

Wireless Transmitter Audio Adapter

MODEL: GT36

Please read this manual carefully before use

Product Parameters

Model: GT36	Transmission range: AUX
Audio decoding: SBC	Material: <10m
Product input: 5V/1A	Supported Protocols: ABS
Supported Protocols: HSP, HFP, A2DP, AVRCP	

Function Key Description

1

Pairing Operation

1. First, plug the adapter into the headphone jack of the entertainment device you want to connect;
2. Press and hold the power button to turn on the device. At this point, the TX red light will illuminate, and the lights of both earphone 1 and earphone 2 will start flashing;
3. Turn on the wireless device that needs to be paired and adjust it to wireless pairing mode;
4. The product will automatically search for and connect to nearby wireless devices. After successful connection, the headphones will light up in a steady state. Then, double-click the multifunction button to enter automatic search mode, and connect to a second wireless device. After successful connection, the headphones will light up in a steady state for a second time; (The first connection may take a few seconds. After successful connection, it will automatically connect the next time it is turned on.)
5. You can directly plug the AUX plug into a mobile phone, MP3 player, computer, or other audio source device, or use an audio cable to connect the AUX audio input/output jack to a mobile phone, MP3 player, computer, or other audio source device.

Note:
If pairing fails, you can turn off the power and restart the wireless adapter and wireless earphones/speakers, repeat the above steps, and then try several times; If you are using this product on a TV, please confirm which RCA port is the audio output port. The device needs to be connected to an RCA or 3.5mm audio output port, not an audio input port.

1. Power ON/OFF

Long press to power ON/OFF

2. Definition Of Music Status Function

Play/Pause:
Click when playing music

Safety Guidelines

1. Please follow the instructions in this manual and do not disassemble or modify the device for any reason, otherwise it may cause the adapter to malfunction or burn out;
2. Do not immerse the product in any liquid or rinse the product with water;
3. Please use a charging cable that meets national/regional safety standards to charge the adapter, otherwise it may cause damage to the adapter battery or pose a danger;
4. Please use and store this product in a room temperature environment, and do not place the device in an environment with too low or too high a temperature;
5. Do not use the equipment during thunderstorm weather, as thunderstorms can cause abnormal equipment operation, signal interruption, and other phenomena.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.
NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
