- Tweeter: 1.25 Inch
- Crossover Slope: 12dB
- Sensitivity: 80dB
- Impedance: Tweeter 8Ω, Woofer 4Ω
- Item Weight: 10.8 lbs.
- Product Dimensions (L x W x H): 7.95 x 6.18 x 9.92 Inches

FCC INFORMATION

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This unit generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Please note: PYLEUSA reserves the right to make production changes during the life of its product lines that may affect the information in this manual.

- b. Audio Cable (not supplied)
- c. Digital Optical Cable (not supplied)
- d. High-Speed ARC Cable (not supplied)
- e. Stereo RCA to 3.5mm Audio Cable (supplied)
- f. USB (not supplied)
- g. RCA to RCA Audio Cable (supplied)
- h. Power Adapter (supplied)

Connecting with a TV

Active Speaker

A. Method 1: Optical Cable

Connect using an Optical cable. Select Optical mode and set the TV's audio output to "PCM." (See PCM instructions below.)

B. Method 2: RCA to 3.5mm Audio Cable

Connect using a RCA to 3.5mm audio cable. Select LINE mode.

C. Method 3: ARC Cable

Connect using an ARC cable. Select ARC mode and set the TV's audio output to "PCM." (See PCM instructions below.)

Setting "PCM" on Your TV

If all cables are connected properly and the LED indicator lights correctly, but there is no sound from the TV or speaker, set your TV as follows:

1. Press "Menu" on the TV's remote control.
2. Use the arrow keys on the remote to scroll to "Audio Settings."
3. Press "OK" on the remote control.
4. Scroll to "Advanced Audio" and press "OK." Some televisions may not have an "Advanced Audio" menu and may list various audio settings instead.

5. Scroll to “Audio Output Mode” or “Digital Audio Output Mode” and press “OK.”
6. Scroll until “PCM” is displayed as the current audio output.
7. Press “OK” to save the settings.

Connecting a Bluetooth Device

- a. Press the “BT” button on the remote or press the “” button on the back panel of the active speaker. The LED indicator will blink blue.
- b. Turn on Bluetooth on your device.
- c. Select “PBKSP25NC/PBKSP25BK” and connect. When your Bluetooth device is connected, the LED indicator blinks blue slowly.
- d. Play music files from the connected device through the bookshelf speaker.

Troubleshooting

No Sound

- Check if the power indicator light is on.
- Turn up the volume using either the master volume control or the remote control.
- Ensure the audio cables are firmly connected and the input is set correctly on the speakers.
- Check if there is signal output from the audio source.

Cannot Connect via Bluetooth

- Make sure the speaker is switched to Bluetooth input. In other input modes, Bluetooth cannot be paired or connected. Disconnect from any Bluetooth device by pressing and holding the volume dial in Bluetooth mode, then try again.

- The effective Bluetooth transmission range is 32.8 ft.
Make sure you are operating within range.
- Try another Bluetooth device for connection.

The SR25 Bookshelf Speaker Does Not Turn On

Ensure the power adapter is properly connected and the outlet has power.

Cleaning, Maintenance, and Storage

Cleaning:

Unplug the speakers before cleaning.

Wipe the cabinet and controls with a soft, dry cloth. For stubborn dirt, lightly dampen the cloth with water.

Do not use harsh cleaners, solvents, or abrasive pads.

Maintenance:

Periodically check all cables and connections for wear or damage.

Replace any frayed or damaged cables immediately.

Make sure ventilation openings remain clear of dust.

Storage:

If not using the speakers for an extended period, disconnect all cables and the power adapter. Store the unit in a cool, dry place away from direct sunlight, moisture, and heat sources. Cover with a dust cloth if possible.

Register Product

Thank you for choosing PyleUSA. By registering your product, you ensure that you receive the full benefits of our exclusive warranty and personalized customer support.
