Scan the code to download the
AIYABOT APP

Please read this manual in full before first use and keep it for future reference.

Preface

Thank you for choosing the AIYA Smart Companion Robot. To ensure proper and safe use, please read this manual in full before first use and keep it for future reference. For more features, interaction tips, and growth tasks, please refer to the AIYA Growth Guide included in the package.

Important Information

Product: AIYA is an AI companion robot. Its responses are AI-generated and cannot replace real relationships.
Breaks: Take a break after two hours of continuous interaction.
Children: Intended for adults and supervised minors. Users under 14 require guardian consent and supervision.
Data: Use the App to pause, unbind, or delete private data from all systems.

1. Package Contents

1.1 Standard Edition

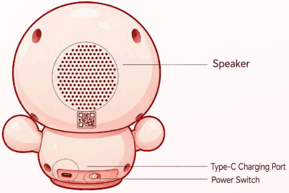
AIYA Robot, Plush Cover, Charging Base, Power Cable, Butterfly Privacy Clip Accessory, User Manual, AIYA Growth Guide

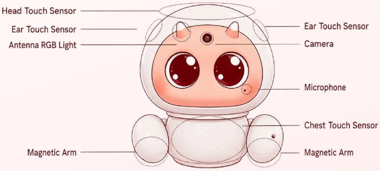
1.2 Gift Box Edition

AIYA Robot, 2 Plush Covers, Charging Base, Power Cable, Butterfly Privacy Clip Accessory, User Manual, AIYA Growth Guide, Plush Toy

2. Product Specifications

Product Name	AIYA Smart Companion Robot
Product Model	RH-CE-R1
Materials	ABS+PC housing、lightweight metal structural components, and electronic functional components
Battery	5000mAh，5V⎓2A
Wireless Connection	2.4GHz WiFi
Height	Approximately 158mm in height, including the base
Product Weight	Approximately 750g
Degrees of Freedom	5
Displays	Two 1.09-inch LCD screens
Camera	1
Sensors	1 IMU and 4 touch sensors
Microphones	1 MIC
Lighting	2 RGB lights





3. Basic Interaction Commands

3.1 Waking and Talking to AIYA

1. Say “Hello, AIYA!” to wake AIYA. “AIYA” is pronounced like the Chinese pinyin “āiyā,” using the first tone.
2. While AIYA is listening to you, its antenna light remains solid green.
3. While AIYA is speaking, its antenna light remains solid red.

3.2 Pausing a Conversation

1. Manual pause: Press and hold AIYA’s head for five seconds. When AIYA says “Bye-bye,” the conversation will stop.
2. Voice pause: Say “Stop talking,” “Be quiet,” or “Bye-bye.” When AIYA says “Bye-bye,” the conversation will stop.
3. Wake AIYA again: Say “Hello, AIYA!” to wake AIYA and resume interaction.

3.3 Adjusting the Volume by Voice

After waking AIYA, you can adjust the playback volume using voice commands:

1. “Turn up the volume.” 2. “Turn down the volume.” 3. “Set the volume to 80.” 4. “Set the volume to 50.”
2. AIYA will automatically adjust the playback volume according to your voice command.

3.4 Sleep Mode

1. Say “Sleep mode” to AIYA to enter low-power standby mode. Lighting effects, eye displays, sound, and other status-based interactions will be disabled.
2. Say “Hello, AIYA!” to wake AIYA and resume normal interaction.
3. Sleep mode can also be enabled or disabled through the App.

4. Preparation Before First Use

Before using AIYA for the first time, complete the following preparations:

- Check the package contents and confirm that AIYA and all accessories are included.
- Inspect the product and confirm that it is not damaged.
- Make sure the battery has sufficient power. Charge the device first if necessary.
- It is recommended that an adult complete the initial setup before a child uses the product for the first time.
- Make sure the Butterfly Privacy Clip accessory has been removed or moved aside so that the camera can operate properly.

