Component Assembly Instructions

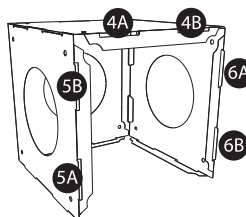

Note:
Please remove all pre-punched cardboard pieces from the holes before assembly.

Block

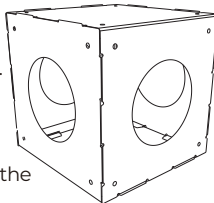

- 1**
1. Find the **Step 1** marker.
 2. Fold the cardboard along the score lines.
 3. Insert tabs **1A** and **1B** into the matching numbered slots.

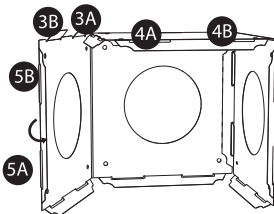

- 3**
1. Find the **Step 3** marker.
 2. Fold the cardboard along the score lines.
 3. Insert tabs **3A** and **3B** into the matching numbered slots.

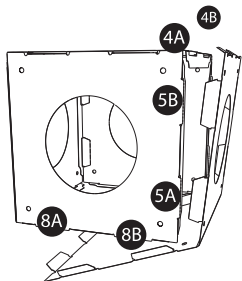

- 5**
1. Find the **Step 7** marker.
 2. Fold the cardboard along the score lines.
 3. Align tabs **7A** and **7B** with their matching slots. (Do not lock in place yet).
 4. Find the **Step 8** marker.
 5. Fold the cardboard along the score lines.
 6. Align tabs **8A** and **8B** with their matching slots.
 7. Find the **Step 9** marker.
 8. Fold the cardboard along the score lines.
 9. Align tabs **9A** and **9B** with their matching slots.
 10. Press in all side tabs (**7A, 7B, 8A, 8B, 9A, 9B**) at the same time. Assembly is now complete!

- 2**
1. Find the **Step 2** marker.
 2. Fold the cardboard along the score lines.
 3. Insert tabs **2A** and **2B** into the matching numbered slots.

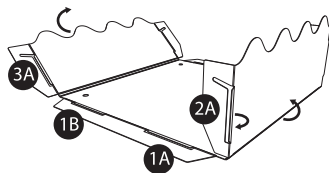

- 4**
1. Find the **Step 4** marker.
 2. Fold the cardboard along the score lines.
 3. Insert tabs **4A** and **4B** into the matching numbered slots.
 4. Find the **Step 5** marker.
 5. Fold the cardboard along the score lines.
 6. Align tabs **5A** and **5B** with their matching slots. (Do not lock in place yet).
 7. Find the **Step 6** marker.
 8. Fold the cardboard along the score lines.
 9. Align tabs **6A** and **6B** with their matching slots.
 10. Press in all tabs (**5A, 5B, 6A, 6B**) at the same time until secure.

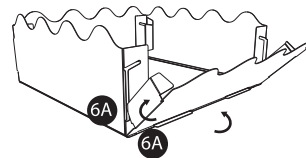

Roof and Bridge

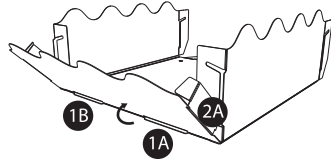

- 1**
1. Fold up all four sides of the cardboard panel along the pre-creased score lines.

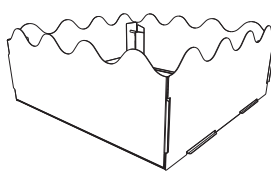

- 3**
1. Locate the panel with tabs marked **4A** and **4B**.
 2. Fold the panel along the score lines.
 3. Insert tabs **4A** and **4B** into their corresponding numbered slots.
 4. Find the **Step 5** marker.
 5. Fold the cardboard along the score lines.
 6. Insert tab **5A** and **5B** into their corresponding numbered slot.
 7. On the opposite side, find the **Step 6** marker.
 8. Fold the cardboard along the score lines.
 9. Insert tab **6A** and **6B** into their corresponding numbered slot.

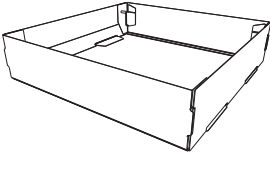

- 2**
1. Locate the panel with tabs marked **1A** and **1B**.
 2. Fold the panel along the score lines.
 3. Insert tabs **1A** and **1B** into their corresponding numbered slots.
 4. Find the **Step 2** marker.
 5. Fold the cardboard along the score lines.
 6. Insert tab **2A** and **2B** into their corresponding numbered slot.
 7. On the opposite side, find the **Step 3** marker.
 8. Fold the cardboard along the score lines.
 9. Insert tab **3A** and **3B** into their corresponding numbered slot.

