Recording paused	Yellow solid																								
Bluetooth connected	LED blinks (The color depends on previous stage)																								
Shutting down	Red stays on, then turns off when shutdown completes																								
Charging	Green blinks																								
Fully charged	Green solid																								
Storage full	White blinks for 6s, then turns off when shutdown completes																								
Low battery warning (forced power on)	Red blinks for 3s, then turns off when shutdown completes																								
Processing & Insights 1. Transcription & Translation ANYPIN delivers clear, accurate transcription in 120+ languages with advanced speech processing and intelligent noise reduction for global conversations. 2.AI Summaries ANYPIN can transcribe recordings into text, automatically generates enhanced summaries for individual sessions or the entire day.			Battery Warning - Replacement of a battery with an incorrect type can defeat safety safeguards (for example, this applies to some lithium battery types). - Disposing of a battery in a fire or hot oven, or mechanically crushing or cutting a battery, can result in an explosion. - Leaving a battery in an extremely high-temperature environment can result in an explosion or the leakage of flammable liquid or gas. - Exposing a battery to extremely low air pressure can result in an explosion or the leakage of flammable liquid or gas.		All the pictures in this manual are for reference only. Please refer to the actual product for accuracy.																				

1. Focus

Turn on or off ANYPIN by following iPhone Focus.

2. Automatic start and stop of calendar schedule

Power on (normal)	Blue solid
Power on (normal)	Red solid
Recording	White solid
Recording paused	Yellow solid
Bluetooth connected	LED blinks (The color depends on previous stage)
Shutting down	Red stays on, then turns off when shutdown completes
Charging	Green blinks
Fully charged	Green solid
Storage full	White blinks for 6s, then turns off when shutdown completes
Low battery warning (forced power on)	Red blinks for 3s, then turns off when shutdown completes

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The highest SAR value reported under this standard during product certification when properly body worn (5mm) is 0.76 W/kg

- Replacement of a battery with an incorrect type can defeat safety safeguards (for example, this applies to some lithium battery types).
- Disposing of a battery in a fire or hot oven, or mechanically crushing or cutting a battery, can result in an explosion.
- Leaving a battery in an extremely high-temperature environment can result in an explosion or the leakage of flammable liquid or gas.
- Exposing a battery to extremely low air pressure can result in an explosion or the leakage of flammable liquid or gas.

Product Name: Note Pod P1

Product Model: CARD30

Dimensions: 65°28'9.5mm

Charging Time: 1.8h

Standby Time: 140h

Battery: 380mAh

Storage: 64GB

MIC Array: 4mic

Bluetooth: BLE5.0

Protection Grade : IP64

Product Operating Temperature: -20°C~60°C