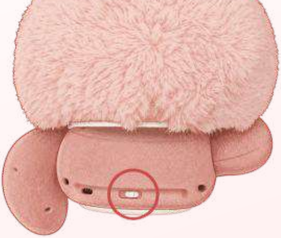
Note: Complete the above preparations before powering on the device, connecting it to a network, and pairing it with an account.

5. Powering On and Off

5.1 Powering On

Move the power switch on the back of the device to the ON position. After the device powers on, the eye displays and antenna light will illuminate. Startup takes

approximately 20 seconds.



5.2 Powering Off

Move the power switch on the back of the device to the OFF position. The device is powered off when the eye displays turn off.

5.3 Usage Notes

- Turn off the device when it will not be used for an extended period.
- Do not move the power switch rapidly or repeatedly, as this may interfere with normal startup.

6. Charging Instructions

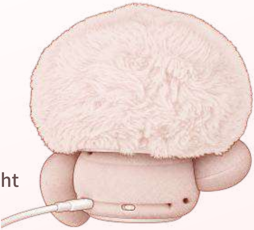
AIYA supports two charging methods: charging through the base and charging the device directly.

6.1 Charging Through the Base

- Place the charging base on a stable, dry surface.
- Position AIYA correctly on the charging base and make sure the charging contacts are properly connected.
- During charging, the logo on the base illuminates and a voice notification is played.

6. Charging Instructions

AIYA supports two charging methods: charging through the base and charging the device directly.



6.2 Charging the Device Directly

Connect a power cable that meets the rated input requirements to the charging port on the device.

- During charging, the antenna light flashes green.
- When the battery is fully charged, the antenna light remains solid green.

6. Charging Instructions

6.3 Charging Precautions

- Use a power adapter rated for 5 V ⎓ 2 A.
- Do not use a damaged power cable or charging equipment that does not meet the rated input requirements.
- Do not use a fast-charging cable or any unofficial charging cable. Use the charging cable supplied with AIYA.
- Do not charge the product in humid, high-temperature, flammable, or explosive environments.
- If abnormal heat, odors, noises, or charging failure occurs, stop using the product immediately and contact after-sales service.
- If the product will not be used for an extended period, fully charge it before

powering it off and storing it. Recharge the battery approximately once every three months.

7. Initial Network Setup and Device Pairing

7.1 Preparation Before Network Setup

Before configuring AIYA’ s network connection, confirm the following:

- The AIYABOT App or WeChat Mini Program has been downloaded to your phone, and you have registered and logged in to your account.
- AIYA is powered on and has entered network setup mode. The device will play a network setup voice notification, and the blue light on top will continue flashing.
- Silent mode is disabled on your phone, any wired or Bluetooth earphones are disconnected, and the media volume is turned up.
- The surrounding environment is quiet to prevent noise from interfering with network setup.

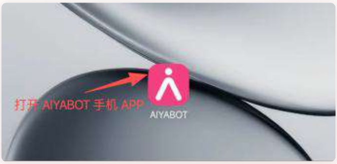
Important Notes

- AIYA supports only 2.4 GHz Wi-Fi. It is compatible with combined 2.4 GHz/5 GHz dual-band Wi-Fi networks.
- A mobile hotspot can be used for network setup. On an Android phone, enable the hotspot’ s 2.4 GHz band. On an iPhone, make sure Maximize Compatibility is enabled.
- Do not use spaces, special symbols, or emojis in the Wi-Fi or mobile hotspot name. Avoid special characters in the password whenever possible, as they may cause network setup to fail.

7. Initial Network Setup and Device Pairing

7.2 Wi-Fi Setup Procedure

1. Open the AIYABOT App or the AIYABOT WeChat Mini Program on your phone.

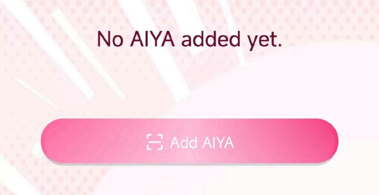


(AIYABOT APP)

7. Initial Network Setup and Device Pairing

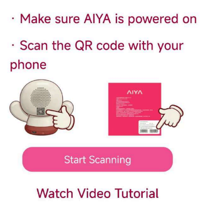
7.2 Wi-Fi Setup Procedure

2. Tap “ADD AN AIYA” , followed by Start Scanning.



No AIYA added yet.

