Understanding LEDs

Light bulb	Status
Flashes once softly, then remains soft white at full brightness	Bulb is connected
Flashes five times quickly, then flashes twice softly in soft white	Factory reset is complete, and the bulb is ready for setup again

Changing Settings with Alexa

Use the Alexa app to rename a light, add lights to a group/room, or set up routines that automatically turn a light on or off.

Resetting to Factory Defaults

- ▶ Delete your light bulb from the Alexa app to factory reset the bulb.

OR

- ▶ Use a light switch to quickly turn the light on and off five times. When you turn the light on the sixth time, the bulb flashes quickly five times, then flashes twice softly. This indicates that the bulb has been factory reset, and it is ready for setup again.

Troubleshooting

If the smart bulb is not functioning properly, try the following solutions.

Problem

Light bulb does not turn on.

Solutions

- ▶ Make sure that the light switch is turned on.
- ▶ If installed in a lamp, make sure that it is plugged into a working power outlet.

Problem

Alexa app cannot find or connect to the smart bulb.

Solutions

- ▶ Make sure that you scan the 2D barcode on the *Quick Setup Guide* or the 2D barcode at the bottom of the light bulb during setup. Do not scan the barcode on the packaging for setup.
- ▶ Make sure that your phone/tablet and the Alexa app are updated to the latest software version.
- ▶ Make sure that your phone/tablet and smart LED light bulb are connected to the same 2.4GHz Wi-Fi network. The bulb is not compatible with 5GHz networks.
- ▶ If you have a dual Wi-Fi router and both network signals have the same name, rename one and try reconnecting to the 2.4GHz network.
- ▶ Make sure that your phone/tablet is within 9 m (30 ft.) of the smart bulb.
- ▶ Do a factory reset. See "Resetting to Factory Defaults."

Problem

How do I reset the light bulb?

Solutions

- ▶ You can do a factory reset by deleting your device from the app.
- ▶ If you are not able to delete your device from Alexa app, use a light switch to quickly turn the light on and off five times. When you turn the light on the sixth time, the bulb flashes quickly five times, then flashes twice softly. This indicates that the bulb has been factory reset, and it is ready for setup again.

Problem

If I lose the Quick Setup Guide or no barcode is available, how can I set up my smart bulb?

Solutions

- ▶ You can set up your device via two alternative setup methods. The instructions can be found in "Alternative Setup Methods" on page 56.

Problem

Error code (-1 :-1 :-1 :-1) displays on the screen.

Solutions

- ▶ Make sure your phone has Bluetooth turned on throughout the entire setup process and the device you are trying to setup is in pairing mode. Restart your device by powering it off and on, and then set up again.

Esto indica que se han restablecido los valores de fábrica de la bombilla y que esta está lista para volver a configurarse.

Solución de problemas

Si la bombilla inteligente no funciona correctamente, prueba las siguientes soluciones.

Problema

La bombilla no se enciende.

Soluciones

- ▶ Asegúrate de que el interruptor de la luz esté encendido.
- ▶ Si se instala en una lámpara, asegúrate de que esté enchufada a una toma de corriente que funcione.

Problema

La aplicación de Alexa no puede encontrar la bombilla inteligente ni conectarse a ella.

- ▶ Asegúrate de que el teléfono o tablet y la bombilla led inteligente estén conectados a la misma red wifi de 2,4 GHz. La bombilla no es compatible con redes de 5 GHz.
- ▶ Si tienes un router wifi dual y ambas señales de red tienen el mismo nombre, cámbiale el nombre a una e intenta volver a conectarte a la red de 2,4 GHz.
- ▶ Asegúrate de que tu teléfono o tablet esté a menos de 9 m (30 ft) de la bombilla inteligente.
- ▶ Restablece los valores de fábrica. Consulta Restablecer los valores predeterminados de fábrica.

Problema**¿Cómo se restablece la bombilla?****Soluciones**

- ▶ Para restablecer los valores de fábrica, elimina el dispositivo de la aplicación.
- ▶ Si no puedes eliminar el dispositivo de la aplicación de Alexa, usa un interruptor para encender y apagar rápidamente la luz 5 veces. Cuando enciendas la luz por sexta vez, la bombilla parpadeará rápidamente 5 veces y, luego, 2 veces suavemente. Esto indica que se han restablecido los valores de fábrica de la bombilla y que esta está lista para volver a configurarse.

Problema**Si pierdo la Guía de configuración rápida o no hay ningún código de barras disponible, ¿cómo puedo configurar la bombilla inteligente?****Soluciones**

- ▶ Puedes configurar el dispositivo con dos métodos alternativos. Encontrarás las instrucciones en “Métodos de configuración alternativos” en la página 226.

Problema**Aparece el código de error (-1 :-1 :-1 :-1) en la pantalla.****Soluciones**

- ▶ Asegúrate de que el teléfono tenga el Bluetooth encendido durante todo el proceso de configuración y de que el dispositivo que intentas configurar esté en modo de emparejamiento. Apaga y enciende el dispositivo para reiniciarlo y vuelve a configurarlo.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

“License” shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

“Licensor” shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

“Legal Entity” shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, “control” means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

“You” (or “Your”) shall mean an individual or Legal Entity exercising permissions granted by this License.

“Source” form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

“Object” form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

“Work” shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

“Derivative Works” shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

“Contribution” shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit

on behalf of the copyright owner. For the purposes of this definition, “submitted” means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as “Not a Contribution.”

“Contributor” shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a “NOTICE” text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one

of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such

obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets “[]” replaced with your own identifying information. ** libwebsockets; version 4.3.0 -- <https://libwebsockets.org/>
Copyright (C) 2010 - 2019 Andy Green <andy@warmcat.com>

Libwebsockets and included programs are provided under the terms of the MIT license shown below, with the exception that some sources are under

a similar permissive license like BSD, or are explicitly CCO / public domain to remove any obstacles from basing differently-licensed code on them.

Original liberal license retained:

- lib/misc/sha-1.c - 3-clause BSD license retained, link to original
- win32port/zlib - ZLIB license (see zlib.h)
- lib/tls/mbedtls/wrapper - Apache 2.0 (only built if linked against mbedtls)
- lib/misc/base64-decode.c - already MIT

Relicensed to MIT:

- lib/misc/daemonize.c - relicensed from Public Domain to MIT, link to original Public Domain version
- lib/plat/windows/windows-resolv.c - relicensed from "Beerware v42" to MIT

Public Domain (CC-zero) to simplify reuse:

- test-apps/*.c
- test-apps/*.h
- minimal-examples/*
- lws/*

Although libwebsockets is available under a permissive license, it does not change the reality of dealing with large lumps of external code... if your copy diverges it is guaranteed to contain security problems after a while and can be very painful to pick backports (especially since historically, we are very hot on cleaning and refactoring the codebase). The least painful and lowest risk way remains sending your changes and fixes upstream to us so you can easily use later releases and fixes.

MIT License applied to libwebsockets:

<https://opensource.org/licenses/MIT>
