TRENDnet®

Quick Installation Guide

Non-PoE Multi-Gig Web Smart Switch Series

Table of Contents

1 English

1. Before You Start
2. Quick Reference
3. Hardware Installation and Configuration

https://www.trendnet.com/qig/1010

1. Before You Start

Package Contents

- Quick Installation Guide
- Power cord (1.8m / 6 ft.) (TEG-3524S, TEG-7124WS)
- Console Cable (1m / 3.28ft.) (TEG-3524S, TEG-7124WS)
- Power adapter (12V DC, 1.5A) (TEG-3102WS)

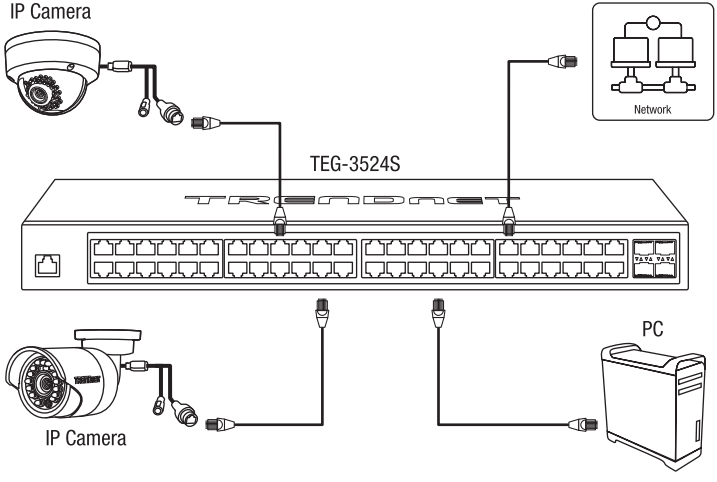

Minimum Requirements

- Computer with an Ethernet port and web browser
- Network cable

Optional Equipment

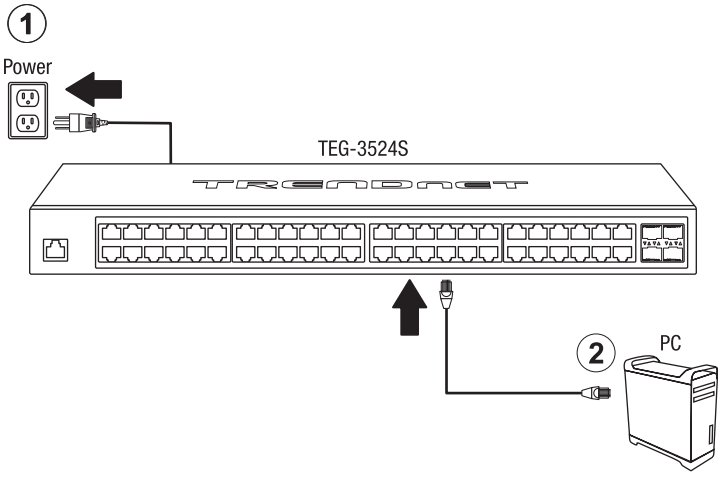

- EIA standard 19" rack
- SFP modules (e.g. TE100-MGBFX, TEG-MGBSX, TEG-MGBS10, TEG-MGBS40, TEG-MGBS80, TEG-MGBS10D3, TEG-MGBS10D5, TEG-MGBS40D3, TEG-MGBS40D5)

2. Quick Reference

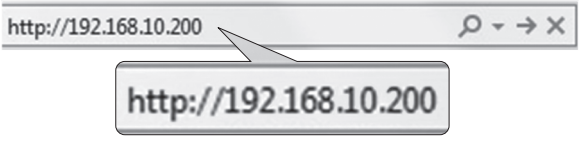

Note: The switch may be different than the one shown in the examples.

3. Hardware Installation and Configuration

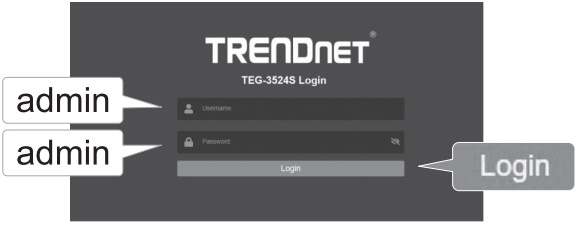

3. Assign a Static IP address to your computer's network adapter in the subnet of 192.168.10.x (e.g. 192.168.10.25) and a subnet mask of 255.255.255.0.

4. Open your web browser, type the IP address of the switch in the address bar, and then press **Enter**. The default IP address is 192.168.10.200.

5. Enter the **User name** and **Password**, and then click **Login**. By default:
   User Name: **admin**
   Password: **admin**

   Note: User Name and Password are case sensitive.

6. Click **System** and then click **IP Settings**.

7. Configure the switch to match the requirements of your network. Then click **Apply**.

Note: To download the latest version of the user's guide and the utility, please go to https://www.trendnet.com/support and select the **Switch Model** from the products drop down list.

UL Warning

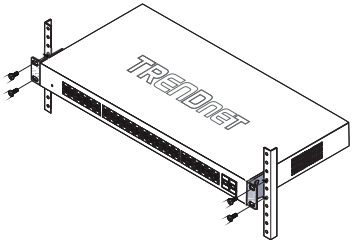

1) Elevated Operating Ambient Temperature - If installed in a closed or multi-unit rack assembly, the operating ambient temperature of the rack environment may be greater than room ambient. Therefore, consideration should be given to installing the equipment in an environment compatible with the manufacturer's maximum rated ambient temperature (Tmra).
2) Reduced Air Flow - Installation of the equipment in a rack should be such that the amount of air flow required for safe operation of the equipment is not compromised.
3) Mechanical Loading - Mounting of the equipment in the rack should be such that a hazardous condition is not achieved due to uneven mechanical loading.
4) Circuit Overloading - Consideration should be given to the connection of the equipment to the supply circuit and the effect that overloading of circuits might have on over current protection and supply wiring. Appropriate consideration of equipment nameplate ratings should be used when addressing this concern.
5) Reliable Earthing - Reliable earthing of rack-mounted equipment should be maintained. Particular attention should be given to supply connections other than direct connections to the branch circuit (e.g., use of power strips).

Rack Installation

The Switch can be mounted in an EIA standard, 19-inch rack, which can be placed in a wiring closet with other equipment. To install, attach the mounting brackets on the switch's front panel (one on each side) and secure them with the screws provided.

Attaching the mounting brackets to the Switch

Installing the Switch in an equipment rack

TRENDnet®

Certifications
This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received.
Including interference that may cause undesired operation.

Waste electrical an electronic products must not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or Retailer for recycling advice.

Fiber product warning note:
If the Optical Transceiver doesn't ship with the unit, the user manual shall have the description as below or equivalent:
"This product is intended to be use with a UL Listed Optical Transceiver product, Rated DC3.3V, Laser Class I."

Laser warning note:
This product is intended to be use with a UL Listed Optical Transceiver product, Rated DC3.3V, Laser Class I.

Applies to PoE Products Only: This product is to be connected only to PoE networks without routing to the outside plant.

Note
The Manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

Advertencia
En todos nuestros equipos se mencionan claramente las caracteristicas del adaptador de alimentacón necesario para su funcionamiento. El uso de un adaptador distinto al mencionado puede producir daños fisicos y/o daños al equipo conectado. El adaptador de alimentación debe operar con voltaje y frecuencia de la energia electrica domiciliaria exitente en el pais o zona de instalación.
