

VOICECAN ECHO

User Manual

Warranty, Safety & Support Included

Welcome to Voicecan Echo

Voicecan Echo is a lightweight wearable AI voice recorder designed to help you capture meaningful everyday moments.

With multiple recording modes and APP integration, Voicecan Echo allows you to replay, organize, and preserve important voice memories anytime.

Please read this manual carefully before first use.

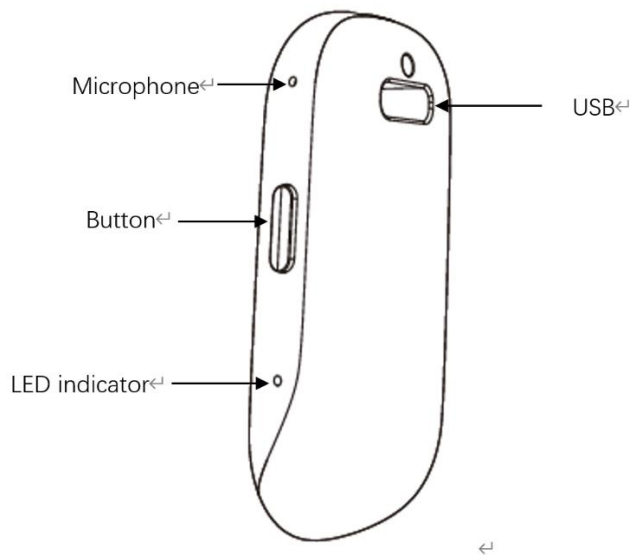

Download the Voicecan APP by scanning the QR code

1. Initial Setup

Step	Instructions
1	Download the Voicecan APP by scanning the QR code or searching "Voicecan" on the App Store or Google Play.
2	Create or log in to your Voicecan account.
3	Press and hold the device button until the white LED starts flashing.
4	Open the APP and tap Add Device.
5	Select the device named VOICECAN Echo and complete pairing.
6	Follow the in-app instructions to configure network for audio synchronization.
7	Press and hold the button to start recording.

2. Product Diagram

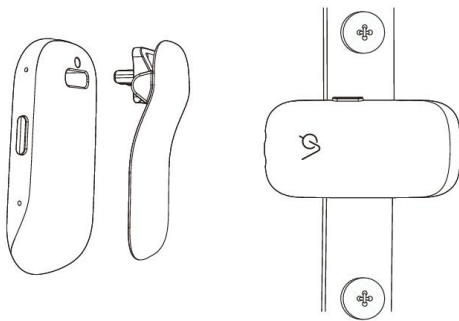

3. LED Indicator Guide

LED Status	Device Status	Description
Flashing White	Waiting for activation / pairing	Complete device setup in the APP

Pendant Style

5. Smart Capture Mode

Smart Capture Mode is designed for long-duration continuous recording.

The device continuously records audio while AI helps organize important moments automatically.

You can also manually add Highlight markers at any time.

Action	Device Response
Press and hold	Power on → Constant red LED
Single press	Add a Highlight marker
Double press	Switch to Lookback Mode → Constant purple LED
Press and hold during recording	Stop recording → LED turns off

6. Lookback Mode

Lookback Mode is designed for capturing important moments that just happened.

The device continues running in the background without continuously saving all audio.

When you hear something worth keeping, simply press the button once to save the recent audio segment.

Action	Device Response
Press and hold	Power on → Constant purple LED
Single press	Save recent audio
Double press	Switch to Smart Capture Mode → Constant red LED
Press and hold during recording	Stop recording → LED turns off

7. USB Drive Function

Voicecan Echo can also function as a USB flash drive when connected to a computer via the USB Type- C port.

The USB drive function can be enabled or disabled in the APP settings.

Note:

Recording functions are unavailable while USB drive mode is active.

USB drive mode is unavailable while recording functions are active.

8. Charging

Item	Details
Charging Port	USB Type- C
Recommended Adapter	5V USB power adapter
Full Charging Time	Approximately 2 hours

9. Package Contents

Included Items	Quantity
Voicecan Echo Device	1
Clip	1

User Manual & Warranty	1

Warranty, Safety & Support

1-Year Limited Warranty

This warranty covers manufacturing defects under normal use.

It does not cover damage caused by misuse, accidents, unauthorized modifications, or improper storage.

Responsible Use

Please use this device responsibly and in accordance with applicable laws.

Always respect the privacy and consent of others when capturing moments.

Users are solely responsible for complying with applicable laws and regulations regarding audio recording and privacy.

Unauthorized or unlawful use of this product may result in legal consequences, for which Voicecan AI Inc assumes no responsibility.

Battery & Safety

- Do not disassemble or attempt to replace the battery
- Do not expose to excessive heat or fire
- Avoid damaging the device
- Use only approved charging accessories

Keep this device and its accessories away from small children. Small parts may pose a choking hazard.

Privacy

Your privacy matters.

Voicecan Echo only keeps moments when you choose to save them.

Your data stays on your device or in your app unless you decide to use cloud features.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

Limitation of Liability

To the maximum extent permitted by law, Voicecan AI Inc shall not be liable for any indirect, incidental, or consequential damages, including but not limited to loss of data, loss of recordings, or loss of use.

Disclaimer

This product and its services are provided "as is" without warranties of any kind, either express or implied, except as required by applicable law.

Environmental Compliance

This product complies with applicable environmental regulations, including RoHS and REACH.