Click “ADD AN AIYA”



· Make sure AIYA is powered on

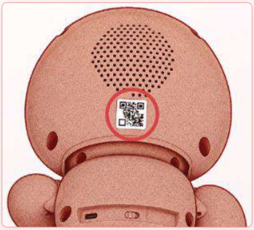
· Scan the QR code with your phone

Click “START TO SCAN”

7. Initial Network Setup and Device Pairing

7.2 Wi-Fi Setup Procedure

3. Scan the QR code on the back of AIYA’s head. Make sure the area is well lit and the QR code is clearly visible.



Scan this QR code

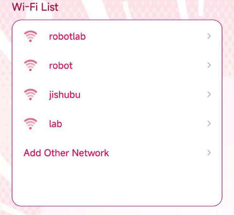
7. Initial Network Setup and Device Pairing

7.2 Wi-Fi Setup Procedure

4. After the QR code is scanned successfully, the network configuration page will open. Enter the appropriate network information.

15:39
Network Settings

Using the AIYABOT App:

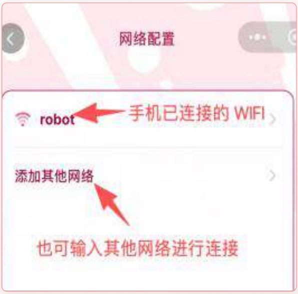


The page automatically displays a list of nearby Wi-Fi networks. Select the desired network directly. If the target network does not appear, tap Add Other Network and enter the network information manually.

7. Initial Network Setup and Device Pairing

7.2 Wi-Fi Setup Procedure

4. After the QR code is scanned successfully, the network configuration page will open. Enter the appropriate network information.



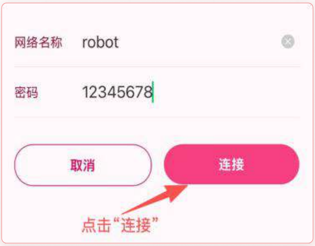
Using the AIYABOT WeChat Mini Program:

The Wi-Fi network currently connected to your phone is entered automatically. If it is a 5 GHz network, tap Add Other Network and enter a 2.4 GHz network manually.

7. Initial Network Setup and Device Pairing

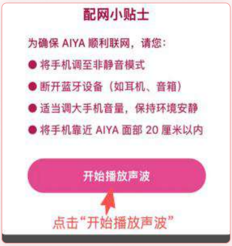
7.2 Wi-Fi Setup Procedure

5. Enter the Wi-Fi password and verify that it is correct. Tap Connect, followed by Play Setup Sound Wave. While the sound wave is playing, keep the phone within 20 cm of AIYA.



网络名称 robot

密码 12345678



配网小贴士

为确保 AIYA 顺利联网，请您：

- 将手机调至非静音模式
- 断开蓝牙设备（如耳机、音箱）
- 适当调大手机音量，保持环境安静
- 将手机靠近 AIYA 面部 20 厘米以内

7. Initial Network Setup and Device Pairing

7.2 Wi-Fi Setup Procedure

6. Wait until AIYA announces that network setup is complete and the App or Mini Program displays a configuration success message. Do not close the page after network setup. Continue to the digital-life creation process.