- 4**
1. Firmly press all tabs into their corresponding slots to complete the assembly!

Roof

Bridge

Cat Scratching Pad Box

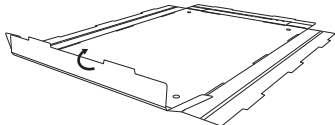

- 1

1. Locate the marking for **Step 1**.

11. Fold the cardboard along the edge score lines.

12. Insert tabs **7A** and **7B** into their corresponding numbered slots.

13. Firmly press all tabs into their slots to complete the assembly!

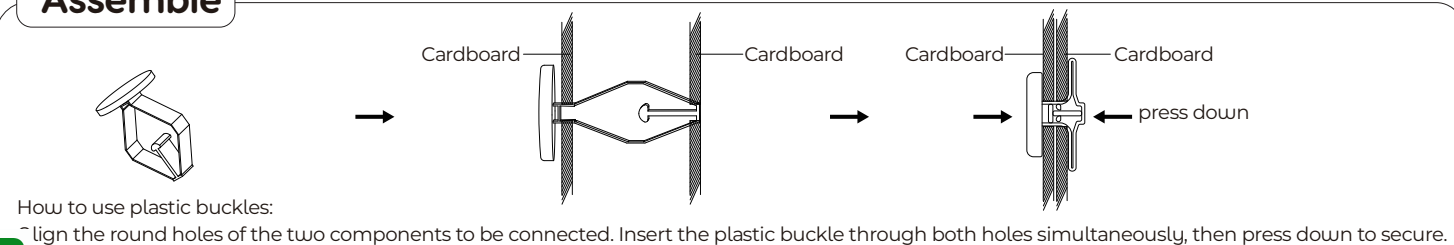

How to Assemble the Cat Tree

- 

Note:

All components (except the scratching posts) are connected using plastic buckles.

Assemble

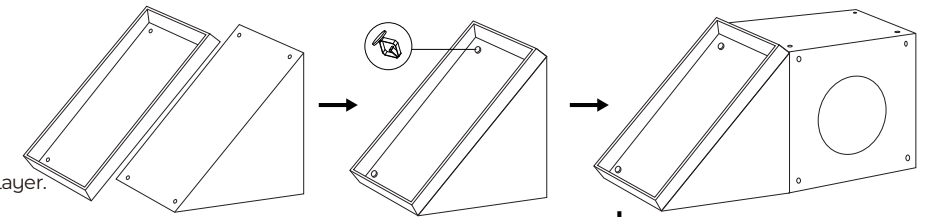

First Level:

