Cleaning, Maintenance, & Storage

Cleaning:

- Wipe wires and connectors gently with a dry or slightly damp cloth.
- Do not use solvents or harsh chemicals that may degrade insulation or connections.
- Clean fuse holder contacts periodically for corrosion.

Maintenance:

- Regularly inspect all wires and connections for signs of wear, corrosion, or damage.
- Check that all terminals are tight and corrosion-free.
- Replace fuse if it becomes discolored or damaged.

Storage:

- Store unused components in a dry, cool place.
- Coil wires neatly to avoid kinks or internal conductor damage.
- Keep away from direct sunlight or excessive heat.

Safety Precautions

- Always disconnect the battery before working on electrical systems.
- Use the correct fuse rating (60A) to protect your equipment.
- Ensure all connections are secure and insulated properly.
- Do not route wires near sharp edges or moving parts.

Register Product

Thank you for choosing PyleUSA. By registering your product, you ensure that you receive the full benefits of our exclusive warranty and personalized customer support. Complete the form to access expert support and to keep your PyleUSA purchase in perfect condition.
