other claims whatsoever, including, without limitation, any liability for incidental, indirect or consequential damage, nor does it cover any claims for conversion or modification or for the costs of repair carried out by any third party without the prior consent of Lithe Audio. If replacement parts are fitted to the product this will not extend the period of the Guarantee.

For further advice contact the Lithe Audio customer services: www.litheaudio.com/contact