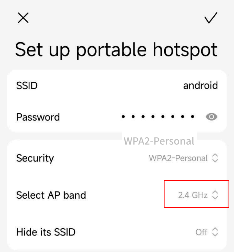
Network Configured

Entering creation in 1s

7. Initial Network Setup and Device Pairing

7.3 Network Setup Using a Mobile Hotpot



Set up portable hotspot

SSID: android

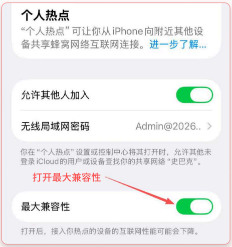
Password: • • • • • • • • •

Security: WPA2-Personal

Select AP band: 2.4 GHz

Hide its SSID: Off

For Android phones, the 2.4GHz
frequency hotspot should be turned on



个人热点

“个人热点”可让你从 iPhone 向附近其他设备共享蜂窝网络互联网连接。进一步了解...

允许其他人加入: On

无线局域网密码: Admin@2026..

你在“个人热点”设置或控制中心将其打开时，允许其他未登录 iCloud 的用户或设备查找你的共享网络“史巴克”。

最大兼容性: On

打开后，接入你热点的设备的互联网性能可能会下降。

The maximum compatibility of an iPhone
needs to be enabled

Note: After enabling the mobile hotspot, follow the remaining instructions in 7.2.

7. Initial Network Setup and Device Pairing

7.4 Troubleshooting Network Setup Failures

If network setup fails, follow the applicable instructions:

1. **AIYA announces “Incorrect Wi-Fi name”:** Check that the Wi-Fi name has been entered correctly and confirm that the network uses the 2.4 GHz band. The Wi-Fi name must not contain spaces or special symbols.
2. **AIYA announces “Incorrect Wi-Fi password”:** Check the Wi-Fi password, including uppercase and lowercase letters, and make sure no extra spaces or symbols have been entered.
3. **The device does not respond when the phone plays the setup sound wave:** AIYA has not successfully entered network setup mode. Restart the device. After the blue antenna light begins flashing and the device announces that it has entered network setup mode, restart the setup process.
4. **The phone displays “Network setup timed out”:** Low media volume, a noisy environment, or connected wired or Bluetooth earphones may interfere with acoustic transmission. Increase the phone’s media volume, keep the environment quiet, disconnect all earphones, and try again.

7. Initial Network Setup and Device Pairing

7.5 Configuring a New Network While Offline

If AIYA goes offline because the connected router loses power, malfunctions, or its Wi-Fi password is changed, configure a new network as follows:

1. Turn off AIYA and then turn it back on.
2. After restarting, AIYA will first search for previously saved and available networks. If one is found, AIYA will reconnect automatically.
3. If no previously saved and available network is found, AIYA will automatically enter network setup mode.
4. Open the App or Mini Program. On the Home page, tap Settings, followed by Network Settings. Select or enter the target Wi-Fi name, enter the password, tap Connect, and play the network setup sound wave to complete configuration.

7. Initial Network Setup and Device Pairing

7.6 Switching Networks While Online

To switch from the current Network A to another Network B, such as when the current signal is weak:

1. Make sure AIYA is online and connected normally.
2. On the App or Mini Program Home page, tap Settings, followed by Network Settings. Select or enter the target network name, enter the Wi-Fi password, and

tap Connect to switch networks while AIYA remains online.

8. Creating a Digital Life

8.1 Characteristics of Each Growth Stage

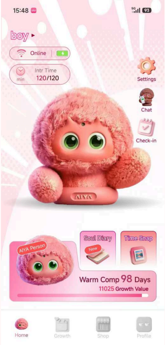
1. Sprouting Stage: AIYA does not yet possess verbal expression abilities.
2. Language-Learning Stage: AIYA can only conduct simple, basic conversations.
3. Resonance and Confidant Stages: AIYA possesses complete and fluent communication abilities.

8.2 Selecting a Growth Stage

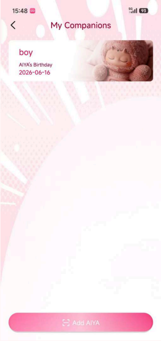
1. **Start from the beginning:** AIYA will progress through the Sprouting, Language-Learning, Resonance, and Confidant stages in order. This option is suitable for users who enjoy growth-based experiences and want to accompany AIYA throughout its entire development.
2. **Select and lock a stage:** You may directly select either the Resonance or Confidant stage. AIYA’ s language abilities will remain fixed at the selected stage. This option is suitable for users who want full conversational capabilities immediately.

