

Nilight Car Underglow LED Light

App Control:

Google play

Available on the App Store

- 1 Scan the QR code or search "Happy Lighting" in App Store to download it.
- 2 Open the application, and connect the Bluetooth
When opening the APP, it will remind you to turn on the Bluetooth, then it will automatically connect to the corresponding Bluetooth device when you allow it. If the Bluetooth fails to connect with the APP, please manually turn on the Bluetooth first, then choose the corresponding Bluetooth device.

Easy to Install

» Fixed by double-side Tape

» Fixed by fixed clips and screws

Remove the battery cover before using this remote.

Remote Control

Button	Function
	Brightness+(Static) Speed+(Dynamic) Sensitivity+(Music)
	Brightness-(Static) Speed-(Dynamic) Sensitivity-(Music)
	Turn on/off the controller
	To select corresponding static color
	3 colors jump changing
	7 colors jump changing
	3 colors gradual changing
	7 colors gradual changing
	1: Sound-control mode 1 (general music): 7 colors will gradual change following the music/sound rhythm. If no music/sound input or sensed, all colors are off.
	2: Sound-control mode 2 (DJ music): 7 colors will jump change following the music/sound rhythm. If no music/sound input or sensed, all colors are off.
	3: Sound-control mode 3 (active music): 3 colors will jump change following the music/sound rhythm. If no music/sound input or sensed, all colors are off.
	4: Sound-control mode 4 (DJ music): 7 colors will jump change following the music/sound rhythm. If no music/sound input or sensed, current colors keep lighting.
