

Ai Voice Recorder

V05E

Quick Guide

Safety and Warranty Guide

1. Record Button 2. Mode Button

3.charging port 4.Magnetic Leather case 5.Magnetic Ring

Quick Guide

01

Step 1: Press and hold the recording button to wake up the device. It will default to a ready-to-connect state.

NOTE

- please fully charge the battery before first use.

02

vobot Recorder

Step 2: Search "Vobot Recorder" in the App store or scan the QR code above to download the software.

03

Step 3: Open the Vobot Recorder app and follow the on-screen prompts to complete device binding.

user Guide

start Recording

Press and hold for 1.5 seconds to start recording. The device will vibrate twice.

stop Recording

Press and hold for 1.5 seconds to stop recording. The device will vibrate once.

- Ready to pair (Flashing)
 - Battery ≥ 50%
 - Battery 20%-50%
 - Battery < 20%
- Recording
- charging (Flashing)
 - Fully charged (solid on)
- storage Full (Flashing)
- Firmware update (Flashing)

MODE

call Mode

scenarios: conference calls and voice calls
Bone conduction microphone with precise vocal pickup.

Live Mode

scenarios: face-to-face meetings, classrooms, interviews.
360° omni directional pickup, 5-meter wide-range coverage.

safety&warranty Guide

warranty Information

12-month worry-free warranty

This product comes with a 12-month worry-free warranty. From the date of your purchase, if the device experiences a performance failure under normal use, we will provide free repair service.

warranty service applies to

- A valid equipment serial number and proof of purchase (such as an invoice or sales receipt) are required.
- The equipment has not been disassembled, repaired, maintained, sublet, or modified.
- The equipment has not been used in abnormal environments (such as exceeding the tolerable humidity and temperature range).
- The equipment has not been damaged due to violation of the instructions or improper operation.
- The equipment has not suffered visible deformation or damage due to improper storage, accidental bumps, drops, bending, squeezing, or liquid leakage in humid environments, which are not caused by product quality itself.

please note

- Product accessories and consumables (such as data cables, packaging boxes, etc.) are not covered under warranty.
- Product damage caused by force majeure (such as earthquakes, fires, floods, etc.) is not covered under warranty.

If you encounter any problems while using this device, please contact our customer service team at XXX@XXX

Legal restrictions

Please strictly abide by relevant laws and regulations and do not use this product illegally. The company assumes no responsibility or liability for any consequences arising from the illegal use of this product.

Friendly Reminder: Please obtain the consent of all those being recorded before starting to record. Please respect the privacy of others and comply with local laws and regulations.

privacy protection

All recording data is stored exclusively on the recording device's local storage. Unless you actively sync the recording files to the application, in this case, the files will be stored on your smartphone. Our company does not proactively collect your audio recording data.

Data security

Our company is not liable for any loss or damage to personal data caused by hardware, software, product maintenance, battery replacement, or other reasons not related to product quality (such as accidental deletion, formatting, virus infection, or operational errors). We also assume no responsibility for any other indirect losses arising therefrom. We recommend that you back up your important data regularly.

product setup and Instructions

Due to continuous firmware updates, the actual functions, settings, and usage of this product may differ from the descriptions in this manual. Our company will periodically update the firmware to improve product performance and functionality without prior notice. Please refer to the actual product experience.

safety performance

Keep the device and accessories out of reach of children to prevent suffocation or other injuries. Do not expose the batteries (battery pack or installed batteries) to sources of heat or excessive heat (such as direct sunlight, near heaters, etc.) to avoid explosion or leakage.

Maintenance

Do not use chemicals or corrosive reagent to clean this product, as it may damage the surface or cause corrosion. Wipe with a soft, dry cloth only.

Battery use and Maintenance

If the product is not used for a long time, it is recommended to perform a charge-discharge cycle on the battery every three months to prevent over-discharge and damage, thereby extend battery life.

storage capacity description

The built-in system software takes up a portion of the storage space, therefore the actual usable capacity will be less than the total capacity shown in the product specifications.

statement: The company reserves the right to modify the above terms without prior notice. Please refer to the official website or the instruction manual accompanying the product for the latest terms.

Notice:

1. This product contains a strong magnet; keep it away from magnetic cards, implantable medical devices (such as pacemakers), hard drives, RAM chips, and other devices susceptible to interference.
2. This product is not waterproof; Keep product away from liquids. Water ingress may cause corrosion, potentially leading to battery spontaneous combustion or even explosion.
3. Use this product in environments between -10°C and 45°C. Excessive temperatures may cause the battery to catch fire or explode. Low temperatures reduce battery performance.
4. Do not place the product near heat sources, such as inside a car in direct sunlight.
5. Do not store the battery in a fully discharged state for a long period to prevent it from becoming unusable due to over-discharge.
6. Contains small parts; keep out of reach of children.

compliance statement

XXXXX hereby declares that this product complies with the basic requirements and relevant regulations of the "Radio Equipment Regulations 2017". The compliance statement can be viewed on our company's official website.

According to tests conducted by a qualified testing institution, this product meets the following national mandatory standards:

- GB 4943.1-2022 Safety Requirements for Audio-Visual, Information Technology and Communication Technology Equipment
- GB/T 9254.1-2021 Electromagnetic compatibility of information technology, multimedia and radio equipment – Part 1: Emission

Battery certification: The built-in lithium battery pack has obtained China Compulsory Product Certification (CCC certification) and complies with safety technical specifications such as GB 31241-2022.

SRRC Type Approval: This product has passed the type approval of the national radio management agency and obtained the SRRC certificate, and complies with relevant radio management regulations.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.

Equipment name: Alvoice Recorder Type designation(Type): V05E										
Restricted substances and its chemical symbols										
unit	Harmful substances									
	Pb	Hg	Cd	Cr(VI)	PBBs	PBDEs	DBP	DIBP	BBP	DEHP
Shell	○	○	○	○	○	○	○	○	○	○
Circuit Board and Its Components	X	○	○	○	○	○	○	○	○	○
<div>Note 1: ○: Indicates that the content of this hazardous substance in all homogeneous materials of the component complies with the national standard requirements for restriction of hazardous substances in electrical and electronic products.</div> <div>×: Indicates that the content of this hazardous substance in at least one homogeneous material of the component exceeds the national standard requirements for restriction of hazardous substances in electrical and electronic products.</div> <div>Note 2: For components not listed above, their hazardous substance contents all comply with the national standard requirements for restriction of hazardous substances in electrical and electronic products.</div>										

This table is compiled in accordance with SJ/T 11364.

○ Indicates that the content of this hazardous substance in all homogeneous materials of the component is below the limit specified in GB/T 26572.

X Indicates that the content of this hazardous substance in at least one homogeneous material of the component exceeds the limit specified in GB/T 26572.