8. Creating a Digital Life

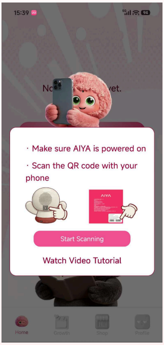
8.3 How to Bind second AIYA



Add triangle



Click “ADD AN AIYA”



· Make sure AIYA is powered on

· Scan the QR code with your phone

Repeat network setup

9. Firmware and Software Updates

AIYA supports online updates for its firmware, the AIYABOT App, and the WeChat Mini Program to keep device functionality, stability, and security up to date.

9.1 Firmware Updates

1. When the system detects an available firmware version for AIYA, an update notification will appear in the WeChat Mini Program or App.
2. Make sure AIYA has sufficient battery power, preferably more than 50%, and keep it connected to a charger.
3. Tap Update and wait while the device downloads and installs the firmware automatically.
4. During the update, do not turn off the device, disconnect the network, or interrupt the power supply. Keep the Mini Program or App running as instructed on the screen. AIYA will restart automatically when the update is complete.
5. If the update fails, restart AIYA and try again or contact official after-sales service.

9. Firmware and Software Updates

9.2 AIYABOT App Updates

1. When the App detects a new version, an update notification will appear in the app store or within the App.
2. Follow the instructions to download and install the new version to access the latest functions and improvements.
3. After the update is complete, open the App and connect to AIYA normally.

9.3 AIYABOT WeChat Mini Program Updates

1. WeChat Mini Program updates are completed automatically and require no manual action.
2. When you open it, the system automatically loads the latest available functions.
3. If the WeChat Mini Program has not been updated, clear its cache or scan the QR code again to open the latest version.

Update Notes

1. Before updating, make sure the Wi-Fi connection is stable and your phone has sufficient battery power.
2. Do not turn off the device or exit the WeChat Mini Program or App during an update.
3. If an update fails or an abnormal condition occurs, contact official after-sales service.

10. Replacing and Cleaning the Plush Cover

10.1 Replacing the Plush Cover

1. Gently remove the existing plush cover. Do not pull forcefully on the antennas, arms, eye displays, camera, microphone openings, or other components.
2. Align the new plush cover with the outline of the device, slowly fit it over the device, and smooth it into place.
3. After installation, make sure the eye displays, camera, microphone openings, speaker openings, and charging contacts are correctly positioned and unobstructed.
4. The plush cover should fit smoothly against the device. Avoid thick folds or misalignment that could interfere with touch sensing.
5. If you use the Butterfly Privacy Clip accessory, make sure it covers the intended area correctly after the plush cover has been installed.

10. Replacing and Cleaning the Plush Cover

10.2 Cleaning Instructions

1. Remove the plush cover and clean it separately according to its washing instructions. It may be hand-washed or machine-washed in a laundry bag.
2. The plush cover must be completely separated from the robot before washing.
3. The main robot unit must not be washed or immersed in water. Gently wipe surface stains with a dry, soft cloth.
4. Allow the plush cover to dry completely before reinstalling it.
5. Do not use high-temperature drying, bleach, highly corrosive cleaning products, or sharp tools to clean the product.
6. Gently clean the charging contacts and ports with a dry cotton swab. Turn off and disconnect the device from power before cleaning to prevent a short circuit.

