7. Charging

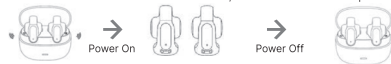

- 1) Place the earbuds inside the charging case to charge the earbuds.
- 2) Please use the included USB-C charging cable and qualified 5V1A (5V2A, 10W MAX) charger to charge the case.

*Note: Non-branded chargers may affect the battery life or damage the charging case. The charging will be unsuccessful for chargers that exceeds 10W(5V-2A).

8. Power On/Off

- 1) Take out the earbuds from the charging case and the earbuds will power on automatically. Put the earbuds back to the case, and they will power off.
- 2) Touch on the touchpad of any earbud and hold for 5s, both earbuds will power off; Touch on the touchpad of the earbud and hold for 5s, the the earbud will power on. Touch on the other earbud and hold for 5s, and the other earbud will power on.

9. Bluetooth Connection

- 1) Take the earbuds out from the case. The indicators of both earbuds blinks in orange and white, one earbud goes off after 3s, and another earbud (the main channel) will continue blinks in orange and white.
- 2) Go to "Bluetooth" settings on your device, turn on Bluetooth function and search for 'A24' and connect.

10. Connection with Two Devices

- 1) Connect the earbuds with first device; then turn off the Bluetooth function on the first device(A). The earbuds will blink in orange and white and available for pairing.
- 2) Connect the earbuds with the second device;
- 3) Turn on the Bluetooth function of your first device and tap on "A24" under the connection records and reconnect the earbuds. Now the earbuds will be connected with two devices simultaneously.

11. Force Pairing

The earbuds automatically connect to latest connected device by default. To ignore the current connection, please follow below step and force the earbuds into pairing mode:

Step1: Take out both earbuds, press on the touchpads of both earbuds for 5s to power off (orange light flashes 3 times then turns off) then release.

Step2: Press on the touchpads again for 6s until both earbuds will flash in orange and white, then one light turns off.

Step3: Search for "A24" and connect the earbuds to your target device.

12. Factory Reset

If the left and right earbuds fail to pair with each other or unable to connect with the current device, please reset to factory settings and reconnect:

Step1: Take out one earbud, when the indicator blinks in orange and white lights, quickly tap on its touchpad 4 times, you will see the orange and white lights turn on then go off.

Step2: Take out the second earbud and repeat step 1.

Step3: Put both earbuds back to the charging case. And the earbuds are restored to factory settings.

Step4: Take out the earbuds, the indicators on both earbuds blink in orange and white then one goes off. Search for "A24" in your device's Bluetooth list and connect.

*Note: After factory reset, previous "A24" connection records will no longer support auto/manual re-connection. You may manually delete/ignore the previous connection records.

13. Warranty
