Test Find dog light

- Q2: Can I attach a leash to the receiver collar?
A2: DO NOT attach a leash to the receiver collar. You need to put a separate non-metallic collar on your dog and attach a leash. Make sure the extra collar doesn't interfere with the receiver collar.
- Q4: How many receivers does this remote transmitter control?
A4: This transmitter has 3 channels for you to match receivers.
- Q5: How long is the remote control distance?
A5: The remote control distance can up to 656ft(200m) without any interference. However, during our use, terrain, climate, airport, magnetic fields, obstacles, other wireless devices and etc may affect the effective distance of remote control.

- Q6: The length of this collar.
A6: The length is 31.5 inches(80cm).
- Q7: What is the weight range for dogs?
A7: We recommend to use for dogs who are 15-100lbs in weight and above 6 months in age.
- Q8: What if my dog has red spot, rash or sores around the neck?
A8: Please stop using the dog trainer immediately and observe for a few days. Consult a veterinarian if the symptoms persist for 48 hours. If the dog's skin heals, remember to check the dog's skin every day while using trainer.
- Q9: What intensity level does my dog need to use?
A9: Please find the best stimulation level for your dog. We recommend you could try it from the lowest level. It takes some time to train your dog, please be patient with your dog.

- Q10: Can my dog carry the collar on the dog for more than 12 hour per day. If possible, please often check the dog's skin.
- A10: No, please don't leave the collar on the dog for more than 12 hour per day. If possible, please often check the dog's skin.

TRADE NAME: Dog Training Collar
FCC ID: 200454-008
MODEL: 808
MADE IN CHINA
Frequency: 433.92MHz
Transmitter: 3.7V Receiver: 3.7V

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
portable device statements 便携式设备声明 The device has been evaluated to meet general exposure requirement. The device can be used in portable exposure condition without restriction.