11. Routine Maintenance and Care

1. Place AIYA in a stable, dry, ventilated, and cool location. Avoid prolonged exposure to direct sunlight and keep it away from humid environments and heat sources such as radiators and stoves.
2. Keep the product away from heat sources, humid environments, and flammable or explosive materials.
3. Avoid dropping, striking, crushing, or subjecting the product to strong vibrations.
4. Do not pull the antennas, arms, edges of the plush cover, or other exposed components.
5. Keep the camera, microphone openings, speaker openings, and charging contacts clean.
6. If the plush cover shifts, becomes heavily wrinkled, or interferes with interactive feedback, turn off the device and readjust the cover.
7. If the product will not be used for an extended period, fully charge it before turning it off and storing it. Recharge it approximately once every three months.
8. Keep small accessories, including the Butterfly Privacy Clip and plush charms, in a safe place to prevent loss or accidental swallowing by children.
9. If abnormal heat, odors, noises, smoke, or charging failure occurs, turn off the device immediately, stop using it, and contact official after-sales service.

10. Do not disassemble, modify, or repair the main device yourself.

12. Safety Precautions

Read the following safety precautions carefully before use. Children must use this product with adult supervision or guidance.

- Do not immerse the device in water or place it in a humid environment.
- Do not scratch or puncture the plush cover or main device with sharp objects.
- Do not allow children to place the device or any components in their mouths. This product contains small parts and must not be used by children under three years of age.
- Do not disassemble the main device yourself.
- Do not leave the device in high temperatures, low temperatures, or direct sunlight for extended periods.
- Do not use chargers, power cables, or charging accessories that do not meet the rated input specifications.
- Do not use or charge the device in flammable or explosive environments.
- If the device becomes abnormally hot, produces smoke, odors, or unusual noises, or its housing is damaged, stop using it immediately.
- People with photosensitive epilepsy, severe hearing impairments, or implanted cardiac pacemakers should use this product with caution.
- Users who are sensitive to plush fabric, polyester, spandex, plastic, or metal should initially limit contact to a short period. Continue normal use only after confirming that no discomfort occurs.
- This product is an intelligent companion tool. It does not replace professional psychological counseling, medical diagnosis, or treatment.
- Manage daily usage time responsibly and prevent children from becoming excessively absorbed in prolonged interaction.

13. Privacy and Data Information

AIYA is equipped with a camera and microphones and supports facial recognition, voiceprint recognition, voice cloning, and related functions. Please understand the following before using the product:

- The camera and microphones are used for voice interaction, identity recognition, companion interactions, and related functionality.

- Facial and voiceprint data are primarily used for identity recognition and personalized companion experiences.
- When a child uses this product, a guardian should complete account registration, device pairing, permission authorization, and privacy settings.
- Do not collect, upload, or use another person’ s facial data, voice, voiceprint, or other personal information without authorization.
- The Butterfly Privacy Clip can physically cover the camera to provide additional privacy protection. It does not replace permission management or privacy settings in the WeChat Mini Program or App.
- The voice-cloning function must be used with the knowledge and authorization of the person whose voice is being cloned. Do not impersonate another person or use the function for unlawful, infringing, or fraudulent purposes.
- Users may review relevant settings and the Privacy Policy through the AIYABOT WeChat Mini Program or App. For specific data-processing rules, permission-management methods, and user rights, refer to the official Privacy Policy.

14. Q & A

1. The device will not power on: Charge the device and make sure the power switch is set to ON. If the device still does not power on, contact after-sales service.
2. The device does not respond after powering on: Turn it off, wait several seconds, and turn it on again. If it remains unresponsive after several attempts, contact after-sales service for inspection.
3. The device will not charge: Check the power cable, charging base, USB Type-C charging port, and charging contacts. Use a power adapter rated for 5 V ⎓ 2 A.
4. No notification occurs during charging: Reposition the robot on the charging base or check that the direct charging connection is secure.
5. Voice recognition is inaccurate: Move closer to the robot and speak clearly in a quiet environment.
6. Camera-related functions do not work properly: Remove or move aside the Butterfly Privacy Clip before using camera-related functions.
7. Touch input produces no response: Turn off the device and readjust the plush cover. Restart the device if necessary.
8. The device becomes abnormally hot: Turn off the device immediately, stop using it, and contact after-sales service.
9. The Butterfly Privacy Clip is lost or damaged: Contact official after-sales service to ask about purchasing a replacement.
10. The device functions abnormally after being dropped: Stop using it and contact after-sales service for inspection.
11. The serial number cannot be found: Check the device label or the designated product-identification area.

