End a call	Press the POWER button during the conversation
Reject	Press and hold the POWER button during the incoming call
Redial	Press the POWER button twice

WEARING YOUR HEADSET

Using appropriate-size ear-tips is critical for maximum external noise isolation and a snug secure fit. It is also common to have different sized ear canals, so try on one ear-tip at a time to find the best fit for each side.

To fix the **XR700** earbuds firmly, try gently pulling on the outer rim of your ear to ease the tip into a comfortable position. You should notice a drop in ambient noise when the ear-tip is placed correctly. And when you're listening to music, you'll notice more range. Moreover, the **XR700** model is enabled with a flexible ear-hook you can adjust around your ear for perfect fixation.

To change the foam ear-tips:

- 1.** Put the rubber inner part of the foam ear-tip on the top of the nozzle.
- 2.** Rotate and push down the ear nozzle trying to screw it forcibly to the inner rubber part of the ear-tip.

To change the silicone ear-tips:

- 1.** Turn over the ear-tip upper cover.
- 2.** Rotate and firmly push the ear-tip tube to cover the ear-tip pillar.
- 3.** Turn the ear-tip upper cover back on the nozzle.

SETTING UP YOUR TREBLAB XR700

Turn ON

Press and hold the **POWER** button for 2 seconds. You will hear the “Power ON” voice prompt, and the blue & red LED light will start flashing.

Turn OFF

Press and hold the **POWER** button for 3 seconds. You will hear the “Power OFF” voice prompt, and the flashing blue LED light will go off.

PAIRING

Make sure **TREBLAB XR700** are charged and turned OFF.

1. Press and hold the **POWER** button on the right earbud. You will hear the “Power ON” voice prompt, and a few seconds later - “PAIRING” (LED will flash red and blue rapidly). Release your finger.
2. Activate the Bluetooth connection option on your smart device and keep it within 3 feet/1 meter from **XR700** while pairing.
3. Using your smart device, scan/search for available devices.
4. Select **TREBLAB XR700** from the device list.
5. If prompted for the password, enter “0000”.
6. Once **XR700** are successfully paired and connected, you will hear the “CONNECTED” voice prompt, and the LED will start flashing blue every 6 seconds.

MULTIPOINT CONNECTION

TREBLAB XR700 earbuds have a multipoint connection. It allows two devices to be connected at the same time. While you won't receive the input from both devices simultaneously, you'll be able to transition from one device to another seamlessly.

To connect **XR700** to the second device:

1. Temporarily switch OFF the Bluetooth mode on the first device you're connected to.
2. Repeat pairing steps 1-6 and connect the other device.
3. Turn ON the Bluetooth mode back on the first device.

When you turn on the earbuds, they will try to reconnect with recently connected device/devices. If the reconnection does not happen automatically, the earbuds will try to find the next device in the pairing list.

AUDIO PLAYBACK

To pause and resume the playback, press the **POWER** button.

To adjust the volume, press shortly the **Volume +** button to turn the volume up and the **Volume -** button to turn the volume down.

To change tracks on **XR700**, press and hold the **Volume +** button to play the next track and the **Volume -** button to play the previous track.

PHONE CALLS MANAGEMENT

TREBLAB XR700 can be used to make and receive phone calls when connected wirelessly. The audio playback will be paused during the calls.

To answer a call:	Press the POWER button during the incoming call.
To reject a call:	Press and hold the POWER button for 2 seconds.
To end a call:	Press the POWER button while on the phone.
To redial:	Press the POWER button twice.

TROUBLESHOOTING

Problem	Solution
Not powering on	Make sure the headset is fully charged. Charge for 2 hours, if necessary. Reset the earphones: - Press and hold the POWER button for 3 seconds while charging until the LED flashes blue 3 times.
Not pairing	Make sure the earbuds are not paired with any other device. Press and hold the POWER button for about 3 seconds while charging until

the LED flashes blue 3 times. This will force the headset to forget previously paired devices. Repeat the steps for pairing as previously described.

Alternatively, disconnect the device from your headset and remove **TREBLAB XR700** from your device's pairing list. Try to pair again.

Cannot find a wireless driver on a laptop

Make sure your laptop supports the wireless connection. If it doesn't, you will need an external wireless USB adapter compatible with your laptop. For further details, consult with your laptop manufacturer.

Frequent disconnection and noise

Make sure that the distance between your device and the headset is less than 30 feet/10 meters.

Make sure that nothing is blocking the signal between your device and **XR700**.

Check if the music is paused.

Check if the volume level is set on both the source device and the earbuds.

Check if the headset is running out of power.

RESTORE THE FACTORY SETTINGS

To restore the earphones back to the factory settings:

1. Press and hold the **Volume +** and the **POWER** button for 5 seconds until the LED flashes blue.
2. Now the earphones are restored back to the factory settings and ready to be paired again.

CHARGING

One full battery charge provides up to 4 hours of playtime at maximum volume and up to 9 hours at medium volume. When the battery is running low, you will hear the "BATTERY LOW" voice prompt.

To charge the earbuds, plug one end of the supplied cable into the Micro-USB charging port under the rubber cover of the right earbud. Plug the other end of the charging cable into a standard USB port. It takes up to 2 hours to charge fully.

The LED light will turn red while charging. The red light will turn blue when the earbuds are fully charged.

Be sure to use a 5V DC, 0.5-2A adapter or charger. Using a power source with lower power will increase the overall charging time.

When not in use, unplug **XR700** from the charging cable and the cable - from the power source.

If the headset is left unused, even the fully charged battery will lose its charge over time. We recommend charging fully **TREBLAB XR700** at least twice a month to maintain the sufficient battery life.

SAFETY RULES

✔ Don't disassemble or modify your earbuds for any reason. Doing this may cause the earbuds to malfunction or become combustible. The damage to your device can void the manufacturer's warranty.

✔ Make sure the headset is completely dry before charging. Charging a wet device may cause serious damage.

✔ Clean only with a dry cloth.

✔ Avoid exposing **TREBLAB XR700** to extreme temperatures (below 37°F / 3°C or above 112°F / 45°C). Extreme temperatures can cause the deformation of the **XR700** components and reduce the battery life and the lifespan of your headset.

✔ Don't put the device's LED lights close to humans' or animals' eyes.

✔ Do not use **XR700** during a thunderstorm. Thunderstorms can cause serious malfunction and increase the risk of electric shock.

RECYCLING

The earphones can be recycled and they should be to keep our planet clean. Where should you bring them?

In the **US**, there are a couple of options:

1. Best Buy has a recycling program. Just take the broken earbuds with you next time you visit the Best Buy store.

This link will help you to find the best location:

<https://www.bestbuy.com/site/store-locator/>