1. First, connect the ramp and the scratching pad box using plastic buckles.

2. Then, connect the ramp to one cube.

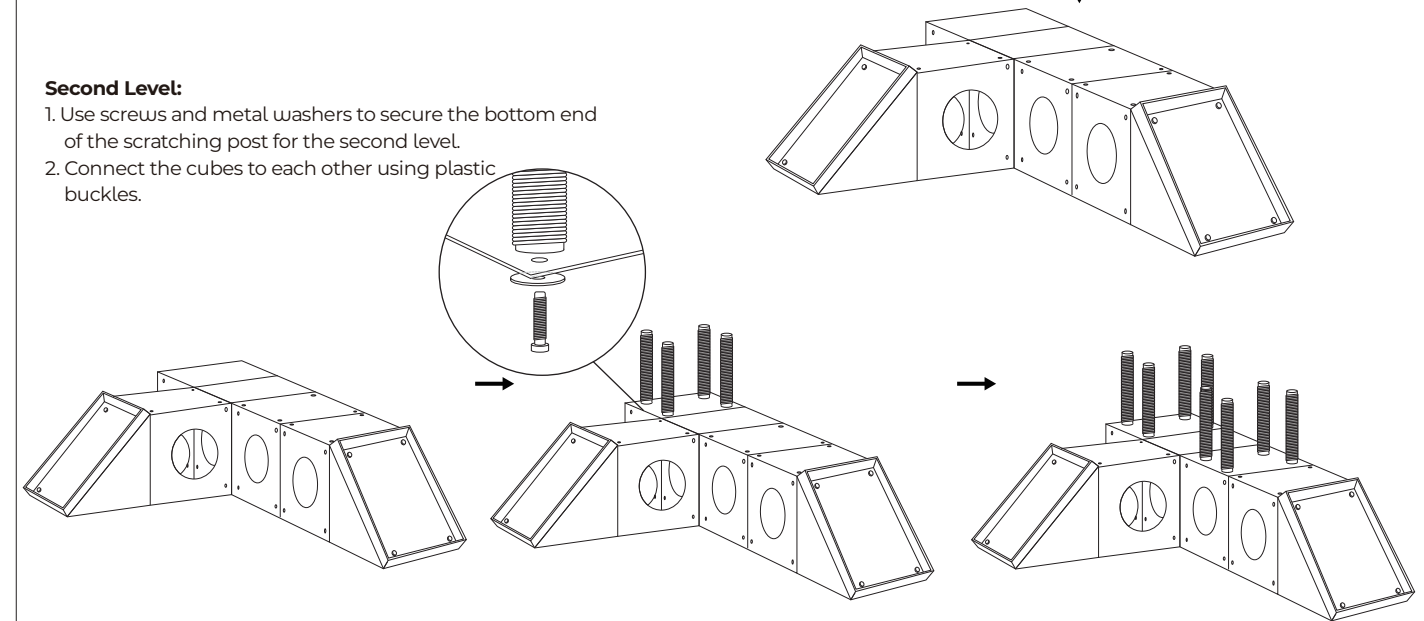

3. Finally, refer to the picture layout to connect and complete the entire bottom layer.

Second Level:

1. Use screws and metal washers to secure the bottom end of the scratching post for the second level.

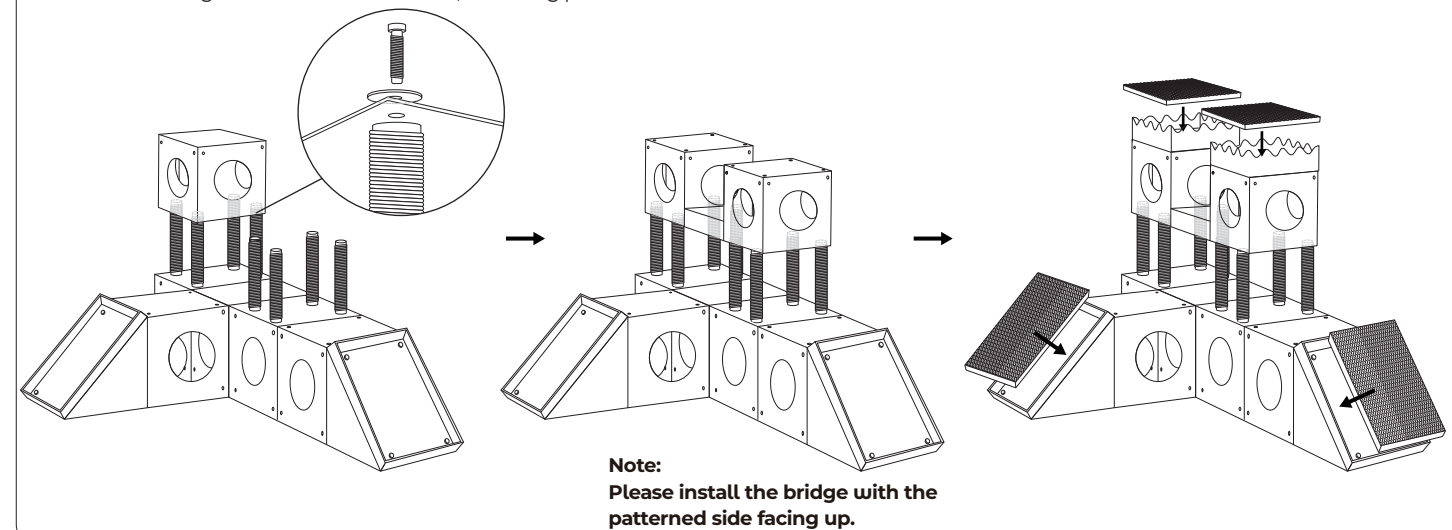

2. Connect the cubes to each other using plastic buckles.

Third Level:

1. Use screws and metal washers to secure the top end of the scratching post.

2. Install the bridge between the two cubes, also using plastic buckles for connection.

Warnings

1. This product supports a maximum weight of 15 kg (approximately 33 lbs). For your cat's safety, do not exceed this limit.

2. If your cat urinates on the product, clean it immediately. Prolonged exposure to moisture may weaken the cardboard and damage the structure.

3. Keep the cat tree away from direct heat sources or humid areas.

4. Periodically check all connectors and surfaces for signs of wear or damage.