If you still can’ t solve it, please contact us.

15. Environmental Information

Information regarding restricted hazardous substances and environmental labeling for this product is provided with reference to GB/T 26572-2011 and other applicable requirements. Refer to the product’s hazardous-substance name and content table, product label, or relevant testing documents for specific information.

17. Warranty and After-Sales Service

This product is covered by nationwide warranty service in China. During the warranty period, if the product develops a quality issue not caused by the user, including component or performance failures, we will provide free repair or replacement services in accordance with the warranty policy. Paid repair services are available for failures caused by the user.

17.1 Warranty Period

The warranty period is 12 months from the date of purchase, based on the date shown on the purchase invoice or other valid proof of purchase.

If the user cannot provide valid proof of purchase, the warranty start date will be the third business day after the manufacturing date corresponding to the product serial number. The warranty period will remain 12 months.

17.2 How to Request Warranty Service

1. Open the AIYABOT WeChat Mini Program or App.
2. Go to Me – Help Center – Live Customer Service.
3. Enter the product information and a description of the issue.
4. Upload proof of purchase, the product serial number, and photographs showing the issue.
5. After submission, a representative will contact you within one to two business days.

When requesting warranty service, provide valid proof of purchase and the product serial number so that the representative can verify the information and provide assistance.

17. Warranty and After-Sales Service

17.3 Warranty Exclusions

The warranty does not cover:

- Products for which valid proof of purchase or a product serial number cannot be provided.
- Failures or damage caused by unauthorized disassembly, modification, or repair of the main device.
- Battery or component damage caused by using chargers, power cables, or other accessories that do not meet the rated input specifications.
- Normal wear, stains, deformation, damage, or other deterioration of consumable or appearance-related accessories, including the plush cover, Butterfly Privacy Clip, and plush charms.
- Damage caused by drops, impacts, crushing, water ingress, fire, corrosion, or other user-related causes.
- Products outside the warranty period.
- Damage caused by force majeure, including natural disasters, accidents, or unstable voltage.
- Products with an altered, scratched, or illegible serial number.
- Failures caused by use, maintenance, cleaning, or storage that does not comply with this manual.

17.4 Limitation of Liability

We are not responsible for indirect losses caused by improper use, network failures, or third-party services, including data loss or inconvenience.

Warranty service covers only quality issues with the product itself. It does not include data recovery, accessory replacement unrelated to a quality issue, or other additional services.

Applicable Scenarios and Safety Information

1. Applicable Scenarios
AIYA is intended for everyday family companionship, voice interaction, and entertainment. It is not intended for medical diagnosis, psychological treatment, or emergency assistance, and cannot replace human care or supervision.

2. Functional Limitations
Due to limitations of artificial intelligence technology and varying usage environments, the product may experience recognition errors, misunderstandings, memory omissions, inaccurate responses, or response delays. Such limitations may continue to exist. AI-generated content is for reference only; please verify important information. Human-like expressions do not mean that the product has human emotions or consciousness.

3. Risk Warnings
Use the product in moderation and avoid excessive dependence or prolonged immersive interaction. If emotional distress occurs, stop using the product and seek appropriate help. Minors should use the product under the guidance and supervision of a guardian.
Charge the product as instructed. Keep it away from water and high temperatures, and do not disassemble it without authorization. Take precautions against electric shock, burns, fire, and other hazards. Do not insert fingers into gaps around moving parts. If abnormal heating, unusual odors, or damage is detected, stop using and charging the product immediately and contact after-sales support.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure statement. The device can be used in portable exposure condition without restriction

AIYABOT

If you have any questions or require assistance during use, contact us through the official WeChat Mini Program, App, or after-sales service channels.

Thank you for choosing AIYA. We hope you enjoy using it.
