Convert 3D pictures/videos

On the "3D Frame" mobile app, select "Magic 3D" and choose the pictures/videos that need to be converted into 3D. The 3D content after conversion will be displayed in the corresponding user album with a 3D logo.

How to use the AI 3D function

Enter the "AI 3D" interface of the "3D Frame" mobile app. There are various AI features such as text-to-image, style change, and hairstyle change in the upper navigation bar. The pictures created by AI can be saved to the mobile phone, and both 2D and 3D versions can be saved to the photo frame by your intention.

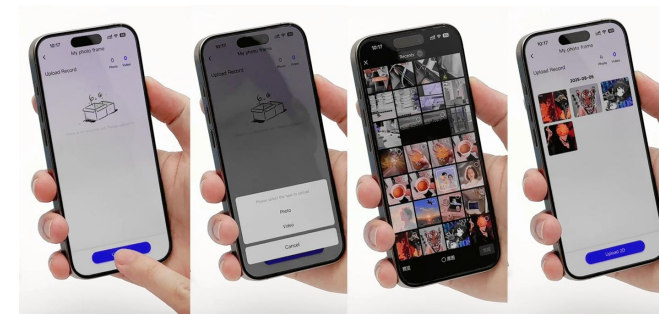

Link your phone to frame

Click "Settings" on the frame. Open the "3D Frame" app on your cellphone, click "Link Photo Frame", and scan the QR code on the frame to link your phone and frame.

Upload photos/videos

On the "3D Frame" mobile app, select the frame and click "Upload". After the upload completed, the pictures/videos will be displayed in the corresponding user album.

Memory Cube

Product Manual of 3D AI Frame

Please read this manual carefully before using the product and keep the manual safe.

Important Safety Information

- Before using this device, please read all safety information to ensure proper and safe operation.
- Using power sources, chargers, or batteries not approved by the manufacturer may cause fire, explosion, or other hazards.
- Use this device within an ambient temperature range of 0°C to 35°C and store the device and its accessories within -20°C to 45°C. Extreme temperatures may cause device malfunction.
- If the device has a non-removable built-in battery, do not replace the battery yourself to avoid damaging the battery or the device. The battery should only be replaced by an authorized service center.
- Charge the device only with the charger specified by the manufacturer. Using chargers with other voltage ratings may cause electric leakage, fire, or damage to the device and charger.
- Do not expose the battery to high temperatures or heat sources such as sunlight, heaters, ovens, or water heaters. Battery overheating may cause an explosion.
- Once charging is done, disconnect the power supply from the device and unplug it from the power outlet. Do not charge continuously for more than 12 hours.
- Do not dispose of old batteries with household waste. Improper battery disposal may lead to fire or explosion.
- Dispose of the device, battery, and other accessories in accordance with local regulations.
- Do not remove, impact, or crush the battery or throw it into fire. If the battery is severely swollen, stop using it immediately.
 - Do not short-circuit the battery terminals, as this may cause overheating, resulting in burns or other personal injuries;
 - Do not disassemble, swell, or crush the battery to avoid leakage, overheating, or explosion;
 - Do not throw the battery into fire, as this may cause fire or explosion;
 - If the battery is severely swollen, stop using it immediately.
- Keep the device dry.
- Do not attempt to repair any product yourself. If the device or any component fails to work, consult after-sales service or send it to an official service center for inspection and repair.
- To prevent data loss, it is advised to back up data to cloud storage or an external storage device in daily use or before device upgrading or servicing.
- When connecting to other devices, refer to the user manual for proper connection methods. Do not connect incompatible devices randomly.

To prevent damage to your hearing, avoid prolonged use at high volume levels.

Welcome to Your 3D AI Photo Frame

Please press and hold the power button for a few seconds to turn on the frame. Connect to wireless network, then follow the on-screen instructions to complete registration and log in.

Note: All illustrations in this manual, including the product, accessories, and user interfaces, are for illustration and reference only. Actual products may slightly vary from the illustrations due to product updates or upgrades.

Safety Precautions

Only professionally trained technicians who have received repair qualifications are authorized to repair the product. Any other personnel should not repair the product without authorization, as it may lead to serious consequences.

Product Introduction

Declaration of Special Substances

Components	Hazardous Substances					
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (CrVI)	Polybrominated biphenyls (PBB)	Polybrominated diphenyl ethers (PBDE)
Metal components	×	○	○	○	○	○
Plastic components	○	○	○	○	○	○
Glass components	×	○	○	○	○	○
Circuit board	×	○	○	○	○	○
Power source (if any)	×	○	○	○	○	○
Accessories	×	○	○	○	○	○

This table is prepared in accordance with the provisions of SJ/T 11364.

○ indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit requirements specified in GB/T 26572.

×

The number within the label indicates an Environmentally Friendly Use Period (EFUP) of 10 years under normal operating conditions. Certain components may also bear the EFUP labels, in which case the numbers shown on their respective labels shall prevail.

Warranty Policy

- Within 7 days of receipt: If the product has non-artificial performance faults as verified by official after-sales service centers, you will be entitled to free return, replacement, or repair service;
- Within 8-15 days of receipt: If the product has non-artificial performance faults as verified by official after-sales service centers, you will be entitled to free replacement or repair service;
- Within 12 months of receipt: If the product has non-artificial performance faults as verified by official after-sales service centers, you will be entitled to free repair service.

Note: To safeguard your after-sales rights and interests, please keep safe the valid proof of purchase.

Before requesting the service, please back up your data in advance to avoid potential impacts on the after-sales service.

Warning

- Please comply with applicable laws and regulations that prohibit the use of this device in specific environments.
- It is strictly prohibited to use the device near gas stations, oil depots, chemical storage areas, or any other locations containing flammable or explosive gases or chemicals.
- Do not use this device in hospital operating rooms, emergency rooms, intensive care units, or similar medical facilities.
- The radio waves emitted by this device may interfere with the operations of implanted medical devices or personal medical equipment (e.g., pacemakers, cochlear implants). If you use such medical devices, consult your physician or the medical device manufacturer regarding any restrictions on using this device.
- To avoid interference with medical equipment, maintain a minimum distance of 15 cm between this device and any implanted medical device (e.g., pacemaker, cochlear implants) during use.
- When taking the plane, follow aviation safety regulations by turning off this device or enabling Airplane Mode.
- Please comply with all safety warnings and regulations regarding the use of this device while driving.
- During thunderstorms, avoid using this device outdoors to prevent lightning strike hazards.
- Do not use the charger in high-humidity environments, such as bathrooms, and avoid plugging/unplugging the charger with wet hands, as it may cause electric shock, personal injury, fire, or damage to the charger.

Glasses-free 3D

Use the "Magic 3D" function in the app to convert images or videos into 3D. The generated content will be saved directly in 3D form, enabling glasses-free 3D viewing.

Note: The glasses-free 3D effect relies on the device's frontal camera to track the viewer's eyes. Therefore, when multiple people use the device simultaneously to view 3D content, the experience will be affected.

Scan the QR code to install the app on your phone. For tutorials, please log in to the app to watch.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

important announcement

Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
