

Instruction manual

PH-80

Product Parameters

Product Name: Mobile Phone Camera Handle

Model :PH-80

Product dimensions :125*82*36mm

Packaging size :37*85*130mm

Net weight: 146g

Material :ABS+ magnet

Bluetooth name :PH-80 photo

Battery capacity :50mAh

Charging interface: Type-C

Voltage: 3.7V

Current: 0.5A

Product Introduction

Zoom lever

Bluetooth charging port

Switch mode button

Power on/off/Switch
Camera button

Photo button

(Short press to focus,
long press to take a photo)

Note: To zoom on an iPhone, you need to turn on the zoom function of the accessibility feature

Warm Reminder

When you click zoom in on the screen of the iPhone, the screen becomes larger. This is because the auxiliary function zooming (full-screen or window zooming) of iOS has been enabled. You can double-click the screen with three fingers simultaneously to immediately exit the zooming state and return to normal display.

Bluetooth Pairing

After turning on the Bluetooth remote control switch, the red indicator light flashes.

2. Turn on the Bluetooth of your mobile phone to enter the search mode. In the device list, select "PH-80 photo" for pairing. After a successful connection, the red indicator light will go out. Just tap and press the camera button to control your phone to take pictures. When entering the recording interface, click the photo button to start the recording. Click the button again to pause the recording.

3. If there is no operation for 5 minutes, it will enter standby mode and the red indicator light will flash. If the Bluetooth is not operated for 30 minutes, it will automatically turn off.

Warm Reminder

When the handle is out of power, the Bluetooth and the fill light do not work. At this time, the handle needs to be charged. During charging, the red light will be on, and when it is fully charged, the light will turn green.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
